CLIMBING WHITE COCHET.

ROBIN HOOD.

For price and description of these three Roses see page 1.

BRUGMANSIA, Or Angel's Trumpet

Here is a plant for the masses. It grows easily, blooms freely and the flower is something to be proud of. The Brugmansia blooms indoors in winter and in the garden in summer. The plant has large, tropical leaves, with blooms eight inches long by six inches wide at the mouth, resembling a trumpet, hence the name, "Angel's Trumpet." Pure white in color and as fragrant as a Jasmine. **Blooming plants, 20 cents each.**

Brugmansia, or Angel's Trumpet.

Our Great 60-Cent Mail Trial Collection for New Customers

This collection is, as you will readily see, composed of strictly meritorious and up-to-date varieties of plants. They are a fair criterion of the plants sent out from our establishment, and we guarantee them to be just as we represent them. This nice collection consists of the following choice plants:

- | | |
|--|--|
| 1 Nice plant of the Boston Sword Fern. | 1 Violet, Princess of Wales, fine single blue. |
| 1 Asparagus Sprengeri "Emerald Feather." | 1 Violet, Gov. Herriek, single, rich, dark purple. |
| 1 Geranium, Beaute Poitevine, best pink. | 1 Chrysanthemum, Col. D. Appleton, best yellow. |
| 1 Geranium, S. A. Nutt, red. | 1 Oleander, pink, very fine pot plant. |
| 1 Hardy Climbing Rose, Violet Blue, a very fine good bloomer | 1 Fuchsia, White Phenomenal, largest double white. |

This Trial Collection is a splendid bargain, costing only 6 cents per plant. If selected from any other catalogue they would cost at least \$1.00.

When ordering this collection please say "60-Cent Trial Collection."

Violet.

Our Fruit and Nursery Stock can be sent in one shipment, thereby often saving express charges.

SUCCESS—Last year we made a big addition to our packing house. This year we find it necessary to double the size of our office. **THE CAUSE:** Satisfied customers.

1 Climbing White Cochet (Tea.)

From Australia. No word is needed to emphasize the value of this grand climber which has retained all of the good qualities of the parent in addition to its climbing habit; it has already awakened a lively interest among Rose growers. Flowers are large, double and white, like the bush White Cochet Rose. Specially recommended. **Price, first size, 50 cents; second size, 35 cents; third size, 25 cents.**

ILLUSTRATIONS

2 Robin Hood (H. T.) This new rose has a glorious rosy-scarlet color that is at once soft and bright and lasting; the bloom is full and of the beautiful build of the H. P.'s.

It is a grand grower, heavy caned and profuse in foliage; flowers very freely produced; we feel sure this will prove a delightful companion for **Gen. McArthur** and **Rhea Reid**. **Price, first size, 50 cents; second size, 35 cents; third size, 25 cents.**

THE NEW HARDY EVER-BLOOMING GARDEN ROSE, RADIANCE

3 This grand variety was introduced in 1909 and has attained first rank in this country and in Europe. **Radiance** is a seedling from Cardinal, a brilliant rosy-carmine, displaying beautiful, rich and opaline pink tints in the open flower; the form is fine, largest size and full, with cupped petals. The bud is large, brilliant, radiant; the stems are long, buds and flowers borne erect on the strong stems, the foliage is abundant and of splendid substance, a dark, healthy green. It blooms constantly, delightfully fragrant and is so healthy that it may be said to be immune against disease. Add to these qualities that of hardiness and vigorous growth, then the grand qualities of this peerless Rose are plainly told.

Price, first size, 40 cents; second size, 30 cents; third size, 20 cents.

**THE GIANT
SPENCER
SWEET PEAS**

(As shown on page 4 of cover)

THREE OF THE BEST

Price, 10 cents per packet; 25 cents per ounce; one-fourth pound, 85 cents.

**New Sweet Pea,
Countess Spencer**

The grand flowers are not only of extremely large size, but are distinct in having the outer edges of the standard and wings beautifully crumpled or waved. The coloring is a silvery-white, suffused with soft rose-pink, which deepens at the outer edges and becomes still richer or more heavily suffused in cold weather.

Countess Spencer

The grand, original from which this beautiful giant-flowered race has sprung and still the gem of all the "Spencers"; flowers of noble proportions and exquisite coloring. Soft pink.

Asta Ohn Spencer

Beautiful, soft lavender, slightly suffused with pinkish mauve; large waved flowers.

**IMPORTANT INFORMATION
FOR CORRESPONDENTS AND CUSTOMERS****BEFORE ORDERING READ THE FOLLOWING**

First of All Tell us how you want your order shipped. If by mail, we pay postage. If by express, we send it collect, unless you say that we shall pay charges; in that event, we will remove nearly all soil, thereby making it the same as a mail shipment and make your selection of premiums the same as when plants are sent by mail. This is just what is done by all firms who pay the express charges.

The Proper Way to Have Plants sent you is for you to pay the express, then we send larger extra plants to more than pay the express charges.

The Amount of Charges is given on each shipping tag, and if the agent tries to collect more, pay it and send the tag to us and we will refund the difference. If the amount should not be on the tag, ask your agent for the amount they were billed out of this city. Express charges, as a rule, on a \$3.00 order are not more than 35 cents and to far away points about 50 cents, so you can figure for yourself the extra you can get for a small outfit.

N. B. We do not pay express on fruit or tree orders, nor allow premiums on them, nor put them in your premium list. They are net and not subject to discount, so kindly keep your plant and tree orders separate. Our nurseries and greenhouses are now combined and we can send your order in one shipment instead of two as heretofore, and save you one express charge. So send us your fruit orders and you will be pleased. We can send fruit by express or freight.

Postage Stamps These can be sent for fractional parts of one dollar or where postoffice orders cannot be had, provided a two-cent stamp extra is sent with every remittance. None but stamps in perfect order accepted.

Guarantee of Quality and Service We guarantee all Trees, Shrubs, Plants, Bulbs and Seeds that we send out to be true to name, and to reach purchaser in good condition when forwarded by mail or express (freight shipments at purchaser's risk), and hold ourselves in readiness to replace all stock that may accidentally prove untrue to label, free of charge, or refund the amount paid therefor; but it is mutually understood and agreed between the purchaser and ourselves that our guarantee of genuineness shall not in any case make us liable for a greater sum than that originally received for such stock that may prove untrue. Most failures with Plants, Bulbs and Seeds are due to soil conditions, unfavorable weather and other causes entirely beyond our control, rendering it impossible to guarantee success; and although we will take all possible care to send only such stock as will under proper conditions give satisfactory results, we do not, and should not be expected to, guarantee stock to grow or guarantee results in any way, and we cannot entertain complaints that are made promptly after receipt of goods.

If You Wish Orders Held Please say so, then we can hold your order (and set items aside for you if necessary) until proper time to ship; otherwise we will send at once or acknowledge their receipt. We work extra forces when necessary, and always try to ship promptly.

Our Fall Catalogue of imported Bulbs, Plants and Seeds for fall planting and winter bloom will be ready about September 1, and sent to all of our patrons this year without request; to others free on application. If not received promptly, a postal card will bring it.

We especially urge you to include in your order the three new and meritorious Roses and the three Spencer Sweet Peas offered on this page, as we feel sure you will be pleased.

Pink Rubra If you have only one Begonia, let it be a pink Rubra, for it will prove a constant delight. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy stiff canes an inch in diameter, and rising beside them will grow strong, slender branches, gracefully drooping under heavy waxen silver spotted leaves and pendent panicles of pink-colored flowers as large as a hand. Price, 10 cents each; three for 25 cents; strong plants from three-inch pots, 20 cents each; three for 50 cents.

MAIL AND EXPRESS CLUBBING RATES

 We pay postage on all shipments sent by mail. We also pay express charges on all shipments by express, except such offers as otherwise stated, if customers will so state in their orders. In that event select your premiums in accordance with mail clubbing rates. The proper way is to have plants come by express with some soil on. Oftentimes charges will not be over 35 cents.

NOTE DIFFERENCE BETWEEN PREMIUMS ON MAIL AND EXPRESS ORDERS.

NOTICE.—The Premium Rates apply only to Plants and Bulbs at price per single plant. Do not apply to collections prices by dozen, fifty or one hundred rates, or to Fruit Trees, Ornamental Trees, or Small Fruits.

PREMIUMS ON MAIL ORDERS

For a remittance of \$1.00 you may select extra plants valued at 10c.
For a remittance of \$2.00 you may select extra plants valued at 30c.
For a remittance of \$3.00 you may select extra plants valued at 50c.
For a remittance of \$4.00 you may select extra plants valued at 75c.
For a remittance of \$5.00 you may select extra plants valued at \$1.00.
For a remittance of \$6.00 you may select extra plants valued at \$1.50.
For a remittance of \$7.00 you may select extra plants valued at \$1.75.
For a remittance of \$8.00 you may select extra plants valued at \$2.00.
For a remittance of \$9.00 you may select extra plants valued at \$2.25.
For a remittance of \$10.00 you may select extra plants valued at \$2.50.
And for each dollar sent above \$10.00 you may select plants to value of 25 cents.

PREMIUMS ON EXPRESS ORDERS

For \$2.00 select extra plants to the value of 60 cents; \$3.00 select \$1.00; \$4.00 select \$1.50; \$5.00 select \$2.00; \$6.00 select \$3.00; \$7.00 select \$3.50; \$8.00 select \$4.00; \$9.00 select \$4.50; \$10.00 select \$5.00; and for each dollar sent above \$10.00 you may select extra plants to value of 50 cents.

SEED ORDERS are entitled to same discount as Plants, when purchased at prices per single packet.

 Always say how you want us to ship your order, by mail or express, and if we are to pay charges or you. In this way there can be no mistake. If we are to pay express we will remove soil and you select premiums according to mail clubbing rates. The proper way to receive plants is by express at your expense, and the charges on a \$3.00 order will not be over 35 cents to 50 cents, except to extreme far away points.

Errors and Complaints We exercise the utmost care in filling orders, striving to do a little more than we offer, yet in the press of business errors sometimes occur, and when orders are received that are in some way damaged or not satisfactory, we wish to be promptly notified of the fact, and will make such an adjustment of your claim as will be satisfactory. When you write us, simply give the nature of your complaint, giving a list of the plants damaged and price paid for them, and state whether you wish these items replaced or the amount refunded. It is nearly impossible to find time in the busy season to adjust your complaints promptly unless you give us all the information required to do so in your first letter.

Lost or Unsigned Orders Letters are often sent us unsigned and letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order, stating when and in what form payment was sent and sign the name and address the same as in the first order, so that it may have immediate attention.

Special Express Rates for Plants By special arrangements with all Express Companies, all plants are carried at a reduction, and on account of a graduated scale of rates runs from twenty per cent. to thirty-three and one-third per cent. less than the regular merchandise rate. As this is the largest shipping point of plants in the United States, and as all offices are sending out plants every day in the year, the charges being regulated at the offices here, you are insured of the special reduction.

Plants by Mail All stock listed in our Catalogue, unless noted, is offered at prices marked, by mail, postpaid, and we deliver all such items free of all expense to any postoffice in the United States.

Springfield Gives Lowest Express Rates Only where all the Express Companies are represented, as at Springfield, can the absolutely lowest Express rates be given our customers.

INDIVIDUAL ORDERS ARE ALLOWED THE SAME RATES AS CLUB ORDERS

Plants By Mail Small plants will be sent free by mail when so desired. The greater part or all of the soil is removed from the roots, which are carefully packed in damp moss. We cannot forward bulky plants, such as Azaleas, Camellias, large Roses, Shrubs and similar stock by mail.

Plants By Express We will pay express charges on all orders when requested to do so by our customers, except such orders where we say by express at purchaser's expense. But when we pay charges we kindly ask our customers to select premiums in accordance to our mail clubbing rates, and we remove nearly all the soil from the roots, which makes it equivalent to receiving plants by mail. The proper way to receive plants is by express at purchaser's expense, and the cost oftentimes is not over 35 cents, except in far away places, and at no time should the charges be over 8 cents per pound. The charges are now placed on each shipment, and whenever the agent attempts to charge more than stated on the shipment, pay it, take his

receipt for it and we will refund the overcharge. When purchaser pays express charges we can send larger and better plants and always add enough extra plants to more than pay the expressage. Every order over \$2.00 should be sent by express.

Plants By Rail Shrubs, Hedge Plants and other dormant stock can be forwarded safely by fast freight lines, even to very distant points, at low rates.

Packing Free We make absolutely no charge for boxes or packing, or delivery to any express, freight or steamship line in Philadelphia.

Safe Arrival Guaranteed We guarantee the safe arrival of all plants to any part in the United States or Canada.

Foreign Shipments We are constantly making shipments of Seeds, Plants, Bulbs, etc., to Cuba, Porto Rico and Mexico, and by our system of packing the goods invariably arrive in the best condition.

All orders, unless instructions are received to the contrary, are executed and forwarded upon receipt. Customers placing orders for stock to be reserved and sent later must distinctly specify this at time of ordering.

Miscellaneous Hints and Suggestions for the Amateur Florist

Soil for Pot Plants Ninety-nine out of every hundred plants that can be grown in the house will do well in any good soil that is not too heavy to allow water to run through it readily. A soil prepared after the following formula will answer the needs of the flower-grower excellently: One part ordinary loam; one part leafmold or turfy matter. Mix these together and add enough sharp sand to make the whole so friable that it will fall apart readily after squeezing it in the hand.

The "turfy matter" advised as a substitute for leafmold is obtained by turning over sod and scraping away that portion of it which is full of grass roots. This gives you a light, spongy soil, rich in vegetable matter, almost as valuable as genuine leafmold from the woods. A sprinkling of bonemeal can be added to give richness, if thought advisable. But we think it best to wait until a plant has made some growth before using much fertilizer. At no time should enough be used to produce a rapid growth, for rapidity, as a general thing, means weakness. A sturdy, healthy development is what should be aimed at, and the wise gardener will be content with it.

Drainage Every pot more than three inches across ought to have something in the way of drainage before filling it with soil. If there is no outlet for water, the soil is soon soured by it. This results in diseased roots, and anything that interferes with healthy root action will eventually destroy the plant unless the difficulty is promptly remedied.

Watering We are often asked to give a rule for watering plants. There can be no hard-and-fast rule because conditions differ so widely; but it is always safe to wait until the surface of the soil has a dry appearance. Then apply enough water to thoroughly saturate all the soil in the pot, after which wait until the surface takes on a dry look again before applying more.

Plants in small pots dry out rapidly, and will require watering much oftener than those in large pots. In winter much less water is needed than in summer. Plants not making active growth will need but little water. Plants exposed to the sun will require a good deal more water than those in the shade.

Repotting We do not advocate frequent repotting. In the shape of fertilizers rather than forcing them to depend upon the soil itself for nourishment. Our experience with root-bound plants which have been kept growing healthily by the application of fertilizers convinces us that a great deal of hard work can be saved by paying less attention to repotting than we have been in the habit of doing.

Young plants will require shifting to pots of larger size as their root system develops. To not repot such a plant would be to check its growth at a time when the devel-

opment of a vigorous root-system is a matter of great importance.

In repotting any plant, large or small, disturb the roots as little as possible. Slip it out of its old pot, put it into the new one and fill in about it with fresh soil. Water well after you have the plant in its new pot to settle the soil you have added.

Fertilizers There are many good kinds on the market. We cannot mention any particular kind here, with the exception of bonemeal, which has already been spoken of. This we consider a thoroughly reliable plant food.

But let us say right here, use whatever fertilizers you make choice of with great caution. Be governed by the instructions which accompany it. Don't think that because a little is good a great deal must be better. It is an easy matter to kill your plants by being too kind to them.

Never use any fertilizer on a plant that is standing still. Wait until it begins to grow, and then weak applications, increasing the amount as the plant develops. So long as plants grow well, be content to let well enough alone.

Insects The insect most frequently met with among house plants is the aphid or green plant louse. The preparation on the market under the name of Nikoteen is the best weapon we know of to fight this enemy. Prepare and use it as directed on the bottle in which it comes. Keep a supply of it on hand, and make use of it whenever you discover an aphid. Do this promptly, and it is an easy matter to prevent the insects from spreading all over your plants; but wait a few days and you will find that the pest has increased a thousandfold. "A stitch in time saves nine."

If the leaves of your plants turn yellow and drop without any apparent reason for it, you are safe in suspecting that the red spider is the cause of the trouble. Turn up a leaf and examine it carefully. If you find tiny webs on it you may be sure your suspicions were well founded.

Nothing troubles the red spider but moisture. Showering—not sprinkling—with clear water will rout him if persisted in. Lay the infested plant down on its side and turn on the hose. Do this several times a week until the plant shows no more yellow leaves and not a web is to be seen. Keep water constantly evaporating on stove and register in winter. Do any and everything that will help to keep the atmosphere of the room moist, but depend upon showering as a general treatment.

Airing Your Plants Give the plants in your window fresh air on every pleasant day. Open a door or window at some distance from them, and let the cold air from out of doors mix with the warm air of the room before it reaches them. This is very necessary, especially in winter, when our rooms are sure to be overheated, and the air in them is depleted of its life-giving qualities.

SPECIALLY PREPARED ROSES for the GARDEN

WHILE our old customers are familiar with the grade of Roses which we send out, we wish to direct the attention of those who have never planted our stock to the manner in which these plants are prepared. The bulk of our Roses are grown in cold greenhouses, where artificial heat is only used to exclude severe frosts. Under this treatment the plants develop in the most natural way, and are much superior to stock which has been forced in a high temperature into an unnatural and weakened growth, and to the comparatively worthless Roses which are sold so cheaply in a dormant condition. Our Roses are all grown on their own roots.

HOW TO GROW ROSES

Situation Good Roses may be grown in any open, sunny position, if possible sheltered from north winds, and clear of all roots of trees and shrubs.

Preparation of the Beds Roses will grow and give good returns in any fertile, well-drained ground; but it is worth

while to use some care in the preparation of the beds, as the general health of the plants, quantity and quality of bloom usually more than repays the extra care expended on this detail. The best soil for Roses is sod from an old pasture and well-rotted cow manure. Dig out the bed to depth of two feet or more, and if drainage is imperfect, it must be provided for. Fill in with a mixture of soil and manure as above. It is best to make the beds some time in advance of planting, to allow time for settling. After the soil is settled, it should be about an inch below the level of the adjacent surface; make the beds not over three and one-half feet wide, which enables you to pick the blooms without stepping on the bed.

Planting and Summer Care The ideal time to plant is in the spring, just after danger from frost is past. Tea and Hybrid Tea varieties can be set 18 inches apart, Hybrid Perpetuals two feet apart, and both eight inches from the edge of the beds. When the plants are supplied in pots, they should be set so that the ball of earth is about two and one-half inches below the level of the ground. Firm the soil well around the plants, and give a thorough watering if the soil is dry. Throughout the summer the surface of the bed should be cultivated weekly. If this is done, watering will be unnecessary.

Pruning About the end of October it is well to cut back to about three feet all the canes of the strong-growing sorts. The principal pruning should be done in the spring, beginning with the Hybrid Perpetuals in March. If quantity of bloom for garden effect is the object sought, then four or five canes may be left three feet in length, and all very old or weak growth cut away entirely. After the plants are through blooming, the canes should be shortened back at least one-half to enable the plants to make a strong growth for the next

season of bloom. If quality is desired, all weak growth should be removed, and the remaining canes cut back in proportion to their development, the weaker ones to about four inches from the root, and stronger ones eight to nine inches. All canes should be cut off about a quarter of an inch above an outside bud. By doing this, the plant will grow in

an open head, as the buds usually grow in whatever direction they first take. Roses, pruned in this way, require no staking up, and will need no summer pruning, the cutting of the flowers with good stems being sufficient. Everblooming Tea sorts are best not pruned until they show evidence of growth, indicated by the buds beginning to swell. By that time dead or unhealthy wood is readily detected, making it easy to see what should be cut away and what should be retained. They do not need such severe pruning as that described for the Hybrid

Perpetuals, and all wood that looks promising may be left on. Climbing Roses require no pruning beyond cutting out the very old or dead wood and the shortening of the laterals and canes to make the growth conform to the space to be covered.

Winter Protection In the latitude of Springfield a covering of three or four inches of manure or leaves over the entire bed is sufficient. In colder latitudes, draw the leaves up around the stems six or eight inches higher, and in very cold places, earth them up and protect with cornstalks or evergreen boughs. For Tea Roses a good plan is to put a temporary fence of twelve-inch chicken wire netting around the bed, filling in loosely with leaves, with a little earth or some branches over all to prevent them from blowing away.

Enemies When grown under favorable conditions, Roses are not so apt to be attacked by insect pests and other troubles as they are if half starved and otherwise neglected. Our own experience shows that a weekly application of Bordeaux Arsenate of Lead Mixture, at the rate of 8 ounces to 5 gallons of water, applied with a whisk broom, or any sprayer that will reach the under side of the foliage, beginning at the time that the plants have developed into active growth, and continued throughout the season, will keep them free of almost all insect pests, as well as fungous diseases.

HARDY ROSES

(HYBRID PERPETUALS) A Splendid List, Complete in Every Particular. None Better. None so Cheap. Hybrid Perpetuals are considered the most valuable of all hardy plants. They are distinguished by their vigorous, upright growth and large, bold flowers, frequently measuring five to six inches in diameter. When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the ever-blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season—give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories, also in the colder parts of the states of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

Price, strong one-year-old plants out of 2½-inch pots, 15c, two for 25c; strong two-year-old, out of 4-inch pots, 35c, four for \$1.00, except where noted, by express, purchaser's expense.

Conrad F. Meyer It is perfectly hardy and blooms all through the summer and fall. The flowers are four inches across, perfectly full and double. The color is a clear flesh-pink, with bright red center; it is very sweet and has the delightful fragrance of the wild rose or sweetbriar. Entirely free from attacks of insects, rust or blight.

Captain Christy The flowers are of magnificent form, very double, the color a fresh, delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright satiny appearance.

Captain Hayward We claim for it, without fear of contradiction, the following good points: The strongest grower, the freest bloomer, the richest colored, the handsomest shaped of all red Hybrid Perpetual Roses. Color richest crimson-scarlet; both bud and flower are perfect.

Frau Karl Druschki A pure paper-white, free-flowering large-sized Hybrid Perpetual. It is a remarkably handsome plant with bright, heavy foliage and strong, upright growth. There is nothing in the line of perfectly hardy Roses that can compare with this one in form, color and general finish. Price, strong one-year-old plants, 15 cents each, three for 35 cents. Two-year-old, 35 cents, three for \$1.00.

General Jacqueminot Bright, shining crimson, rich and velvety; brilliant and handsome; makes magnificent buds and flowers, and is highly esteemed as one of the best and most desirable Roses for open ground and also for forcing.

J. B. Clarke Its blooms are very large and beautifully formed; color unique, being intense scarlet shaded crimson-maroon, very dark and rich; strongly fragrant. Awarded gold medal of the National Rose Society. Seven and one-half inches in diameter by five inches deep.

American Beauty.

Paul Neyron Deep pink; flowers very large, often measuring five inches in diameter; without doubt the largest flower of all Roses, and it has this merit—though very large, the buds always develop fine, perfect Roses.

Robert Duncan Bright crimson flushed with rosy-lake; very floriferous; fragrant.

American Beauty The popular perpetual bloomer. It is well known as one of the grandest perpetual blooming Roses we have; makes splendid buds and magnificent large flowers, very double and deliciously fragrant; color deep rich crimson exquisitely shaded; true perpetual bloomer, bearing flowers all through the season; highly valued for growing under glass for cut flowers; always scarce and in great demand; requires protection in winter. Price, 15 cents each; two-year-old plants in three-inch pots, 25 cents; four-inch pots, 35 cents; extra large, 50 cents each.

Anna de Paris (Glory of Paris) Brilliant pink, sometimes shaded with bright maroon; long, pointed buds and large, finely formed, compact flowers, very full and sweet. One of the best.

Clio A fine hardy Rose. Color a delicate flesh, shaded in center with rosy-pink. A magnificent Rose in every particular.

Coquette des Alpes Large, full, finely formed flowers; pure white, sometimes faintly tinged with pale blush; profuse bloomer.

Duke of Edinburgh Brilliant scarlet-crimson, shaded with maroon, large and full. Foliage very attractive.

Eugene Furst In this Rose we have one of the most distinct and valuable additions to our garden Roses that has been made in many years. It is large and full, fine form. Color deep red shaded crimson. Profuse bloomer. A most charming Rose.

Hardy Roses continued on next page.

HARDY ROSES HYBRID PERPETUALS—Concluded

Price, strong one-year-old plants out of 2½-inch pots, 15c, two for 25c; strong two-year-old, out of 4-inch pots, 35c, four for \$1.00, except where noted.

Gloire de L'Exposition Bruxelles Flowers finely formed, large and perfectly double; color bright crimson. of velvety texture; a Rose of unusual merit; we are pleased with it. One of the very best.

His Majesty Dark deep crimson, shaded deep vermilion towards the edges. The blooms are full, of great size, having wonderful substance and depth of petal, with high pointed center. It is also one of the sweetest perfumed Roses in cultivation. Awarded gold medal, N. R. S., 1908.

John Hopper One of the most reliable and satisfactory Hybrid Perpetuals ever grown. Flowers are large, very regular and full; color a brilliant rose, changing to a bright glowing pink, shaded with rich scarlet; very sweet and a profuse bloomer.

La Reine A beautiful clear, bright Rose, fine, full form, very fragrant. It is well named "The Queen."

Mme. Chas. Wood One of the finest bloomers. A grand Rose on account of its constant blooming, which begins soon after planting and continues all through the season. Flowers are large and perfectly double; color rich crimson-scarlet.

Madame Masson The flowers are large, color a clear, bright rose, highly perfumed, one of the best for planting.

Madame Plantier The ironclad white cemetery Rose. It bears thousands of beautiful snowy-white, fragrant Roses. It is as hardy as an oak.

Magna Charta A splendid Rose; extra large, very double; color clear rosy-red, beautifully flushed with velvet-crimson; flowers very fragrant.

Marie Baumann Bright carmine; large, smooth and of exquisite form; one of the best.

Marshall P. Wilder Flowers large, semi-globular, full and of good substance; bright scarlet-crimson, richly shaded with maroon.

Giant of Battles The buds are solid and beautifully formed, the petals close upon each other in folds of crimson, shaded with velvety-maroon; in the open flower they are regular.

Gloire de Lyonnaise This grand Rose is the nearest yellow Hybrid Perpetual we have. It cannot be called a deep yellow, but rather a pale shade of chamois, or salmon-yellow, deepest at center, sometimes passing to a rich creamy-white, finely tinted orange and fawn.

Prince Camille de Rohan Very rich velvety-crimson, passing to intense maroon, shaded black; large, full flowers, looking at a little distance as if really black; one of the darkest Roses; very handsome.

Roger Lamberlin One of the most remarkable Roses yet offered. The petals are irregular on the edges, like a double Petunia; the color is glowing crimson throughout, except the edges of the petals, which are distinctly marked with a white band.

Ulrich Brunner Splendid flowers of fine form with shell-shaped petals; one of the most abundant bloomers; color cherry-red.

Ulrich Brunner.

Vick's Caprice A fine striped Rose of remarkable beauty. The flowers are large and elegantly formed, quite full and double; color deep, clear pink, with wide stripes of pure white; very handsome and attractive; it is a good strong grower, entirely hardy.

SPECIAL OFFER We will send **THREE** Different Varieties of Large, Two-Year-Old Roses for 50c by mail.

OUR POPULAR "HARDY EIGHT" FOR 1913

SPECIAL OFFER—We will send the entire set of eight very fine plants for only 50 cents. In splendid two-year-old plants, the set of eight for \$1.60. This is a splendid collection of ever-blooming bedding Roses. It cannot be exceeded. Must be ordered complete to get them at this price.

Any Rose in this Hardy Eight Collection can be purchased at 10 cents each, or three for 25 cents in one-year-old. Strong two-year-old, 25 cents each, or five for \$1.00.

We are constantly in receipt of inquiries from our customers for Roses that are ever-blooming and yet hardy. On this page we again offer a fine collection combining these two qualities.

Blumenschmidt (Hybrid Tea.) Pure citron-yellow, outer petals edged tender rose. Has a vigorous growth. Winner of three first premiums.

General Jacqueminot Bright, shining crimson, rich and velvety; exceedingly brilliant and handsome; makes magnificent buds and flowers, and is highly esteemed as one of the best and most desirable Roses for open ground and also for forcing.

Maman Cochet An excellent pink Rose, with rich, healthy foliage and large flowers, on long, straight stems; color deep rosy-pink, the inner side of petals silvery-rose. Equally valuable for pot culture or outdoor planting.

Mrs. B. R. Cant Bright pink. Makes splendid buds extra large full flowers, bright, clear rose-pink, perfectly double and full and delightfully sweet; an excellent bedding Rose, as it blooms all the time, and both flowers and buds are large and exceedingly beautiful.

Rhea Reid Considered by experts to be the finest red Rose in existence; has no rival. Rhea Reid is an offspring of American Beauty, which fact alone would place it right in the front rank along with its hitherto unrivaled parent. Its superiority over American Beauty is due to the following great essentials: As fragrant as La France, as continuous in bloom as The Bride, and a much darker and richer red than the American Beauty.

Rhea Reid.

White Maman Cochet The finest Rose of the year. Its growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose.

William Notting This Rose was first sent out in this country under the name of Indiana. By some mishap it has been overlooked in the shuffle. We have found out it is a first-class Rose and we will in a manner resurrect it. The flowers are very large and full; color a bright rosy-cerise, center deeper, sweetly perfumed. It is a grand bedding Rose.

Wm. R. Smith This Rose has our unqualified endorsement. Buds are perfect and the open flower is a creamy-pink color with flesh-tinted tips and the base buff-yellow. The blooms are borne on long, strong stems, just right for bouquets.

N. B.—There are two distinct collections on this page. Do not get them confused.

FOR
1913SPRINGFIELD, OHIO
THE
FLORAL CENTER
OF THE
WORLD

Andre Gamon Fine bronzy foliage, buds; the flowers are large, full and globular, carried well above the foliage upon rigid and strong stems. Color deep rose and carmine. Edges of petals carmine-lake. As a garden Rose this will become popular on account of its distinct soft color and its remarkably free flowering qualities and hardiness.

Crown Princess Cecile Delicate silvery-pink; long buds opening to large flowers carried on stiff stems. A free and continuous bloomer.

Eugene Boulette (H. T.) This Rose is a very free bloomer and has proved itself valuable as a bedder for the garden. Color is deep crimson to carmine, and the large flowers are so freely produced that they make a sheet of gorgeous color.

Florence Edith Coulthwaite Beautiful bedding variety that can be classed as a substantial "fancy;" the blooms are large and full. The edges of the petals are beautifully ruffled. Color deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best.

F. R. Patzer (1909) A distinct free-growing variety with large handsome flowers, which are produced very freely on stout, stiff stems of perfect form and highly tea-scented. The color is creamy-buff, the back of the petals being a delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination.

Jonkheer J. L. Mock (H. T.) A novelty of distinct merit. Color is carmine, changing to imperial pink. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of large size, perfect formation and highly perfumed. Growth is vigorous and free. "We can confidently recommend this sterling novelty as a most valuable addition."

Killarney Queen A cerise-pink sport of Killarney that for brightness of color has not been equaled. Exceptionally strong in growth, with foliage that is perfect, being larger than Killarney and more glossy. In size of petals Killarney Queen is larger than its parent, and for high-grade bloom it is a very superior variety.

Lady Hillingdon A beautiful Tea Rose that has created quite a sensation. The blooms are an exquisite shape and color a deep apricot-yellow, shading to orange. Deliciously fragrant.

Margaret Molyneux One of the most distinct and beautiful yet introduced. The flowers are semi-double, and are produced in trusses of three to five, each carried on long, rigid stems. The color is as novel as beautiful, varying from saffron-yellow shaded bronzy-carmine in the bud to delicate salmon-pink as the flowers fully expand; it is strong tea-scented.

Mme. P. Euler Entirely distinct in color, being a vermillion silvery-pink, very large, very double and of good form; also possessing great lasting qualities, very free-flowering and fragrant.

Mme. Ravary Distinct color, which is yellow, becoming lighter as the flower expands. The flowers are of splendid form, full, double and very fragrant.

Mme. Valere Baumez Selected from a large number on trial, first on account of its fine growth, combined with its unusual and delightful color, light flame with golden center, shaded glowing salmon. Form full and beautifully rounded, of large size on heavy, upright canes; the foliage is very handsome, thick and glossy, of beautiful dark green. A wonderfully striking flower; looks as if illuminated.

Miss Alice de Rothschild (1910.) In color a rich deep citron-yellow, which intensifies as the bloom expands. The flowers are very large, with high pointed center. The growth is vigorous, continuous in blooming, deliciously fragrant; a superb Rose in every respect; appropriately described by one grower as a bedding Marechal Niel.

Mrs. Aaron Ward This Rose is a real joy to the grower and absolutely distinct. Has a color that catches the eye at once. Coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open, when it looks like a full fluffy-silk rosette. No wonder everybody that sees it falls in love with it; one of the most beautiful Roses in existence.

Mrs. Alfred Tate Entirely distinct and very beautiful; in color a coppery-red, shaded fawn, with ochre shading at the base of the petals; a wonderful long pointed flower with heavy petals, just double enough to make a perfect form;

very floriferous and sweet.

Mrs. Kenyon Slaney (1910) In color a blush-pink on a rich cream ground, the pink intensifying as the flower expands; vigorous habit, very free-flowering, flowers large, of wonderful finish and delightfully tea-scented.

Natalie (H. T.) Pure white and is said to even excel Druschki.

Bottnner The shape of the flower is similar to Kaiserin Augusta Victoria and the blooms are borne on long, strong stems. Very choice.

Prince E. C. (H. T.) A D'Arenberg A brilliant fiery-scarlet with buds of unusually good substance; a fine erect grower, with ample foliage; should be carefully tested for forcing, as it has promise in this line.

Theresa (1909) A medium-sized semi-double flower, which in the bud or half-expanded flower is admired by everyone. In the bud state it is a deep orange-apricot, as the flower expands it becomes veined with flesh-pink, finally passing to silvery-pink. It is very free-flowering and particularly pretty in color in the fall when the nights are cool.

White A pure white sport of the Killarney popular Rose. Identical with its parent, excepting in color, which is a pure white.

Graf (Count) Zeppelin (H. C.) A fine climbing Rose, similar to 'Aussend-schoen', but the color is vivid pink with a fiery reflex which is very effective.

Mme. Valere Baumez.

Papa Gontier An excellent crimson Tea, and one of the best for all purposes. It has a perfect shaped bud on good length of stem, making it desirable for cut flowers.

Pearl of the Gardens No yellow Rose in cultivation can equal this in its profusion of deep golden-yellow Roses. The only rival of Marechal Niel.

President Carnot It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems. The color is distinct and novel, a lovely fawn, shading to pearl.

Radiance (Carmine.) (New.) (See first page of cover.) Color a brilliant rosy-carmine displaying beautiful opaline-pink tints in the open flower. The form is fine; flower large and full with cupped petals. Splendid, healthy foliage. Price, 15 cents each; two for 25 cents. Two-year-old, 40 cents each.

Safrano Bright apricot-yellow, changing to orange and fawn, sometimes tinted with rose; fragrant and a rampant grower.

Souv. de A magnificent Rose of strong growth, extra large, perfectly

Pierre Notting double flowers, rich orange-yellow bordered with crimson-rose.

Kaiserin Augusta Victoria We have white Roses that have elegant buds, but when full blown are not all that is desired. This Rose combines both these good qualities. Color a pure snowy-white.

Souvenir de la Malmaison This Rose has creamy-flesh color with rose center.

Striped La France The Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower. Nicely striped, markings plain and distinct; a Rose on a satiny-pink ground.

The Bride A few of the white ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with The Bride in the size and shape of buds and half-expanded flowers.

Kaiserin Augusta Victoria.

The Red La France (Duchess of Albany.) It is identical with La France, excepting in three points. These are a more vigorous growth, a large and more expanded flower, and a deep, even pink in color—not shaded, but what is called a solid color.

Wellesley (Rose-Pink.) The flowers are extra large and full. Color, bright clear rose-pink, reverse of petals silver-rose; a vigorous grower, bearing its flowers on tall, stiff canes; very free bloomer. Price, one-year-old plants, 15 cents each; two-year-old, 40 cents.

Ever-Blooming

TEA ROSES

Concluded from page 11.

American Pillar.

William Notting.

William Notting Very large full, reverse coral-red, inside salmon, center deeper; first-class for forcing, bedding and cut flower, sweetly perfumed. Price, 15 cents each; two-year-old, 40 cents.

PRICE for Roses on this page per single plant, except where noted, 10 cents each; any three for 25 cents; seven for 50 cents; any fifteen for \$1.00. Large two-year-old plants, 25 cents each, except where priced otherwise; any five two-year-old plants for \$1.00.

Yellow Soupert, or Mosella

The splendid bedding Rose. Flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems. The color is chrome-yellow in the center, getting creamy-white on the edges of petals. It will make a great bedder and is perfectly hardy.

American Pillar (New Hardy Climbing Rose.)

Large single flowers of rich, rosy-pink, approaching brilliant carmine, just a glint of white in the center, and stamens yellow. Its blossoms—four to six layers deep—are arranged in 100-flowered clusters all over the plant. A tremendous grower, with thick vigorous canes, and dark, glossy foliage, insect and disease proof. Price, one-year-old, 15 cents. Two-year-old, 35 cents; three for \$1.00.

Mme. J. Grolez.

Climbing Baby Rambler Or Miss Mesman

Climbing Polyantha. This is a true ever-blooming Crimson Rambler, for at this writing (August 1st) it is in full bloom in the garden with enormous heads of richest crimson. There has been a widespread demand for a Crimson Rambler that would bloom more than once. Here you have it. Everyone knows how Baby Rambler is always in bloom. This is simply a climbing form of the Baby Rambler, embracing all its good qualities. Price, one-year-old plants, 15 cents; three for 40 cents. Two-year-old plants, 40 cents; three for \$1.00.

RAMBLER ROSES

Perfectly hardy everywhere, making them especially desirable for planting in severe climates. These are the most rapid growing Roses in existence. Price, one-year-old plants, 10 cents each; any six for 50 cents. Large two-year-old plants, 25 cents each; any five for \$1.00.

"Philadelphia" (New Hardy Crimson Rambler.) Hardy crimson climbing Rose, borne in grand clusters completely covering the whole bush; color pure deep rich crimson.

Pink Rambler (Euphrosyne.) Flowers of lovely shade of light pink.

Yellow Rambler (Aglia.) Flowers borne in immense clusters like Crimson Rambler, of a decided yellow color.

Crimson Rambler It blooms in immense clusters of bright red Roses that last for two weeks. Ofttimes these sprays of bloom are two feet in length by a foot in breadth. At first sight you would not believe it a Rose.

White Rambler (Thalia.) Double white flowers; very desirable.

Flower of Fairfield (The Sensational Ever-Blooming Crimson Rambler.) This is truly an ever-blooming Rambler. For years the ambition of every Rose grower has been to produce an ever-blooming type of the famous Crimson Rambler. This has been accomplished in this variety. It surpasses any other Rose for brilliancy of display. Blooming in the early spring, it continues until well along in the autumn, bearing large, brilliant crimson clusters of flowers with the greatest freedom. It has the additional advantage of blooming profusely on the young wood in one-year-old plants. Price, strong young plants, 15 cents each. Strong two-year-old, 35 cents.

Excelsa (New Fiery-Red Rambler Rose.) A splendid, new Climbing Rose, remarkable in many ways but particularly in the brilliant fiery-red, or intense, crimson-scarlet of the flowers. The flowers are very double; they are larger than any of the Rambler Roses and borne in trusses of thirty to forty on each; the body of the flower is brilliant in color but towards the edges of the petals they light up with a wonderful scarlet-crimson. It is very vigorous in growth. Price, first size, 20 cents each; three for 50 cents. Two-year-old, 40 cents each; three for \$1.00.

White Dorothy.

Five Good, Strong, Field-Grown Climbing Roses

Strong, robust growers, 30 cents each; the five for \$1.25 by express—your expense.

We have the following two-year-old field-grown Roses to offer this Spring, and believe if you will give them a trial you will be convinced that they are just what you have been looking for. Every one is a good one.

White Dorothy (New.) A pure white sport of well-known Dorothy Perkins, of some habit of growth and freedom of flowering; a splendid companion for the pink variety, as it flowers at the same time. A most valuable addition to this class. Awarded gold medal National Rose Society and Award of Merit, Temple Show, England.

Violet Blue (Veilchenblau, the Blue Rambler.) The most novel creation of the age. A perfectly hardy, rapid-growing Rambler, identical with Crimson Rambler, except the color of its flowers. The immense clusters of beautiful violet-blue flowers, reminding one at a distance of the Blue Clematis is a sight never to be forgotten. It is entitled to a place in every garden. It will cover the porch or trellis where planted in a short time, and will succeed everywhere.

"Philadelphia" (The New Improved Crimson Rambler.) The most magnificent hardy crimson climbing Rose in existence; borne in grand clusters completely covering the whole bush; color pure deep, rich crimson.

Dorothy Perkins Extremely hardy. The flowers are borne in clusters of from six to ten and are very double, with prettily crinkled petals. Remarkably prettily pointed buds, beautiful, clear shell-pink in color, lasting a long time without fading. The flowers are sweet-scented.

Tausendschoen (Thousand Beauties.) New. Imagine a luxuriant climbing Rose literally covered with thousands of bright blossoms, borne in clusters and quite double. Colors of every imaginable shade, from white to deep pink. A hardy, vigorous grower with few thorns and handsome foliage.

New Dwarf Cluster or Polyantha Roses

Orleans Rose.

Orleans Rose (Levvasseur, 1910.) The showiest and prettiest of all the Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geranium-pink with distinct showy center of pure white; florets not crowded. The plant grows like a weed and the flowers are nearly "immortelle" in their lasting qualities. This pretty Rose has taken Europe by storm and will make a sensation as soon as known in this country. Awarded gold medal.

The New Baby Rambler Roses have increased very fast in popular favor. They are continuous bloomers and are entirely hardy. Price, 10 cents each; any three for 25 cents. Two-year-old plants, 25 cents each.

Anna Muller (The New Pink Baby Rambler.) The shining brilliant pink flowers are produced in great profusion, in large clusters, from June until late in the fall. Each individual floret measures two inches in diameter. The petals are twisted, making a charming effect.

Mme. Norbert Levvasseur The Crimson Baby Rambler. It is in bloom all the time, flowers in large clusters of brightest crimson. It grows to a height of eighteen inches, and hides the plant with its bloom. A most wonderful Rose.

Catherine Zeimet This is the New White Baby Rambler. A continuous blooming Rose of great merit, fine for bedding.

Price, One-year-old Plants, 15 cents; Two-year-old Plants, 40 cents.

Jeanne d'Arc This is a pure white Baby Rambler, a fit companion for Mme. Norbert Levvasseur, the original Baby Rambler.

Jessie This new Baby Rambler is an ideal Rose for massing, bedding or for pot culture. The flowers, which are produced in huge clusters, are of a bright cherry-crimson color which does not fade.

Mrs. Taft This is the improved Baby Rambler; clear red in color, not fading like Baby Rambler. Certificate of merit of the London Horticultural Society.

Baby Tausendschoen New. Imagine a luxuriant Climbing Rose literally covered with thousands of bright blossoms, borne in clusters. Colors of every imaginable shade, from white to deep pink. A hardy, dwarf grower with few thorns and handsome foliage. Price, one-year size, 15 cents, postpaid. Two-year size, 40 cents.

EVER-BLOOMING CLIMBING ROSES

Price, one-year-old plants, 10 cents each; any six for 50 cents. Large two-year-old plants of Climbing Roses on this page, 30 cents, except where noted.

In the South or on the Pacific Coast, where they stand the winters, nothing can compare with them for beauty of bud and foliage. Are never to be forgotten when seen in full bloom loaded with thousands of magnificent flowers. Hardy varieties marked hardy.

Solfatare Clear, deep sulphur-yellow, handsome buds and flowers; free bloomer, climbing habit.

Lamarque A fine variety, of climbing habit. It is a pure white.

William Allen Richardson Large, double, orange-yellow, with outer petals lighter, center a coppery-yellow; very rich, rapidly becoming popular. It is a unique and lovely shade of yellow.

Pillar of Gold New Climbing Tea Rose. The grandest yellow climbing Rose yet produced. Flowers of largest size and perfectly double, deep yellow, finely tinted with rose.

Marechal Niel Rose The world-renowned Rose. A very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable for the South. We have a grand stock of this variety in three sizes. Price, strong one-year-old plants, 10 cents each; large and nicely shaped two-year-old bushes at 35 cents, and an extra strong, robust fellow that will take care of himself anywhere—the best you ever got—50 cents.

Ruth Vestal (Climbing Bride.) Resembles The Bride in flower, but greatly excels it in growth, showing strongly the climbing habit. The buds are of grand size. The flowers are large and double; is of strong constitution and easy culture, and is recommended for porch and garden.

Marechal Niel Rose.

New Single Chrysanthemums

Try a few of them; they will please you. Price, 10 cents each, three for 25 cents; 75 cents per dozen.

ARTHUR HORNE—Clear yellow; very free bloomer.

ENA REIMER—Terra cotta; one of the best.

GRACIE LAMBERT—Deep pink; a beauty.

KATIE COVELL—Maroon; stiff erect petals.

MARY RICHARDSON—Reddish-salmon; one of the most distinct.

MISS IRENE CRAGG—Perhaps the best pure white.

OUR CHOICE LIST OF FUCHSIAS

For window pot plants or for partially shaded spots in the garden these plants, with their gracefully drooping flowers, are held in high favor. There are no better Fuchsias than these; including the very best Double and Single varieties. They are beautiful and cheap. Price, 10 cents each. Any three for 25 cents; seven for 50 cents; fifteen for \$1.00, your selection.

Avalanche Beautiful golden foliage, dark, double violet-purple corolla.

Black Prince Makes a shapely bush, and is probably the freest in blooming. We have seen specimen plants six feet in height and four feet across loaded with thousands of its bright buds and blossoms of a beautiful waxy-carmine or pink color.

Emperor (Or Single Phenomenal.) This new Fuchsia is by far the largest of all the single flowering varieties. It is an exceptionally strong grower, bearing immense blooms of a very rich dark purple. It ranks among the singles the same as Phenomenal does among doubles.

Gloire Des Maches.

Single Chrysanthemum.

Fuchsia Elm City One of the best; sepals a rich crimson; corolla deep purple and very double; free flowering and easy to grow. Price, 10 cents each; 95 cents per dozen.

Gloire Des Maches (The Golden-Leaved Fuchsia.) It is nearly perfection as to free growing and habit, beginning to bloom quite early in the season and continuing very late. The tube and sepals are brilliant deep scarlet, thick and leathery in texture; the corolla is very large and double and pure white.

Phenomenal The grandest of them all. Phenomenal is the largest flowered Fuchsia in cultivation. The plant is a tall grower, branching like a tree; the leaves are a dark, glossy green, with veins of dark crimson, giving the foliage a rich, ornamental appearance. The flowers are of enormous size, a single flower measuring three and a half inches across; sepals bright scarlet, with rich violet-purple corolla. Very double.

Rosain's Patri Strong and bushy, beginning to bloom quite early in the spring and continuing very late. The tube and sepals are brilliant scarlet, thick and leathery in texture; corolla is very large; double and pure white.

Sapley Freres Erect grower; very large flower; corolla very double of rosy-violet; long, recurving sepals of bright coral-red.

New Trailing Queen Fuchsia This Fuchsia is an entirely new departure, differing from all other large flowering varieties in its habit of growth, as it is a trailing vine. The young plants, as they commence growth, creep out to the edge of the pot and then go trailing downward. It continues growing and branching in this way until the vines are a solid, wavy mass of the most elegant foliage and flowers. The flowers are borne in large, drooping clusters; very large, long and graceful.

Speciosa Corolla scarlet; sepals blush. One of the best blooming varieties for summer or winter.

Wave of Life Golden foliage, dark purple, single flower. A beautiful variety. Price, 10 cents each; 95 cents per dozen

White Phenomenal A splendid variety, identical with Phenomenal in every respect but color of the corolla, which is white, veined and shaded carmine.

"MUMS" IN THE WORLD

OUR splendid list of Chrysanthemums is unsurpassed anywhere. We take great pride in keeping it up to the highest standard and excellence. A glance over our splendid list will convince anyone that this is no idle assertion. We have by far the most complete collection of this most popular flower in the great Middle West, and there is absolutely not one poor grower or inferior sort among them. Owing to their extreme easy culture, Chrysanthemums are easy to grow and the gorgeous bloom will undoubtedly surprise you.

Adele Incurred variety. A delicate pink and very early flowering. Has a fine stem.

Alice Byron For size, finish and purity of color it leaves little to be desired. Color purest white, with clear, smooth florets. This will be found an extraordinary fine variety.

Benj. J. Giroud A rich deep crimson.

Black Beauty Color blood-red; petals long and curiously curled.

Black Hawk Dark velvety-crimson. This is President Roosevelt's favorite variety.

Carrie A deep yellow, dandelion shade. It blooms in September.

Clementine Touse (The "Early Chadwick") The largest obtainable white for the date, October 12. Has splendid stem. Plant in June, and take either crown or terminal bud.

Col. D. Appleton (The New Yellow.) It has proved to be one of the finest yellows ever sent out. It is an ideal exhibition variety, with flowers of immense size, measuring twenty-two inches in circumference and of great depth. Flower is a magnificent Japanese incurved. Color beautiful shade of clear yellow.

Daisy Moore A very distinct sort, reflexing and outer petals twisting, full to the center. Color bright pink.

Diana A pure white medium flower, largely used in making designs.

Dr. Enguehard Japanese incurved. Color a true pink. Perfectly double; midseason variety.

Enfant Des Mondes A strong free-growing, creamy-white variety.

Early Snow A fine incurved white, coming in at the same time as Polly Rose, and much larger and finer than that popular variety. Will become a standard commercial sort.

Estelle Produces extra-sized flowers of the purest white.

F. A. Cobbold (Midseason.) A large, handsome flower, on a strong, stiff stem. The color is mauve-pink.

Golden Wedding Nothing can exceed the richness of its color. The form of the Golden Wedding is unique; the outer petals drop downward in picturesque irregularity; the center of the flower is built high, with broad petals irregularly overlaid, so that, although the flowers are large, they are not heavy, solid-looking.

Glory of the Pacific Shows a clear pink color to excellent advantage. A pink of large size and good form. This variety will delight every grower.

Harry A. Parr Perfect ball-shaped flowers. Color lemon-yellow.

Ivory It is a pure white flower and of exquisite form and finish.

John K. Shaw Japanese incurved. Fine light pink, splendid stem. Grows to a height of three and one-half feet and blooms about October 15th.

Col. Appleton.

Jules Humbert Color amaranth, reverse silvery-white, enormous flowers of great beauty; early flowering.

Major Bonaffon Soft, clear yellow, full to the center, eight inches in diameter and nearly as deep.

Monrovia One of the very earliest bloomers. Color a pleasing shade of deep yellow.

Ministre Olanesco Very large flower, rosy-violet in color, heavily plumed.

Mrs. Chamberlain One of the most beautiful pink varieties yet produced; a prime favorite wherever known.

Mrs. Geo. F. Baer (Yellow Jerome Jones.) Incurved petals, making them nearly globular in form. A pure golden-yellow, tinted with bronze.

October Frost A pure white, with broad, slightly incurved petals. One of the earliest to flower.

October Sunshine Early flowering golden-yellow. The petals are incurved.

Opah White, slightly suffused with pink; blooms early.

Percy Plumridge Japanese incurved variety of buttercup-yellow; bright and glistening.

Grand Exhibition Chrysanthemums==Continued

PRICE, 8 Cents Each; Eight for 50 Cents; Eighteen for \$1.00.

Minnie Wanamaker double.

It is a pure snow-white; is incurved and perfectly

Mrs. Egan The outside of the petals is a soft creamy-white, the inside striped and tinted with a soft rose shade.

Mrs. Henry Robinson It is the most popular style — immense, incurved, broad-channelled—the purest white; from a flat incurved form it gradually changes into a perfect ball of snow, sixteen to eighteen inches in circumference.

R. E. Richardson (Schrays Pink.) The brightest, clearest pink yet introduced in the Chrysanthemum family. Center petals incurved.

Silver Wedding Purest snow-white in color; very broad, heavy deep flower, measuring fourteen inches in diameter. Probably the largest of all whites, and no doubt the very best.

Mrs. Higginbotham Bright pink, broad-spreading Japanese variety, and incurving petals, which are covered with granular hairs. Awarded certificates at Chicago and Philadelphia.

Mme. Jean Seince (Exhibition.) From the second crown this brings booms of creamy-white, tinted rose; long petals cut at the tips and reflexing.

Mrs. White Popham Blush, with broad-channelled incurving petals. The most popular form to be found in 'Mums. Very beautiful.

Simplicity Flowers of fine form. A pure snow-white, a good, strong grower.

Timothy Eaton One of the largest of the Japanese incurved type, and winner of every cup and prize for which it was ever entered. Purest white of true globular shape.

The Queen Half-globular form, with broad incurved, shapely petals of great substance.

The Yellow Eaton (Dr. Oronhyatekha) A bright yellow sport from Timothy Eaton, only a shade lighter than Appleton. Foliage very beautiful, stem first rate, and quite strong enough to hold up the monster blooms, which do not show coarseness. It is A No. 1.

White Bonaffon.

Virginia Poehlmann The flower is almost pure white, of good size, incurved full petals overlying each other in the center. Color pure snow-white. **Bonaffon** The flower forms a perfect ball when in full bloom. Is a dwarf grower. **White Coombes** Those growers who value so highly the grand early

pink, Mrs. Coombes, will be delighted with its white sport offered herewith; extremely valuable as an October white where big fine blooms are needed. **Wm. Duckham** The color is a deep, clear pink, much darker shade than any other listed. Incurved with a broad petal. An exceedingly strong grower and comes in flower about November 5. Has received certificates at all the latest shows.

Minnie Wanamaker.

Ostrich - Plumed Chrysanthemums

THE BEST OF THE CHOICEST AND RARE.

Price, 10 cents each. The entire collection of six splendid sorts for only 50 cents.

Louis Boehmer (Pink Ostrich Plume.) Louis Boehmer has the same wonderful hair-like growth or excrecence that appeared for the first time in the white variety Mrs. Alpheus Hardy, but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals.

Perle of Lyonnaise Bright, clear golden-yellow, somewhat plumed, quite full. Of a beautiful globular form.

Wm. Falconer An exquisite shade of rosy-blush, changing to a delicate flesh-pink as the flowers advance in age. The soft, feathery growth peculiar to the Ostrich Plume class is even more pronounced than in any of its predecessors.

M. Fromont The only red Ostrich Plume; a fine globular in form.

Monarch of Ostrich Plumes Bright creamy-yellow, A beautiful form and finely incurved.

White Boehmer Perfectly incurved flower, with broad petals showing a plush-like surface. The pure white blooms seen at most of the shows were extremely beautiful.

OUR BIG FOUR PRIZE WINNERS

THESE ARE SUPERB SORTS, VERY DISTINCT COLOR, AND PRIZE WINNERS EVERYWHERE

PRICE

10 cents each,
any four of
these for 35
cents.

Liberty This is the grandest of all yellow Chrysanthemums. Color a clear, rich, deep golden-yellow, very bright, of a large size. This variety was exhibited eight inches across last fall.

Mlle. Jeanne Nonin This fine variety resembles that popular variety, Timothy Eaton; color a pure snow-white; a dwarf grower, with heavy foliage; one of the finest of the late varieties grown.

Mrs. Coombs An extra fine very early pink variety of the largest size. Color beautiful rose-pink. It is a fine dwarf grower. First-class pink Chrysanthemums are scarce, and this variety will prove exceedingly valuable on account of its earliness and large size.

October Sunshine Another one of the very free bloomer. This fine variety eclipses all other early flowering golden-yellows. The petals are incurved, making it a very valuable keeper.

Our ZERO COLLECTION Of the Old-Fashioned Hardy Chrysanthemums

Many of our "Mum" loving friends ask us for hardy varieties of Chrysanthemums that will live outdoors all winter. To those of our friends who want hardy "Mums" we heartily recommend our Zero Collection. They are quite hardy, and include a beautiful and wide range of color.

Price, 8 cents each; any four for 30 cents.

CULTURAL DIRECTIONS

For Chrysanthemums, Which, if Followed, Will Insure Success.

When to Plant The Chrysanthemum is easy to please on this point. Any time after the ground can be worked, even up to June 20th, will give you good blooming plants in the fall.

Soil Dig the ground deep; put in quantities of manure. The Chrysanthemum is a gross feeder; if fed well, the flowers will be large and the plant strong.

Disbudding When your plant is eight inches high, and **Stopping** cut back to a height of six inches.

Allow four shoots to grow from this main trunk. When these four shoots are four inches high, pinch out the terminal bud, and save three or four branches that will spring from each of these limbs. Allow these last branches to attain a height of nine inches, then pinch back for the last time. Allow one bud (flower) to each stem and that a terminal bud.

When to Lift In localities subject to heavy frosts in October and November, plants should be lifted into large pots or boxes by September 1st. After lifting, drench thoroughly and never allow them to suffer for water. Give manure water, if possible, once a week. If protected from frost by sheeting they need not be brought into the house till well into October, and when brought in place in a room without fire, give plenty of air when not frosty. In cold climate winter in cellar.

Black Aphides Nothing destroys this troublesome insect so easily as clean cold water dashed on forcibly with a syringe. Each year the taste for Chrysanthemums becomes more exacting, and to meet it we offer only the finest exhibition and cut-flower varieties—sorts that are noted the country over.

New Single Chrysanthemums

Try a few of them; they will please you. Price, 10c each, 3 for 25c, 75c per dozen.

ARTHUR HORNE—Clear yellow; very free bloomer.

ENA REIMER—Terra cotta; one of the best.

GRACIE LAMBERT—Deep pink; a beauty.

KATIE COVELL—Maroon; stiff erect petals.

MARY RICHARDSON—Reddish-salmon; one of the most distinct.

MISS IRENE CRAGG—Perhaps the best pure white.

NOVELTIES FOR 1913

Price 15 cents; any two for 25 cents.

Smith's Advance Early, white incurved form, coming into bloom first week in October. Very large, undoubtedly one of the best and most useful now in use.

Chrysolora This new variety can be briefly described as an early Col. D. Appleton, coming into bloom much earlier and of larger size. A very fine incurved yellow.

Winter Cheer Beautiful, round, incurving pink, almost the shade of Balfour; stem and foliage perfect; easy to do.

Golden Chadwick The very best late commercial yellow; a perfect Chadwick in a grand color; can be had very late. A splendid keeper. Ours is not "Yellow Chadwick," but a deep golden strain.

We will send Fifty Distinct Varieties of Mums, Our Own Selection, but all good standard varieties, for \$2.50.

Please read page 2, then send us your order for fruit and ornamental stock, which you will find listed on pages 88 to 95. We can send your entire order in one shipment, thereby saving one express charge.

HANDSOME **DECORATIVE PALMS**

Palms Listed Here are the Best and Easiest Grown of All the Palm Family. Palms Priced at Over 50 Cents Should be Sent by Express Cannot be Safely Sent by Mail.

Latania Borbonica The well known Fan Palm. This is one of its wide-spreading, gracefully arching leaves are elegant and effective for apartment decoration. It is considered the handsomest and most valuable of all palms. Price, nice plants, 25 cents each; strong plants with character leaves, 50 cents each; large, handsome specimens, \$1.00 and \$1.50 each. Must be sent by express.

Kentia Belmoreana The Kentias are among the best of the Palm species for general cultivation, being almost impregnable against diseases. This variety is one of the best in its class; graceful habit, bright green foliage gracefully disposed; as a decorative plant for the window, dinner table or conservatory it scarcely has an equal. Price, small plants, 25 cents each; larger size, nice plants, 50 cents and \$1.00 each; extra large size, \$1.50 each. The large size must be sent by express.

Cycas Revoluta (Sago Palm.) The Cycas makes a magnificent specimen plant, and is one of the most valuable plants grown for the decoration of the lawn or house. Their heavy, glossy, deep green fronds resist alike the gas, dust and cold to which decorative plants are frequently exposed. Price large plants, five and six leaves, \$1.00 each; larger plants, eight or more leaves, \$1.50 each—this size is very fine. Our Cycas cannot be sent by mail.

Kentia Forsteriana This is one of the finest pot plants of any of the Palm family. Being almost hardy, it is not injured by slight changes in the temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. The leaves are a deep, glossy green, fan-shaped, split deeply into segments. Very graceful for table decoration. Price, small plants, 25 cents each; larger plants, from four-inch pots, 50 cents each; nice, large plants, twenty-four to thirty inches high, \$1.00 each. Extra large plants, \$1.50 each.

Phoenix Reclinata A fine decorative Palm; one of the finest vase plants, particularly for outdoor decoration. It is of very robust habit, and is very easily grown. Will not burn under the hottest sun, and stands whipping by summer storms without marring its beauty. Price for nice, strong, young plants, 25 cents each; fine, large plants, \$1.00 each. Extra nice specimen plants, \$1.50 each. These are all good strong plants.

Latania Borbonica.

Phoenix Canariensis (The Canary Island Date Palm.) No other Palm has gained so speedily in public favor the last few years as this handsome habitue of the Canary Islands. This Palm belongs to the pinnae class, which means that its branches are feather-shaped. These branches are long, gracefully arched, and are borne in luxuriant abundance. Price, for nice, strong plants, 50 cents and \$1.00 each.

Phoenix Roebelenii The most graceful of the Phoenix, and a Palm which we feel sure will become popular for room decoration. The plant is of vigorous growth, and its gracefully recurving leaves, with very narrow dark green pinnae, give it a lightness and airiness not surpassed, if equalled, by Cocos Wedeliana; at the same time it is as hardy as a Kentia, succeeding admirably as a house plant. Price, four-inch pots, ten to twelve inches high, nicely characterized, 75 cents each; larger size, \$1.00 each.

Kentia Forsteriana.

Pandanus Utilis As an ornament for the window its glossy, dark green serrated foliage renders it unusually attractive, while as a vase plant or single specimen in greenhouse or conservatory it cannot be surpassed. It is also largely used to decorate the halls in our private residences and shows grandly on the lawn when grown to a sufficient size. Price, nice plants, 50 cents each; fine, large plants, \$1.00 each.

Araucaria Excelsa As a decorative plant for the house this is one of the handsomest and most serviceable; deep green feathery foliage, arranged in whorls; highly ornamental.

Note—Araucarias do best through the summer months plunged in the ground to the top of the pot, in a shady, well-protected place. Price, nice plants, fifteen to eighteen inches high, three tiers, \$1.00 each; larger plants, four to five tiers, twenty to thirty inches high, \$1.50 each.

Phoenix Reclinata.

N. B.—Smaller plants will not show up according to this cut, but by giving them time they will prove to be all right.

Araucaria Excelsa.

DOUBLE GERANIUMS

Price, 10 cents each; three for 25 cents; any twelve for 85 cents.

COUNTESS DE HARCOURT—A dwarf, compact-growing variety. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless snowy-white, retaining their pure whiteness even in the heat of summer.

HETERANTHE—Flowers bright red, trusses of enormous size and borne high above the foliage.

JEAN VIAUD—Bright rosy-pink, white blotch in center; dwarf, compact, vigorous and exceptionally free blooming.

LA FAVORITE—La Favorite is a pure white Geranium, as free-flowering as the single varieties, and which can be used for planting in beds for furnishing a supply of beautiful white flowers for vases.

L. CONTABLE—Plant of perfect habit; very free, large, full, double flowers, of a beautiful bright rose color. An extra fine variety.

MARQUIS CASTELLANE—A combination of two distinct shades of red; an excellent bedder.

MME. BARNEY—A splendid pure deep pink; superb truss. A grand bedding variety, close compact habit and superb bloomer.

MME. JAULIN—Delicate peach-pink, with wide border of white.

OROSO—A splendid modification of the salmon colored sorts, with very large semi-double flowers of melon flushed with rose. The plant growth is strong and satisfactory.

S. A. NUTT—One of the best rich dark crimson bedders.

ALPHONSE RICCARD—Bright vermilion-scarlet, large florets and trusses; the finest large-flowering scarlet bedder.

BEAUTE POITEVINE—The best double salmon-pink bedder.

BERTHE DE PRESILY—Beautiful silvery-rose. A fine bedder.

Countess De Harcourt.

SWEET-SCENTED GERANIUMS

Price, 10 cents each; any three for 25 cents.

OAK LEAF—One of the finest of the fragrant sorts.

MRS. TAYLOR—Dark green foliage, of a peculiar fragrance. Flowers are scarlet, shaped like a Pelargonium and borne in great profusion.

NUTMEG-SCENTED—Small leaves, nutmeg perfume.

LEMON-SCENTED—Fine lemon odor.

ROSE—(Cut Leaf.) Needs no description. Indispensable in the formation of bouquets. Beautiful pink flowers, borne in clusters.

DOUBLE IVY-LEAVED GERANIUMS

Price, 10 cents each; three for 25 cents.

ACHIEVEMENT—Pure rose with white eye. Large flowers and truss.

CAESAR FRANCK—This is unquestionably destined to become the most popular Ivy Geranium yet introduced. The color is a magnificent shade of soft rich crimson, with an exquisite shading of tender rose at the base of petals. The flowers are about as double as Crimson Rambler Rose, which they resemble, only much richer in color and finish; produced on long stems in enormous trusses.

CORDEN'S GLORY—Bright scarlet; bold, full flowers.

MRS. J. G. DAY—Intense shade of rosy-crimson, rich and glowing. Long stems, fine habit and truss. A grand variety.

SOUVENIR DE CHAS. TURNER—Deep pink, feathered maroon on upper petals, individual florets two and one-half to three inches across.

Achievement.

THE Geraniums listed on this page are all standard varieties, and you will make no mistake by including some of them in your order.

CHOICE SINGLE GERANIUMS

Granville.

ALWAYS say how you want us to ship your order, by mail or express, and if we are to pay charges or you. In this way there can be no mistake. If we are to pay expressage we will remove soil and you select premiums according to mail clubbing rates. The proper way to receive plants is by express at your expense, and the charges on a \$3.00 order will not be over 35 cents to 50 cents, except in extreme far away points.

10 cents each; three for 25 cents; any twelve 85 cents.

ALBION—One of the finest of single whites; pure in color, immense in size, of circular form, and, best of all, of strong, healthy constitution.

GRANVILLE—Large, soft, clear pink.

MADONNA—Trusses are of extraordinary size, of almost Pansy form; the color is a soft light pink, a beautiful and distinct shade. A variety that will probably never be equaled.

MAXIME KOVALEVSKI—A very distinct and striking orange shade of Lincoln red, a new color in the bedding class; handsome foliage; fine vigorous grower; free-flowering.

MRS. E. G. HILL—Beautiful salmon; a fine large flower.

NUIT POITEVINE—A beautiful rose-purple, lower petals feathered rich scarlet; fine habit.

PAUL CRAMPEL—(Single.) A magnificent, richly colored crimson-scarlet, the most intense shade imaginable. Gigantic trusses and extra large florets. Will supersede all others in its color for bedding.

RICHMOND BEAUTY—Brilliant scarlet-crimson, shading through delicate violet-rose to a distinct white center; splendidly formed flowers, abundantly produced in fine trusses; pleasing habit; magnificent bedder.

Bed of Red Geraniums with Border of Dusty Miller

We think a bed of Red Geraniums with a border of Silver-Leaved Centaurea, commonly called Dusty Miller, is very popular. For this bed we highly recommend the Red Geranium Heteranthe, without a doubt the very best bedding Geranium in America today.

FOR A BED FIVE FEET ACROSS—It will take Twenty Geraniums with a border of Twenty Dusty Miller. Price, complete, forty plants, \$2.25 by express; by mail, \$2.50. Should you not want the border, the Twenty Geraniums will cost \$1.25.

Should any of our customers prefer Coleus to the Dusty Miller for a border to this bed, we will send them at same price as Dusty Miller. We would suggest the Yellow Coleus Golden Bedder, as it will make a beautiful contrast to the Red Geranium.

Dusty Miller for border, 5 cents each; 50 cents per dozen; \$3.50 per hundred, by express.

Special Offer

We have a fine stock of Double and Single Geraniums especially adapted for bedding under the following colors: Red, White, Pink and Salmon. Price, 75 cents per dozen, or 4 cents each in lots of fifty or more. Select your own colors, either Single or Double. Not to be included in clubbing rates.

Pelargoniums Lady Washington Geraniums

Price, 20 cents each; six for \$1.00.

King of Spain Fine bold flowers of a reddish-purple color, dark blotches, lighter center; very showy and effective.

Tommy Dodd Immense showy trusses; lower petals soft blush, upper petals maroon and crimson.

Prince Olaf Charming orange-scarlet flowers, white center; immense trusses; a most perfect habit.

Mrs. Loyal (The genuine "Pansy Geranium.") Rounded, satiny, exquisitely marked and colored, this variety is truly Pansy-flowered. Its colors range from a large crimsoned chocolate center through pink to white at the edges.

Madame Vibert A splendid flower with black-maroon blotches, bordered fiery-red, the entire flower edged with rose. Growth and blooming qualities excellent.

Madame Thibaut White, richly marked and blotched with rose; the upper petals marked crimson-maroon with large white center; petals heavily ruffled.

Mrs. Robert Sandiford The flowers are two inches across, of the purest snow-white, and very free in bloom. You cannot imagine anything prettier.

Prince George Attractive; crimped flowers of a soft salmon-pink, lower petals marked with a small blotch of orange-maroon, upper petals blotched blackish-maroon; enormous trusses.

Sandiford's Wonder A splendid semi-double white flower of great beauty; very pure in color, occasionally showing a small rich maroon spot in upper petals. The flowers are beautifully fringed and are produced in great profusion.

Pansy Geranium (Mrs. Loyal).

Novelties in Geraniums

Golden Tricolor Geranium Mrs. Pollock The best and most satisfactory of all the tricolor foliage Geraniums. It is very distinct in its markings, having a bright bronzy-red zone belted with crimson and edged with golden-yellow. Price, 15 cents each; three for 35 cents.

Mrs. Parker.

Exquisite Its edges are variegated and flowers are of salmon color.

Golden-Bronze Geranium.

CARNATIONS

THE DIVINE FLOWER

Price 10c each, any three for 25c; any seven for 50c; except where noted, \$6.00 per hundred

THE CARNATIONS which we furnish are thrifty young plants from pots, and should be handled as follows:

The young plants can be grown in a cool greenhouse, hotbed or cold frame where the temperature can be maintained at 50 degrees at night, with plenty of fresh air during the day. The little plants should be shifted along as required, and never allowed to get pot-bound.

As soon as all danger from hard frost is over, plant in the garden 12 inches each way, and keep well cultivated until they begin to bloom, when a light mulch of strawy manure will be beneficial to retain moisture in the soil, and help nourish the plants.

Plants so treated should begin to flower in July, and continue to produce an abundance of flowers until killed by frost. For winter-flowering, the same cultural notes apply, with the exception that they can be planted somewhat closer in the garden, and flower shoots kept pinched back until about the middle of August, when they should be planted on benches in the greenhouse for the season's crop of flowers.

Any good fresh soil, moderately enriched, will grow them. Plant 9 to 12 inches apart, according to the size of the plants. The same night temperature that is required for the little plants before planting out will make good flowers, with 15 to 20 degrees higher and plenty of fresh air during bright days; water only sufficiently to keep plants from wilting.

ARISTOCRAT—Deep pink, extra long stems.

AFTERGLOW—A fine large cerise-pink.

BEACON—Scarlet, with bright dash of orange.

ENCHANTRESS—Exquisite, delicate pink of large size.

HARLOWARDEN—Bright crimson and good bloomer.

MRS. M. A. PATTON—White, beautifully variegated with pink.

ROSE-PINK ENCHANTRESS—A beautiful rose-pink.

VICTORY—A brilliant scarlet.

WHITE ENCHANTRESS—A first-class large white.

WHITE PERFECTION—The best and most popular pure white.

WINDSOR—Finest silvery-pink.

FOUR NOVELTIES FOR 1913

Price, 15 cents each; any two for 25 cents.

Bonfire Velvety scarlet, valuable for its fine color from the very beginning of the season, when **Beacon** and **Victory** are inclined to be dull and muddy. A good clean grower.

Princess Charming An extra fine traveler and keeper; runs a shade deeper than **Enchantress** in winter, with a longer, stiffer stem and produces equally well, and positively will not split.

Mrs. C. W. Ward A perfectly formed flower with full center; color, deep pink, several shades lighter than **Lawson**, deeper than **Windsor**, having strong, erect stems twenty-four to thirty-six inches in length. A vigorous, healthy grower and has never shown disease of any kind. A very early and free bloomer, producing fine flowers as early as September 1. The leader in its shade of pink.

White Wonder A greatly improved **White Perfection**, which begins blooming in September and continues throughout the season; snow-white, fragrant, absolutely perfect in form, large in size, on stiff stems. The only variety that threatens to pass **White Enchantress** in the race.

NEW AND BRILLIANT COLEUS

Price, 5c each; six for 25c, twenty-five, \$1.00; \$3.00 per hundred, by express, purchaser's selection and expense

Coleus represent more colors in their variegation than any other plant. They are certainly the most popular of colored foliage plants. Whether grown as single specimens or in masses of ribbon lines they are equally attractive. They are of the easiest culture and well adapted to our climate, flourishing in the hottest sun as well as displaying their beautiful colors in the shady corner where hardly any other plant would do. Plants should be set about a foot apart, so that when the size of the bed is ascertained it is easy to figure how many plants of each kind are needed in a row. All are good bedders and will stand the hot sun without losing their brilliant coloring.

ADMIRATION—Foliage large and finely serrated; color rich purple and carmine. Very distinct.

ANNA PEISTER—(The latest novelty.) Has a dwarf growth, and has the effect of a yellow Alternanthera, but somewhat variegated.

BECKWITH'S GEM—Fancy variety, with large leaves of heavy texture and finely scalloped edges. The center leaf is dark velvety-maroon, bordered with fiery-red; the edge is green, changing to creamy-yellow at the point of the leaf.

BIZARRE—Crimson center edged with green and gold.

BUTTERFLY—A crimson-bronze, old gold and green.

COUNT CUVIER—Center fiery-red, surrounded with deep maroon edged olive-green, serrated edge.

DAXTONIA—Velvety red-brown, widely bordered yellow.

GOLDEN BEDDER—Clear yellow when well developed, edge somewhat crinkled, with center rib of lighter yellow.

GOLDEN VERSCHAFFELTH—This is a beautiful yellow variety, with scalloped edge, delicately tinted bright red.

GRACE ADAMS—Green leaf, small blotches of red, crested edge.

HERO—A deep jet black.

LEONARD—Greenish-yellow ground thickly dotted and splashed maroon.

MISS RETTA KIRKPATRICK—Large, white center, shaded with yellow, broad green-lobed margin; large foliage.

MRS. HUNT—A beautiful carmine center, bordered maroon, with bright green margin.

QUEEN OF THE WEST—Large leaf, with margin of bright yellow and center edge of creamy-white; the whole covered with blotches and spots of bright carmine and deep maroon.

RAG CARPET—Center of leaf wine color with broad margin heavily spotted dark maroon.

SETTING SUN—Crimson, with brightest golden edge.

SPOTTED GEM—Yellow, blotched crimson and green.

TRAILING BEAUTY—An excellent variety for hanging baskets and vases on account of its trailing habit; center of leaves fiery crimson surrounded with deep maroon; deeply serrated edges of bright olive-green.

VERSCHAFFELTH—Rich velvety-crimson; the best bedder.

YELLOW BIRD—Strong grower; color golden-yellow.

Three Novelties in Coleus

Price 10 cents each; three of any kind, 25 cents; 75 cents per dozen; \$5.00 per hundred.

New Giant Coleus, (Brilliant, or Dr. Ross) — Christmas Gem Leaves immense, eight

to twelve inches long. Looks like a Rex Begonia, and just as beautiful. Cannot be excelled as a pot plant. The name aptly describes the appearance of this variety, which belongs to the giant-leaved section; of strong, vigorous habit, growing from two to three feet high, with leaves often nine to ten inches long, which are of bright carmine, shading off to a deep maroon, the margin being yellow and green, the whole leaf having a rich velvety luster.

Sensation A grand Coleus. Leaves eight to ten inches long and five inches wide; has a deep velvety texture, beautifully scalloped edge; color crimson-maroon, with center of light red.

Duneria The grandest Coleus of recent years; has a deep velvety texture. Color crimson, maroon center; beautifully scalloped edge of light red; a fine, showy bedder. A magnificent variety.

EVER-BLOOMING CANNAS AMERICA'S MOST POPULAR BEDDING PLANT

This Superb Collection Includes Only the Very
Choicest Sorts and Widest Range of Color

For the nicest effect and best results, Cannas should be planted about twelve inches apart, and Coleus about nine inches apart, so measure your beds and you can soon tell just how many you want. Our Cannas are all started and growing in pots, and not dormant roots.

Price, 10 cents each, three for 25 cents, seven for 50 cents, fifteen for \$1.00. In lots of 50 or more, 6 cents each, 100 for \$5.00.

For glaring, gorgeous color, grand foliage and profusion of bloom, nothing equals a bed of Cannas.

Table showing the number of plants required to fill a circular bed of the dimensions given below. In planting begin outside row—where 6 inches apart, 3 inches from edge of bed; where 12 inches apart, 6 inches from edge of bed.

A square bed will take about the same number of plants. An oval bed, add length and breadth and divide by 2. For example, an oval 7 feet long by 5 feet wide will require same number of plants as a circular bed 6 feet in diameter.

KEEP UP WITH THE TIMES

THERE IS A GROWING DEMAND for bedding stock, so start your order with a selection from our Superb List of Cannas, and select your borders according to page 27 of this catalogue. A bed of this kind of stock will give you bloom from early summer until Jack Frost lights upon them. There is no trouble connected with them, except to plant and water them, and there is nothing you can buy that will give you so much for your money as bedding plants. We have grown them in large quantities, and are anxious to supply you. No other bedding plant will give the same uniform good results in our varied and trying climate. They do well in all sections of the country, and stand at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the bed should be spaded two feet deep and a liberal amount of well-decayed manure of any kind thoroughly incorporated, and at all times supplying water freely. For best effect plant in large masses of one color, setting out the plants 15 inches apart. To find the number of plants required for any bed from 3 to 20 feet in diameter see table on this page.

All have green foliage unless otherwise specified.

GENERAL LIST OF CANNAS==Continued

PRICE 10 cents each; three for 25 cents; seven for 50 cents; fifteen for \$1.00. In lots of fifty or more, 6 cents each.

Allemania Pleasing dark salmon with golden markings.

Alphonse Bouvier Finest tall, brilliant crimson; 6 to 7 feet.

Alsace Pale sulphur changing to creamy-white; planted in conjunction with the high-colored sorts it makes a fine contrast; four and a half feet.

"Black Beauty" In dark leaved Cannas no variety attracts so much attention and is so effective as "Black Beauty" and while its flowers are small the massive foliage of the plant is of such an intense rich color as to at once place it at the head of the list of ornamental bedding plants, where foliage or sub-tropical effect is wanted. The plant grows to six feet high, with foliage of the richest glistening bronzy-purple, shaded black, and having crimped, wavy margins.

Burbank Lemon-yellow, their gracefully open throats revealing a thick spattering of bright scarlet; six feet.

Charles Henderson A popular crimson of uniform habit; three and one-half feet.

Crimson Bedder A dazzling scarlet-crimson — dominates every landscape where planted. Especially recommended for large plantings of solid red; three and one-half to four feet.

Egandale A favorite bronze-leaved sort, soft currant-red flowers; four feet.

Explorateur Crampel Dark red dotted crimson; four feet. Price, 15 cents each, three for 40 cents.

Florence Vaughan Bright, rich golden-yellow, spotted with red; of large size and perfect form; four feet.

Indiana Three to four feet high, above which the flower spikes shoot up to a height of six feet, each one bearing fine, big clusters of Orchid-like flowers. Color is a glistening golden-orange, daintily marked and striped with red. Single blossoms are often seven inches across. Height five feet.

J. D. Eisele Bright vermilion-scarlet, overlaid with orange; a fine bedder; three and one-half feet.

Gladiator (Five feet.) Strong, vigorous green-leaved variety with large heads of flowers that stand the hot sunshine better than any other variety. Blooms early and late; flowers yellow, spotted with rich scarlet. Price, 15 cents each, three for 40 cents.

Madame Crozy The color is a brilliant vermilion-scarlet bordered with deep golden-yellow. The flowers are borne in great clusters, and in such profusion that they crown the plant with a blaze of glowing color. Height three and one-half feet.

Miss Berthine Brunner Large, open panicles of pure yellow flowers, minutely spotted with orange-scarlet; four and one-half feet.

Mlle. Berat The nearest approach to a pink in a first-class bedder; four feet.

Orange Scarlet A grand variety with immense orange-scarlet flowers. One of the very best. Height four feet.

Papa Nardy Very large, rich currant-red, with a purplish sheen; four and a half feet.

Parthenope Flowers of extra large size, the broad, wavy petals glisten like silk; the prevailing color is orange, delicately streaked with scarlet tints, and suffused with salmon; early and a free bloomer, green foliage; five to six feet in height.

Patrie Three feet high, a strong heavy grower, with thick stems and large flowers; beautiful bright red. Green foliage; five feet.

Pennsylvania One of the best; remarkably free, of an intense vermilion-scarlet, overlaid with an orange sheen, foliage rich green.

Queen Charlotte Bright orange-scarlet, deeply edged bright canary-yellow. The flowers are very large, leaves are large, musa-like, deep green. Plant is of dwarf, sturdy habit.

MADAME CROZY

Richard Wallace A pleasing canary-yellow with exceptionally large flowers, which are carried well above the foliage; one of the best yellow bedders; four and one-half feet.

Robusta This is the largest of all the dark or bronze-leaved Cannas, grows six feet high, with tremendous length and breadth of leaf. It seldom blooms, but for hiding unsightly walls, fences, etc., or for a massive background, it is "just the thing."

Secretaire Chabanne Green foliage. Color is a beautiful orange with deeper shadings. Height four and one-half feet.

Souv. De Antoine Crozy Very brilliant and attractive; one of the showiest in our collection. Rich crimson-scarlet bordered widely with golden-yellow; three and one-half feet.

Venus One of the softest and most delicately colored varieties that has yet been introduced. The flowers are of fair size, of a soft rosy-pink, with a pretty mottled border of creamy-yellow. The plant always presents a clean, fresh appearance; three and one-half feet.

GENERAL LIST OF CANNAS==Concluded

PRICE 10 cents each, except where noted; three for 25 cents; fifteen for \$1.00. In lots of fifty or more, 6 cents each.

Pillar of Fire The giant of its class, grows six to seven feet high; flowers bright crimson-scarlet, borne in erect spikes like blazing torches; continuous bloomer, invaluable for center of beds, etc. **Price, 20 cents each; three for 50 cents.**

William Cummings Bright flame scarlet with golden sheen, shading lighter on edge of petal; the showiest Canna in our list, and a vigorous grower; four and one-half feet. **Price, 15 cents each; three for 35 cents.**

Wyoming Bronzy-purple foliage, with immense spikes of massive orange flowers.

THREE EXTRA GOOD CANNAS

King Humbert In this grand new Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers will measure six inches in diameter, produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet with bright red markings; while the foliage is broad and massive and of a rich coppery-bronze with brownish-green markings. Height five feet. **Price, 20; three for 50c.**

Mrs. Alfred F. Conard One of the most distinct varieties yet introduced; a beautiful and exquisite shade of a salmon-pink, of immense size; three feet. **Price, 50c each; three for \$1.25.**
Mrs. Carl Kelsey An immense orange-scarlet, wonderfully flaked and striped with golden-yellow, with wavy-edged petals; entirely distinct; six to seven feet. **Price, 40 cents; three for \$1.00.**

BEAUTIFY YOUR LAWN WITH A BED OF CANNAS, "The King of Bedders."

Nothing makes a finer appearance on a lawn than a bed of Cannas. It matters not how large it is or indeed how small; if you have a suitable spot that gets the sunshine, plant a bed of Cannas and enjoy the pure beauty of their freshly opened flowers every day from June until frost. So great is the variety of sizes and colors that there seems no limit to the combinations and places in which these Cannas can be successfully used.

For example, the dwarfier kinds may be planted in single or double rows along the walk, or side of the porch; others may be banked against the side of a building or in front of a hedge or a background of shrubs (always placing the shortest kinds in front) or used as a hedge plant they prettily mark a dividing line where no real barrier is needed, but the best effect of all is produced when many plants of a kind are placed together in masses or large beds, round, square, oval or oblong, or a triangle bed of glowing color for some suitable corner.

DIRECTIONS FOR LAYING OUT CIRCULAR BEDS

Always use tallest growing varieties in the center, and then carefully grading each succeeding circle, using dwarf

kinds for the outside. Plant one Canna in center of bed, next six Cannas fifteen inches apart in a circular row fifteen inches from center. For each succeeding circle use six more Cannas than were used in the previous circle, and make it fifteen inches farther away from the center. Measure your beds, and you can soon tell just how many plants you need.

Remember that our Cannas are started plants, not dormant roots, as are often sent out, and will come to you in good growing condition.

For a border to the Canna bed we would recommend red *Salvia* or *Coleus* (red or yellow). *Salvias* should be planted ten inches apart and the *Coleus* eight inches apart.

PRICE OF CANNAS FOR BEDDING—Fifteen for \$1.00, except those mentioned at higher price than 10 cents each, or 6 cents each if fifty or more are ordered at one time.

PRICE OF SALVIAS FOR BORDER—Twelve for 60 cents, twenty-five for \$1.00, or one hundred for \$3.50.

PRICE OF COLEUS FOR BORDER—Twelve for 60 cents, twenty-five for \$1.00, or one hundred for \$3.00.

For a Solid Red Bed of Cannas

We would recommend either of the following: *Pennsylvania*, J. D. Eisele, Charles Henderson, *Crimson Bedder*. **Price, 10 cents each, three for 25 cents, seven for 50 cents, fifteen for \$1.00; in lots of fifty, 6 cents.**

For a border to this red bed we would suggest *Yellow Coleus* or *Dusty Miller*. **Price, six for 25 cents, twenty-five for \$1.00, or \$3.00 per hundred, by express.**

For a Solid Bed of Variegated Cannas

We recommend *Italia* and *Allemania*. **Price, 10 cents each, three for 25 cents, seven for 50 cents, fifteen for \$1.00; in lots of fifty, 6 cents each.**

For a border, *Red Salvia* or *Dusty Miller*. **Price, six for 25 cents, twenty-five for \$1.00, or \$3.00 per hundred, by express.**

N. B.—Our Cannas are all started in pots, and are ready to make a showing from the start. Ground need not be raised for beds—plant level.

Pillar of Fire.

The New Bedding Salvia, Mrs. Page.

BRILLIANT SALVIAS

THE MOST ATTRACTIVE OF ALL BEDDING PLANTS

These are unsurpassed for brilliancy of Color. A bed or border of Salvia Splendens will attract more attention than any other bedding plant .: .: .: .: .:

Albert Ragneau (New Dwarf Salvia.)— This variety we consider the best of the dwarf varieties of late introduction, and in fact, the only true dwarf one. The flowers and foliage are the same as the old variety Splendens, but in growth it is much dwarfer, making it more valuable for bordering beds, etc. Price 10 cents each; three for 25 cents; 75 cents per dozen; \$5.00 per hundred at purchaser's expense.

White Salvia Identical with Splendens, only white flower. Price, 8 cents each; four for 25 cents; 60 cents per dozen; \$4.00 per hundred at purchaser's expense.

Salvia Splendens.

Mrs. Page (A Splendid New Dwarf Salvia.)—The grandest addition to our list of bedding plants. It forms a compact bush, completely covered with rich scarlet flowers. As a border or vase plant, it will be indispensable. Price, 6 cents each; four for 25 cents; 60 cents per dozen; twenty-five for \$1.00; \$3.00 per per hundred, by express, at purchaser's expense.

Scarlet Salvia Splendens Another grand addition to our list of bedding plants. It forms a compact bush, completely covered with rich scarlet flowers. Price, 8 cents each; four for 25 cents; 60 cents per dozen; \$3.00 per hundred, by express, purchaser's expense.

St. Louis Claimed to be an improvement of Splendens in flower and growth. A very good variety; scarlet flower and green foliage. 8 cents each; four for 25 cents; \$3.50 per hundred at purchaser's expense.

Rare New and Choice Old Impatiens

The Impatiens delight in a light, rich soil, and thrive best in a partially shaded position. They are a mass of gloom all the time, are splendid bedders and superb pot plants for the house. When grown in pots care should be taken to avoid overwatering. Price, 10c each, any three for 25c, any seven, 50c.

Some of these are entirely new and distinct in color. All are true ever-bloomers; are good bedders and make splendid pot plants for the house.

DELICATA—A delicate, light rosy-pink with a darker colored center.

ATROVIOLEA—Deep purplish-violet.

ALBA RUBRA MACULATA—White, tinted pink and sometimes blotched. This is a beautiful variety.

IMPATIENS SULTANI—Certainly the freest-blooming, bedding or house plant in cultivation. The plant is literally covered with brilliant, rosy-scarlet flowers. For summer bedding or winter blooming in the house it has no equal.

ALBA ROSEA—Rosy-white.

IMPATIENS HOLSTII—The flowers measure from one and one-quarter to one and three-quarter inches across, and are of a brilliant vermillion color.

CARMINEA—Bright carmine.

SALVIAS, on

account of their brilliant scarlet color, make one of the best bedding plants imaginable.

Holstii Hybrida Aurantiaca.
Orange-vermillion.

MAMMOTH VERBENAS FOR BEDDING

The Verbena is one of the prettiest and most popular of all flowering plants suitable for forming beds on the lawn. Commences to flower and spread from the first day the plant is set until late in autumn, every day becoming better and handsomer. Colors range through all the different shades of scarlet, purple, crimson, pink, blue, white, etc. We have them in the following colors:

**Mammoth White,
Blue, Pink, Red and
Variegated**

—PRICE—

Six cents each; Sixty cents per dozen; Twenty-five for \$1.00; One Hundred, \$3.00, by Express.

Our Superb Pansy Plants

Our Superb Pansy Strain

Is the very best the world produces. The colors are truly wonderful, including over a hundred different shades and combinations, with blendings and markings entirely new and of most exquisite beauty. Its culture is not at all difficult and may successfully be attempted by anyone inexperienced in horticultural affairs. Pansy plants planted in the spring as soon as the frost is out of the ground will begin to bloom at once, and afford daily pleasure for a month before Coleus or Geraniums could be even planted. If snow should fall after planting they would not be hurt. In fact, to get the best results from Pansies, they should be planted just as early as they can be. To get best results and extra large flowers, the soil must be extremely rich—we use equal parts well-rotted manure and soil. Price, for nice, strong plants, 5 cents each; six for 20 cents; twelve for 35 cents; forty for \$1.00; \$2.25 per hundred.

White Pansy Plants

We often receive inquiries for White Pansies, which are becoming very popular. Price, 5 cents each; 35 cents per dozen; forty for \$1.00.

Photograph of one of our Pansy Plants.

Our "Six Best" DOUBLE PETUNIAS

Price, 10 cents each, any 3 for 25 cents, or 90 cents per dozen.

EXCELLENT—Variegated white and purple.

MAJESTIC—Deep purple.

PINK QUEEN—Large clear pink.

STRIKING—White mottled, blotted with carmine.

SNOWBALL—Best double white.

VESUVIUS—Solid color; best red.

White Double Petunia, Snowball.

SINGLE PETUNIAS

DWARF BEDDING PETUNIAS

PRICE 7 CENTS EACH; FIVE, ANY VARIETY, FOR 25 cents.

NOTE Our Single Petunias are an entirely new strain, quite distinct from the old sorts.

WHERE effect is wanted, nothing excels the small, free-flowering varieties of Petunias. They are of compact bushy habit, and are covered the entire summer and fall with their bright flowers, and can be used in beds, borders, baskets, vases, window boxes, or in any sunny place where a mass of color is needed. They are always full of flowers and always satisfactory. The five varieties offered below are equally distinct and effective. Very fine for bedding, hanging baskets, window boxes and vases.

ALBA—Pure white.

BRILLIANT ROSE—White and rosy-violet.

BELLE ETOILE (Howard's Star)—A beautiful free-flowering strain, color crimson-maroon, with a clearly defined five-pointed star of bluish-white. For bedding, baskets, vases, etc., this is exceptionally free.

CERULEA—Delicate shade of blue.

VIOLACEA—Dark violet throat; very fine.

CHOICE BEGONIAS Flowering Varieties

THIS beautiful class of plants is deservedly popular. They are suitable for pot culture in the window or the outdoor plant stand. During the greater portion of the year the plants are, in the different varieties, covered with a profusion of graceful, drooping racemes of pink, white, crimson and bi-colored buds and blossoms that are exceedingly attractive, and having a waxy, coral-like appearance. The plants themselves are of neat, compact habit, with glossy green leaves in some varieties and exquisitely cut ones in others.

Alba Perfecta This variety closely resembles the well known Begonia Rubra in foliage and growth, with beautiful pure white blossoms. Price, 10 cents each.

Argentea Has purple-bronze leaves, oblong in shape, with silver markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. It will be splendid for house culture. Price, 10 cents each.

Guttata (New Flowering Begonia.) This is the grandest of all flowering Begonias. The green foliage is long and pointed, freely dotted with silvery-white. The flowers are borne in great clusters, almost hiding the plant; the color is bright coral-red. It is a wonder. Fine plants, 20 cents each.

Coralline A free-blooming variety; resembles Hybrida Multiflora in growth; flowers are bright scarlet. Price, 10 cents each.

Fuchsoides A free-blooming variety; resembles Hybrida Multiflora in growth; flowers are bright scarlet. Price, 10 cents each.

Coccinea A free-blooming variety; resembles Hybrida Multiflora in growth; flowers are bright scarlet. Price, 10 cents each.

Marguerite Leaves green, somewhat resembling Metallica, but growing in more bushy form. Large trusses of light rose-colored flowers freely produced. Price, 10 cents each.

Thurstonii.

Argentea Guttata.

Marjorie Daw Its flowers are salmon-pink; tall growing. Price, 10 cents each.

McBethii Has very deeply indented leaves, which are fine and small. White flowers, waxy in texture, carried in panicles. Price, 10 cents each.

M. D. Lesseps Beautifully spotted with silver. A very strong, free-growing variety that will succeed with any ordinary care, growing rapidly and sending out quantities of lovely pink and white flowers. A magnificent Begonia. Price, 10 cents each.

Pink Rubra See page 3 of cover. Price, 10 cents each.

President Carnot A strong-growing variety, foliage very large; flowers beautiful coral-red, in large pendent panicles similar to Rubra, but very much larger. A great acquisition, one that is sure to succeed under all circumstances. Price, 10 cents each.

Robusta The flower is composed of two wide and two narrow petals; the wide ones are bright rose, the petals are almost pure white, a distinct pink strip in the center of each, enlivened with golden anthers. Borne in clusters and with the coral-red buds form a most elegant and chaste appearance. Price, 10 cents.

Sandersonii (Coral Begonia.) One of the best flowering Begonias. The flowers are a scarlet shade of crimson, borne in profusion for months at a time. Price, 10 cents each.

Thurstonii Its flowers are rosy-white, foliage bronzy-green. Price, 10 cents each.

Zebrina An erect-growing variety with a beautiful profusion of pendent leaves. Besides its graceful form, the leaf is distinguished by its glistening silver shading following the leaf, the body being a very dark velvety-green; under side plum color, vein green. Flowers pure white. A beautiful variety. Price, 10 cents each.

We have listed varieties of Begonias which have proved satisfactory to the flower grower. Make your selection from this list and you will surely be pleased.

THREE GRAND NEW EVER-BLOOMING

Begonia Gracilis Luminosa

RED, WHITE AND PINK

10 cents each; any three for 25 cents.

Best Pot and Bedding Plants

ON THE MARKET

Have proven themselves to be very fine bedding plants as well as pot plants. One of the members of this firm planted a row along the north side of his house and it was a mass of bloom all summer, and can now be recommended to fill a place that we are often asked, "What will grow on the north side of my house?" Plant these Begonias there, in single rows or in a bed in any shady or sunny place, and if they do not do all we say they will we will refund the money. Price, 10 cents each, three for 25 cents; twelve of either variety for \$5 cents; twenty-five of any variety for \$1.50, by express at purchaser's expense.

Begonia Gracilis Luminosa (Red.) This beautiful new Begonia is the latest novelty in the Begonia family. As the name implies, it is one of the most symmetrical and yet graceful plants we have ever grown; very strong and robust, but still keeping its shape so as to make a most attractive plant. It has proved the most free-flowering of all Begonias, always in bloom—spring, winter and autumn. The flowers, when first opening, are a bright cherry, changing to a clear coral-red. Its foliage resembles a little that grand old variety Vernon; rich glossy green, often shaded deep bronze. This novelty is one of the best of bedders, thrives everywhere and is destined to become the leader of all Begonias.

Begonia Gracilis Alba (White.) This charming new Begonia resembles Luminosa in every particular except in color, which is pure white, sometimes tinted delicate pink. It is an exceptionally strong, robust grower and a true ever-bloomer. A splendid bedder and a grand pot plant.

Begonia Gloire De Louveciennes (Pink.) This is another splendid addition to the Luminosa type of Begonias, and like that fine variety, it has come to stay. The flowers are bright pink, quite large, and like Luminosa and Alba is a constant bloomer, splendid bedder and pot plant.

**Begonia Gracilis Alba.****Begonias, Fringed****Tuberous=Rooted**

These are without doubt the finest Tuberous Rooted Begonias yet introduced. They are an improvement over the Tuberous type offered heretofore, having the same brilliant colors, but the flower has a fringed edge similar to the Carnation. They make handsome bedding plants, flowering all summer, and for pot plants are unsurpassed. This is the first time these bulbs have ever been offered in America and are certain to create much favorite comment. We have them in five colors.

Begonia Cristata Single fringed. Price, 15 cents each; set of five for 60 cents.

Begonia Crispa Double fringed. Price, 10c each; set of five for 40c.

New Hardy Begonia

Evansiana This is a tuberous-rooted herbaceous hardy perennial, losing its tops in the fall. Roots remain in ground and will start new growth in the spring, same as Phlox and Peony. Plants require rich porous soil and partial shade, and will bloom throughout the summer. A bed on the east side of a house suits the plants. The peculiar character of this plant is that the plants produce bulbets at the axil of the leaves, which drop to the earth in the fall and remain dormant until spring, then start into new growth. Price of bulbs up to March 15, which will make good size blooming plants by middle of summer, 20c each, or three for 60c. Plants from two-inch pots after March 15th, 25c.

Have you tried our Superb Bedding Begonias? If you have not you should certainly plant at least a few this Spring. **THEY ARE GRAND.**

**Bed of Tuberous-Rooted Begonias.****Gorgeous Bedding Tuberous=Rooted****Begonias**

The tuberous-rooted Begonia is the fashionable plant of the day, and richly does it deserve its honors. The very handiest of our summer-blooming plants, flowering throughout the season, and as fine and varied in their color as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade and you will be delighted with the result. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry, and during hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth and wrapped in cotton until February or March, when they may be started again. Single, separate colors, white, scarlet, pink and yellow, 8 cents each, two for 15 cents, eight for 50 cents. Double, separate colors, white, scarlet, pink and yellow, 12 cents each, three for 30 cents, six for 50 cents.

BEAUTIFUL REX BEGONIAS

THE KING OF THE BEGONIAS

Rubrum.

THESE beautiful Rex Begonias are the best and easiest to grow of any of the Rex family. They delight in a moist, shady situation and make excellent house plants and for baskets and vases if not exposed to the full rays of the sun. They do best in light, open soil, composed of rich loam, loose woods earth and rich sand.

Beefsteak Begonia (Feastii.) A low, spreading Begonia, with perfectly circular leaves, red beneath, and dark glossy-green above, and of heavy texture. The finest pot Begonia we have for house culture. Price, three-inch pots, 20 cents; four-inch, 30 cents.

Enfant de Nancy Broad-like metallic zone; edge and center dark red, finely dotted over with silver. Price, 15 cents each; two for 25 cents.

Lesoudsii (King of Rex.) This is the finest and largest of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between Begonia Diadema and a Rex variety but retains in a marked degree the Rex character. We consider this the finest of all the Rex family both in size of leaf and rich coloring. Price, 15 cents each; two for 25 cents.

Magnifica A splendid grower. The leaves are the darkest of all the Rex, and it is the most distinct variety that grows. Price, 15 cents each; two for 25 cents.

Ricinifolia (Star Begonia.) Blossoms clear, rich pink. Bloom is lifted high and spray-like, quite clear of the foliage. Leaf very large, averaging a foot or more in diameter, separated into seven or nine large points and carried on thick, heavy stems eighteen inches or more in height. Foliage rich green, with red markings; surface velvety. A fine decorative plant. Strong three-inch pot. Price, 25 cents; three for 60 cents.

Robert George A fine, upright-growing variety. Very large, beautifully lobed, rich glossy silver leaves with a distinct palmate center of bronze-green. The edge of the leaf is metallic-green, distinctly spotted silver. Price, 15 cents each; two for 25 cents.

Rubella A very ornamental Indian species, belonging to the Ricinifolia section. The leaves are irregular and blotched red, on a pallid ground; ribs banded with a purplish-brown, under surface red. The flowers are borne on strong stalks one foot above the foliage, in large panicles of pink and white. Price, 15 cents each; two for 25 cents.

Rubrum The entire leaf has a pinkish metallic luster, which makes it one of the most attractive varieties. The leaf is very large, with a smooth edge, and the plant is a vigorous grower. Price, 15 cents each; two for 25 cents.

Speculata New speckled Begonia. Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. Individual pink blooms are lifted high and spray-like, quite clear of foliage. Price, 15 cents each; two for 25 cents.

Speculata.

DECORATIVE FERNS

Baby's Breath.

Baby's Breath (The Wonderful New Fern, *Nephrolepis Amerpohlilii*.) This is the newest and grandest of all Ferns. It is so delicately fine and duffy in foliage that it has been given various names, among them "Baby's Breath," indicating that its fronds are so very fine and delicate that a baby's breath would set them in motion. Our reputation for it, that it is the finest of all Ferns. No Ostrich Plume can compare with in fluffiness. Price, 15 cents. Fine specimen plants, 35 and 50 cents. (See cut.)

Nephrolepis Superbissima New. Offered for the first time. A unique variety, different from all others and really in a class by itself. It makes a dwarf, compact growth, the fronds being very dense, firm and rigid, and of a deep green color. Young plants, 20 cents each; four-inch, 35 cents. Fine specimen plants, 50 cents.

New Nephrolepis Whitmanii (The newest and finest Fern yet introduced.) It is the best Fern of the Boston type yet introduced. It is somewhat similar to the Fern Tarrytown, but much more compact and shorter in its growth. Price, fine young plants, 10 cents each, three for 25 cents. Strong, four-inch pot plants, 35 cents each. Extra fine specimen plants, 50 cents each. (See cut.)

Nephrolepis Superbissima.

New *Nephrolepis Whitmanii*.

THESE beautiful plants for home decoration vie with the Rubber plants for first place in the esteem of flower lovers. They are finely cut and sometimes oddly shaped. Fronds have a graceful effect produced by few other plants. With practically the same care as given flowering plants they do exceedingly well in the parlor and conservatory. The Ferns of the Pteris family do as well as the Sword Ferns; the best varieties for the house are to be found in the Pteris family. The Nephrolepis family, of which the well-known Boston is a member, has furnished us so many beautiful species of late years and are succeeding so well that this family is steadily growing in popularity. The varieties we list on this and the following page are all recommended for indoor growing in pots as specimens or for ferneries for table decoration. Ferns should be planted in a good light soil with some sand and leaf mold added: see to it that wherever planted they have good drainage. Their diversity and gracefulness of foliage make them much valued as plants for vases, baskets or rock work, or as specimen plants for parlor or conservatory. Keep them out of the direct sunlight and water carefully, that the delicate roots lying near the surface may never become dry.

The Boston Drooping Fern (*Nephrolepis Bostoniensis*.)

Much has been heard of this Fern during the past year; of the same form as the Sword Fern, *Nephrolepis Exaltata*, but has larger and broader fronds. In well grown specimens the fronds attain a height of six to seven feet. Fine for hanging pots and baskets. Price, 10 cents each, three for 25 cents. Large plants, 25 cents each. Extra fine plants, 35 cents.

Springfieldii (New.) In this new Fern we have a novelty of rare merit, and sterling worth, which is bound to become popular. Of the *Ostrich Plume* type. The fronds grow stiffly erect in the most luxuriant manner, giving it a feathery appearance. New fronds are constantly developing and are a rich, dark green, and remain so. Just the thing for the center of vases, window boxes, etc., where an erect growing plant is needed. It will thrive and grow in any good, light garden loam, with but little care. Price, 10 cents each, three for 25 cents. Fine large plants, 30 cents each.

Nephrolepis Scotti Of much dwarfed and bushier growth than the Boston Fern. The fronds droop gracefully, and are not as long and coarse as the Boston. It is a rapid grower, and to see it in all stages of growth from a runner in the bench to a fourteen-inch pot specimen will convince you that it will be in great demand as a house Fern. Price, strong plants, 10 cents each, three for 25 cents. Nice three-inch pot plants, 20 cents each, three for 50 cents. Large plants, 30 cents each.

Nephrolepis Scholzeii (The Plumed Scotti Fern.) The ideal plumed Fern, holding the same position to all other plumed varieties that Scotti holds to the old Boston. It is a sport from Scotti, possessing all the merits of that most popular variety, but with the pinnae sub-divided, giving it an airy, feathery appearance. Price, nicely shaped plants, 15, 25 and 40 cents each, postpaid.

The Boston Drooping Fern.

Success With House Plants (By Lizzie Page Hillhouse.) A textbook, the result of practical experience, that, faithfully followed, will enable every lady to keep her home attractive with dainty and fragrant flowers. Price, cloth, 75 cents; paper, 65 cents.

Flower Queries Five hundred questions on Practical Floriculture answered and topics discussed. A practical book written in the form of questions and answers on the cultivation and care of indoor plants and flowers. Nothing like it published. Every lady in the land should have it. It is a mine of condensed and accurate information on flower culture. Price, 25 cents.

We pay express on all shipments if you will state in your order for us to do so, and then select premiums in accordance with mail clubbing rates. However, in this event, all soil will be removed from plants, the same as is done by all firms that prepay express charges. The proper way is to have them come at your expense, as it will oftentimes only cost you 35 cents.

Do not include fruit or ornamental stock in your premiums.

A PAGE OF BEAUTIFUL HOUSE PLANTS

Asparagus Plumosus Nanus One of the handsomest of our foliage plants. The leaves are a bright green, gracefully arched, and as finely woven as the finest silken mesh. Their lasting quality when cut is remarkable, retaining their freshness for weeks, hence it ranks as the most valuable plant we have for this purpose, surpassing the Maiden Hair Fern in grace, fineness of texture and richness of color (See illustration.) Price 10 cents each; extra large plants, 20 cents each. Extra nice specimen plants, 35 cents.

German or Parlor Ivy A strong growing climber suitable for large baskets or vases, well adapted for covering trellis work quickly or trailing in the parlor. Leaves glossy green and flowers yellow in clusters. Price, 10c.

Dracena Indivisa.

Crown of Thorns (*Euphorbia Splendens*.) A curious plant, with thick, fleshy twining stems, which are covered with stout, sharp spines nearly an inch long. The foliage is bright green and the flowers are a beautiful coral-pink, very pretty when in bloom. Price, 15 cents each; three for 40 cents, postpaid. Larger size, from four-inch pots, 40 cents.

Ficus Elastica.

Ficus Elastica (India Rubber Tree.) Very large, smooth, leathery leaves, evergreen foliage. Generally esteemed one of the finest house plants grown, the plant attaining a large size and tree shape. Each new leaf is enclosed in a long, coral-red envelope, looking like a great red flower bud. Price, fine plants, 35 and 50 cents.

Dracena Indivisa Of all the plants in use for centers of vases, baskets, or for beds in the open ground, nothing is more valuable than this is. From its graceful drooping habit it is sometimes called the "Fountain Plant." Price, 10 cents each. Extra large, 20 cents.

Asparagus Sprengerii A desirable species, useful as a pot plant or for baskets; fronds frequently four feet long; a rich shade of green, retaining freshness for weeks after cutting; fine house plant, as it withstands dry atmosphere. Price, 10 cents each. Extra large plants, 20 cents each.

AMERICAN WONDER LEMON

Sent Out By Some Under the Spurious Name of "Ponderosa"

The Largest and Finest Edible Lemon in the World

Price, for very strong young plants, 10 cents each; six for 50 cents; strong, handsome plants from four-inch pots, 25 cents each; large two-year plants, fruiting size, 50 cents each; very large, handsome plants, exceptionally fine fruiting size, \$1.00.

THIS TRULY WONDERFUL LEMON

Was introduced for the first time to the public in the spring of 1899. Since that time we have grown and sent out thousands to all parts of the country, and the reports we have received from our patrons in all quarters as to its productiveness and size is very flattering.

THE AMERICAN WONDER IS A TRUE EVER-BEARER

Blooming and fruiting at the same time. Think of sixty Lemons setting from one branch of bloom on a small twig. It has bloomed and set fruit on the naked trunk of the tree. There is no Lemon in the world to compare with it.

ITS CULTURE

Plant it in any good garden soil in a large pot or small tub, and keep it in the house or cellar during the winter. You can set the tub and plant out on the piazza or lawn when the weather gets warm. Give plenty of water while growing. No plant is easier to grow.

THE AMERICAN WONDER ON ITS OWN ROOTS

We guarantee the trees to produce the same large fruit. No budding or grafting.

American Wonder Lemon.

OTAHEITE ORANGE

A grand pot plant, and one of great beauty and novelty. It blooms most freely during the winter, though it is likely to bloom at any and all times of the year. The fruit is about one-half the size of ordinary oranges, and very sweet and delicious. Price, 10 cents each; large, strong plants, 25 cents each; extra fine plants, 40 cents.

Camellia Japonica.

CAMELLIA JAPONICA

This beautiful flower can be grown with success in the North as well as the South, and every flower fancier should have one. Their dark, shiny leaves contrast beautifully with the waxy-like blooms which come in white, blush, pink, red and variegated shades. They are quite hardy in the Southern states, and require no protection and very little care. Price, purchaser's selection of colors, \$1.00; three for \$2.75 (by express only, at purchaser's expense).

N. B.—Our Camellias are imported from Holland, and while we exercise great care in sending them true to name, they sometimes become mixed through no fault of ours, and sometimes they will vary a light shade as to color. Consequently under these circumstances we cannot replace them on this account.

CHINESE AZALEA INDICA

No plant yet introduced gives better satisfaction or is becoming more popular every season for window and conservatory decoration. The accompanying illustration gives a good idea of an average plant in flower.

We offer only large plants, well shaped and covered with buds, which can only be

sent by express (too large to send by mail). Price, specimen plants, 75c and \$1.00 each. Must be sent by express, purchaser's expense.

SILVER STRIPED PEPEROMIA

So thick and waxy-like are the leaves of this parlor gem that nearly every one takes it to be an artificial plant. The leaves are distinctly variegated white and green, and have the appearance of being powdered with frosted silver. Its small spikes of Mignonette-like flowers are quite interesting. Price, 10c each; three for 25c.

OLD-TIME FAVORITE PLANTS and Vines

All the Choice and Rare Old Favorites are Found on this and Following Pages .: .:

ABUTILONS

Chinese Bell Flower or Flowering Maple

Price, 10 cents each; three varieties, your selection, 25 cents.

Souvenir De Bonne Leaves distinctly edged with a pure white band. Flowers are bright orange, veined with crimson.

Golden Bells A bright golden-yellow.

Robert George Its color is orange, veined with crimson.

Snow Storm It is a remarkably strong grower, standing the hottest rays of summer, and always a mass of bloom. The large bell-shaped flowers, as the name implies, are snow-white.

Savitzii (New Japanese Maple-Leaved Abutilon.) The leaves are deep, dark green in the center, with a wide border of pure white.

Eclipse Fine for baskets and vases, trailing in habit. Its foliage is very attractive, beautifully marked dark green and yellow. Flowers bright yellow with crimson throat.

Infanta Eulalia Very compact and short jointed, making a very neat pot plant. The flowers are the most beautiful we have seen among Abutilons, being very large, yet short and beautifully cupped, and of the most lovely pale satinpink color imaginable. It produces its flowers by the score both summer and winter.

Abutilon Golden Bells.

PILEA SERPAEFOLIA

(Artillery Plant.) It is very desirable for filling in hanging baskets, window boxes, vases, etc. It also makes a graceful plant as a single specimen. It has graceful frond-like leaves; flowers small and produce a snapping sound when water is thrown on the foliage. **Price, 10 cents each; three for 25 cents.**

ROYAL PURPLE

(Strobilanthes Dyerianus.) It surpasses the finest Coleus in exquisite coloring of the leaves, besides which, the long racemes of lovely violet blossoms with which the plant is covered in midwinter, greatly enhance its value and beauty. **Price, 10 cents each; three for 25 cents.**

MANETTIA BICOLOR

It is both a rapid and beautiful climber. The flowers are from an inch to an inch and a half in length, of a most intense bright scarlet, shaded into flame, tipped with the deepest golden-yellow and covered with a thick scarlet moss. **Price, 10 cents each.**

CRAB CACTUS

(Double Sweet.) Splendid for edging beds. Also fine for winter blooming in the house. Elegant for baskets, vases, or window boxes. **Price, 8 cents each; 50 cents per dozen.**

Alyssum.

CRAPE MYRTLE

Price, 15 cents each; two for 25 cents.

CRIMSON—The old crimson variety.
PINK—Colored a fine shade of pink.

OLD-TIME FAVORITE PLANTS AND VINES—Continued

Feverfew Little Gem

The flowers are large, of perfect form, and of the purest white. Splendid for cutting. Price, 8 cents each; three for 20 cents.

Genista Canariensis

(Fountain of Gold)

This beautiful plant well deserves the great popularity it has gained in the past two years. The drooping branches are covered with delicate sage-green foliage, and every twig tipped with a long raceme of exquisite pea-shaped blossoms of a pure canary color, almost hiding the foliage, and suggesting the name "Fountain of Gold." Price, 10 cents each; three for 25 cents.

Lantas

Yellow, White, Pink and Variegated. They are fine for bedding. 10 cents each. Any three Lantas for 25 cents.

Oleander Rose Queen.

GIANT FLOWERING 'HIBISCUS

Large flowering tropical plants with very glossy foliage. The plants under the hottest sun produce enormous flowers in great numbers and make noble specimens. They can be grown in tubs and kept for years. The blossoms average five or six inches in diameter and are gorgeously colored.

PEACHBLOW

This is one of the finest plant novelties offered in recent years. The flowers are double, and from four to five inches in diameter. Color a clear, rich pink, with a small deep crimson center; an entirely new and most beautiful shade. Price, 15 cents each; large two-year-old plants, 30 cents each.

Hibiscus Peachblow.

AURANTIACA

Large, double, orange-colored flowers; early and profuse bloomers. Price, 10 cents each; large two-year-old plants, 25 cents.

GRANDIFLORA

Rich, glossy foliage, blooming profusely throughout the summer, literally covering the plant with scarlet-crimson flowers. Price, 10 cents each; large two-year-old plants, 20 cents each.

MINIATUS SEMI-PLENA

Large, semi-double, brilliant and attractive; bright vermilion-scarlet; ought to be in every garden. Price, 10 cents each; large two-year-old plants, 25 cents.

DOUBLE HIBISCUS ZEBRINUS

Petals scarlet, edged and striped with creamy-yellow and white. A unique variety. Price, 10 cents each; large two-year-old plants, 25 cents.

VERSICOLOR

A variety combining in its giant flowers all colors of the whole family. Price, 10 cents each; large plants, 25 cents each.

RUBRA

A magnificent double variety, with large red flowers. Price, 10 cents each; two-year-old plants, 25 cents each.

GEN. DE COURTIGIS

A very grand, large-sized flower; single, light scarlet; very showy. Price, 10 cents each; two-year-old plants, 20 cents each.

CARMINATUS PERFECTUS

Full, round flower of a perfect shape, and of a rich, soft carmine-rose, with a deep crimson eye. A beautiful, free-blooming variety. Price, 10 cents each; two-year-old plants, 25 cents.

FRAGRANT HELIOTROPES

Price, 10c. each; two for 15c.

ALBERT DELAUX

A French variety of great beauty. Foliage is a bright golden-yellow, very pronounced, and marked slightly with delicate green. In bloom it is exquisitely beautiful, the deep lavender color of the flowers contrasting admirably with the ever-varying foliage. Very free, flowering.

PICCIOLA

Rosy-violet. Indeed almost red, with a distinct white center showing upright growth producing immense heads of flowers well above the foliage; flowers do not have that drooping appearance that is so much against some of the other varieties.

Florence Nightingale.

Picciola.

CHAMELEON

Bright blue, passing to pale lavender; large florets and panicles.

MADAME BRUANT

Immense panicles of very large flowers, a rich purple with large white eyes.

SNOW WREATH

The nearest approach to pure white we have in the Heliotrope. Exquisite fragrance.

FLORENCE NIGHTINGALE

Dark lavender; fine.

We will send any three of these Heliotropes for 20c.

TWO NEW HELIOTROPES Price 15 cents each; two for 25 cents.

BUISSON FLEURI

(New)—Semi-dwarf growth, covered by unusually large trusses of large, flat-faced flowers. Color, rosy-violet with star-shaped eye.

CENTEFLEUR

Immense trusses of the darkest purple, without doubt the finest Heliotrope of recent introduction. Must be seen to be appreciated.

Beautiful Fragrant Jasmines

GRAND DUKE OF TUSCANY

Easily grown, even the small plants bearing a profusion of double, creamy-white flowers having a delicious perfume. A plant of this lovely variety will, when in bloom, scent up a whole yard or house. It is by far the most delicious in bloom and fragrance of all Jasmines; it is sweeter than a Tuberose, and that is saying a good deal for it. Will thrive out of doors and bloom through the season. A magnificent plant, and one of the most valuable and popular of pot plants. It can be stored in a dry cellar in winter. It will please you. Try it. Price, fine plants, 15 cents each; large plants, 30 cents each.

Grand Duke of Tuscany.

JASMINE GRANDIFLORUM

A beautiful plant, with small, glossy, evergreen foliage, handsomely arranged on long, graceful branches, which are inclined to vine. It blooms in the fall and winter, bearing in the greatest profusion, small, pure white flowers of a spicy fragrance, which is truly delicious. A splendid house plant. Price, 10 cents each; large size, 25 cents each.

JASMINE GRACILLIMUM

A new Jasmine, and remarkable for its freedom of bloom. Beautiful, pure white flowers, borne in clusters. Delightfully fragrant. In bloom from October to February. We have two sizes of this beautiful Jasmine. Nice plants, 10 cents each; large plants, 25 cents each.

NEW JASMINE, MAID OF ORLEANS

A very attractive new sort, with good-sized double flowers, blooming profusely all summer; shining, pale-green foliage. We predict for it a rapid sale, as it is so much easier to handle than other Cape Jasmines, and on the whole more desirable. Price, nice large plants, 10 cents each; large plants, 25 cents each.

CAPE JASMINE OR GARDENIA FLORIDA

A lovely pot shrub, producing an abundance of large, double white, wax-like blossoms of great beauty and renowned fragrance. Nothing else like it, and for delicate beauty and fragrance it is unrivaled. Price, 20 cents each; fine large plants, 35 cents each.

REVOLUTUM, YELLOW JASMINE

A strong, climbing plant with glossy leaves and single, deep yellow, fragrant blossoms. A beautiful plant and easily grown. Almost hardy in this latitude. Price, 10 cents each; \$1.00 per dozen; large plants, 25 cents each; \$2.25 per dozen.

BROWALLIA

New Giant.

Few people acquainted with the old form of Browallia would recognize this new variety. Flowers deep indigo-blue, fully two inches in diameter, blooming continually and completely enveloping the whole plant. Either for bed or pot plants. Price, 10 cents each; three for 25 cents.

Three distinct Browallias—Blue, White and Yellow. Price, 10 cents each; any three for 25 cents.

Browallia—New Giant.

Three Beautiful Plumbagos

Plumbago Capensis.

PLUMBAGO CAP. ENSIS — A well-known favorite, and always valuable because it produces large trusses of beautiful light blue flowers. Price, 10 cents each.

CAPENSIS ALBA — The counterpart of Plumbago Capensis, except in color, which is creamy-white; a constant bloomer; a splendid new sort. Price, 10 cents each.

C. C. I. N. E. A. ROSEA SUPERBA — Flowers in racemes

from twelve to fifteen inches in length; the color is bright satiny-carmine; a grand house plant, and worthy of extended culture. Price, 15 cents each.

UMBRELLA PLANT

(*Cyperus Alternifolius*.)

An ornamental grass, throwing up stems about two feet high, surmounted at the top with a whorl of leaves, diverging horizontally, giving it a very curious appearance. Splendid for the center of vases or as a water plant. Price, 10 cents each; three for 25 cents; larger size, 20 cents each; three for 50 cents.

Umbrella Plant.

SOLANUM JASMINOIDES GRANDIFLORA

A beautiful plant of climbing habit, attaining a height of three to five feet, but can be grown in bush form. Its flowers are star-shaped and borne in clusters, large, pure white, with a violet tinge on back of petals and on the buds. In pots it is a continuous bloomer both summer and winter. Price, 8c each.

VINCA MAJOR VARIEGATA

A beautiful variegated trailing plant, admirably adapted for hanging baskets and vases. The leaves are of a glossy green, broadly margined a creamy-white; flowers blue. Price, 10 cents each; three for 25 cents; large plants, with vines two or three feet, 25 cents each.

Smilax.

SMILAX

For using for a green with cut flowers it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. Price, 8 cents each; four for 25 cents.

Sansevieria Zeylanica.

SANSEVIERIA ZEYLANICA

This beautiful house plant is well adapted for the decoration of sitting rooms, halls, etc., as it stands dust and neglect of watering with impunity. The leaves grow to a length of three to four feet, and are beautifully striped crosswise, with broad, white variegations on a dark green ground. Price, nice plants, 15 cents each; larger size, 25 cents each.

Vinca Major Variegata

SWAINSONIA GALEGIFOLIA

A native of Australia; extremely graceful; trained at a window or on a trellis, presents a lovely sight of light green foliage, and a splendid profusion of sprays, resembling Sweet Peas in form.

PURE WHITE—Large, milk-white, exquisite. Price, 15 cents each.

PINK—Beautiful pink, with white blotches. Price, 15 cents each, or the two varieties for 25 cents.

Ever-Blooming Paris Daisies or Marguerites

Price, 10 cents each; any three for 25 cents.

MADAME GAILBERT (New Paris Daisy)—All know the old varieties of Paris Daisies how beautiful and much sought after for decorations of all kinds. This new variety blooms constantly and will produce ten blooms to the older variety's one. Nothing is so airy and graceful as these blossoms of large white petals, showing a yellow disk.

ETOILE D'OR (New Paris Daisy)—The new yellow Paris Daisy, similar to the above, but a rich golden color. These two varieties go handsomely together.

QUEEN ALEXANDRA—A wonderful improvement on the type; a fine large flower, double Anemone center of short, white, overlapping petals, inclosed by long ray petals.

CORONATION—A splendid new white variety from England; extra large flowers which completely cover the plant.

AGATHEA CELESTIS (Blue Daisy)—Delicate light blue, with yellow disk. Flowers, daisy shaped. Blooms in great profusion during winter and spring.

New Marguerite Daisy

MRS. SANDERS—The flowers are large, pure white, as shown in illustration, occasionally throwing up single flowers, which really adds to the beauty of the plant. Price, 15 cents each; two for 25 cents.

New Marguerite Daisy, Mrs. Sanders.

Passiflora Pfordti

The best of all the Passion Vines. Large flowers borne profusely even on very young plants, a rich shade of blue suffused with rose. Price, 15 cents each; two for 25 cents.

Passiflora (Passion Flower)

(Hardy Passion Flower, Constance Elliott.) (Climbing Plant for Greenhouse and Windows.)—This beautiful variety has flowers very large and pure ivory-white. Excellent for cemetery purposes. Price, strong plants, 10 cents each; three for 25 cents.

Olea Fragrans

(Sweet Olive.) An old favorite greenhouse shrub, succeeding admirably as a house plant, producing small, white flowers which are of the most exquisite fragrance, continuing to bloom almost the entire winter. Nice, strong plants, 40 cents each.

Agathea Celestis.

Magnolia Fuscata

(Banana Shrub.) A most desirable greenhouse shrub, succeeding admirably as a window plant. It produces its brownish-yellow flowers in the greatest profusion during late winter or early spring months. These are of the most exquisite fragrance, similar to a ripe banana. Strong plants, 40 cents each.

Magnolia Grandiflora

"Where the Sweet Magnolias Bloom." The wondrous Magnolia of the South, the most magnificent of all Southern broad-leaved evergreens. Leaves very large, very much like those of the Rubber Tree. Flowers six to eight inches across, creamy-white, waxy and powerfully fragrant. Forms a majestic tree sixty to eighty feet high. Not considered hardy north of Washington. But as it begins blooming when quite small, it can be treated as a tub plant and wintered in the cellar. Price of fine pot-grown plants, which are sure to live and grow off finely, 40 cents each; larger size, 60 cents each.

N. B.—Both sizes of Magnolias must be sent by express.

Cuphea Platycentra

(Cigar Plant.) This is a well-known ever-blooming plant of neat habit, growing twelve inches in height. The tube of the flower is scarlet, with the end partly white and crimson. These plants thrive beautifully in hanging baskets, vases, etc. They are also valuable as pot plants in the window. Price, 8 cents each; four for 30 cents.

New Paris Daisy, Madame Gaillbert.

Ageratums

Price, 10 cents each; any three for 25 cents.

LITTLE BLUE STAR—Five inches high, bears clusters of small blue flowers.

PRINCESS PAULINE—Both colors, blue and white, are combined in the same flower; the body of the flower being white.

STELLA GURNEY—Dwarf and compact growth; fine for bedding or basket and vase; color deep, even blue.

Cyclamen or Persian Violet.

Cyclamen or Persian Violet

Price, 15 cents each; three for 40 cents.

No more ornamental plant for greenhouse or parlor culture than Cyclamen. It grows readily, blooms freely, and remains a long time in flower. Put in pots. The whole secret of growing Cyclamens to perfection is light, air and low temperature.

CYCLAMEN GIGANTEUM ALBUM—Pure white.

CYCLAMEN GIGANTEUM ROSEUM SUPERBUM—Pink, with dark eye.

CYCLAMEN GIGANTEUM EMPEROR WILLIAM—Deep red.

Tradescantia Multicolor.

The Baby Primrose (Primula Forbesii)

Wonderfully free-blooming plant, to flower as soon as borne. Flowers of a delicate rosy-lilac, with eye of pale gold; produced in great abundance. Price, 10 cents each; three for 25 cents.

Chinese Primroses

Red, White, Blue and Pink for Winter Flowering

Large-flowered and beautifully fringed. Few plants give better satisfaction than our Primroses, especially for winter blooming, for which they are particularly adapted. They delight in a rich, light sandy soil and should be grown in a cool temperature to obtain the best results. We will send four distinct varieties of Chinese Primroses in above four colors for 30 cents. Price, per single plant, 10 cents.

Ever-Blooming Primula Obconica

A lovely perpetual-blooming Primrose and admirably adapted to growing in a cool climate. The flowers are profusely borne in loose trusses, of a delicate rosy-lilac shading to white.

OBCONICA GRANDIFLORA—Flowers pure white.

OBCONICA CARMINEA—Color deep cerise-pink.

Price, nice plants of any variety, 15 cents each; two for 25 cents; \$1.25 per dozen, postpaid. Large plants, any variety, 25 cents each; any two for 40 cents; \$2.00 per dozen.

The Beautiful Mexican Primrose

A charming large basket or pot plant. Flowers of a beautiful, bright clear pink color. Price, 10 cents each; four for 25 cents.

Tradescantia, or Wandering Jew

Beautiful trailing plants with thick, waxy, lance-shaped foliage; useful in baskets and porch boxes.

BICOLOR—Dark green with two stripes of frosted silver. Price, 6 cents each; three for 15 cents.

Tradescantia Bicolor, or Wandering Jew.

Tradescantia Multicolor, or Wandering Jew

The prettiest and most useful of all decorative plants. Nearly every one is acquainted with the old Zebrina. The one now offered is much more beautifully variegated. Price, 6 cents each; three for 15 cents.

White Moonflower

A very rapid summer climber, blooming the first season. The flowers are immense, pure white, sweet-scented, five inches in diameter, borne very profusely, and as they open at night are very striking. Being a free bloomer, the effect on a moonlight night is charming. It is a splendid plant for verandas. Price, 10 cents each; three for 25 cents.

Ipomea Maxima

(The Wonderful New Giant Moonflower.) "A giant in growth and flowers and wonderfully fragrant." This grand new Moonflower is a decided improvement over the old standard variety Ipomea Grandiflora. The flowers are more than twice the size of the old variety, oftentimes measuring from six to seven and one-half inches across, and are produced in such wonderful profusion that they completely cover the vine with a veil of glistening white. Its growth is very rapid, when planted in a good, rich, light soil; there is no equal to it for porch and lattice shading. Price, large growing plants, 10 cents each; three for 25 cents; \$1.00 per dozen, postpaid.

Blue Moonflower, Ipomea Learii

A handsome quick-growing climber. It often flowers in bunches of a half dozen. The flowers are about four inches across, of a rich violet-blue, with five purple rays, grows about twenty-five feet in one season, and is a most attractive climber. Price, 10 cents each; three for 25 cents.

These handsome Climbers reach the height of twenty-five feet in a very short time. Are profuse bloomers and delightfully fragrant.

Ipomea Grandiflora.

Ipomea Maxima.

Saxifraga Sarmientosa

(Or Beefsteak Plant.) A plant of low habit. Leaves nearly round, and striped freely with silvery bands. Blooms white, of great beauty, and borne in spikes nearly twelve inches high. Adapted for hanging baskets, vases, etc. This is also known as Strawberry Geranium. Price, 8 cents each.

Grand New Ruellia Makoyana

This is a charming indoor plant for culture in pots, vases and baskets; of bushy, spreading habit and finely marked leaves, which are beautiful olive-green delicately veined with silver, and rich purple underneath. A neat and handsome plant, always bright and pretty. Price, 10 cents each; three for 25 cents.

Holt's Mammoth Sage

The plants of this new variety are very robust, making a remarkable growth the first season. They are perfectly hardy and increase with age. The leaf is borne well above ground, is of unusual substance, strong in flavor and of excellent quality. They do not produce seed. Price, 10 cents each; 75 cents per dozen.

Russelia Multiflora

The stems are strong and grassy. The flower panicles are extremely long and are covered with tassels of flowers one over the other. Color a grand coral-red. Always in bloom. No better plant is grown for baskets, vases and window boxes. Price, 10 cents each.

Oxalis Ortgiesii

It grows twelve to eighteen inches in height, branching freely and loaded at all times with clusters of bright golden, star-shaped flowers, which do not close at night, like other Oxalis. The leaves are three-lobed, dark olive-green above and a beautiful, shining metallic crimson-purple underneath; wine-colored stems. Price, 15 cents each; three for 40 cents.

PERPETUAL BLOOMING SWEET VIOLETS

SWEET VIOLETS are great favorites and always in demand. They do well in open ground, and if given a sheltered place will usually begin to bloom before the snow is gone, and continue bearing their lovely flowers for several months. Vast quantities are grown for market, and find a ready sale at good prices. Following are the best varieties.

Single Violet, California This beautiful Violet has created a decided sensation; buyers prefer it to all others; it is entirely hardy and of the richest dark blue and very fragrant. Price, 10 cents each; three for 25 cents; \$1.00 per dozen.

Lady Campbell Double purple, similar in growth but color a little lighter; very good for cut-flower planting. Price, 10 cents each; three for 25 cents; \$1.00 per dozen, postpaid.

Grand Violet, La France Among all the Violets usually grown it seems generally agreed that La France stands at the head of the list for all good qualities. It is of hardy, vigorous growth, and wonderfully productive, stems ten to twelve inches long, with large, healthy foliage; the splendid single flowers are dark rich violet-purple and deliciously fragrant. Every one should plant this magnificent Violet. Price, 10 cents each; three for 25 cents; \$1.00 per dozen, postpaid.

Single Violet, Princess of Wales.

Swanley White.

Swanley White This is a sport of the popular and well-known Violet Marie Louise, and is in every way equal to its parent, having the same growth, the same freedom of flowering, the same perfect perfume, and the individual flower equally as large and of the purest white. Price, 10 cents each; three for 25 cents.

Marie Louise Bold, fine flowers, very fragrant, very prolific. The color is of a dark blue; flowers double. This is the favorite double or blue Violet that you see in the florists' windows. Price, 10 cents each; three for 25 cents; \$1.00 per dozen, postpaid.

Hardy Double This Violet is entirely hardy,

English Violet perfectly double, a deep violet-purple color and most deliciously fragrant. Will grow and bloom in any garden, and in any situation. Nothing is more appropriate for cemetery plots than the hardy Double English Violet. Price, 15 cents each; three for 40 cents; \$1.50 per dozen, postpaid.

New Violet, Peacock This is an entrancingly beautiful new Violet, the markings of its charming colors are difficult to describe. The prevailing color is white, with delicate tracings and markings of sky-blue. Everybody is charmed with it. Price, 10 cents each; three for 25 cents; \$1.00 per dozen.

Governor Herrick A splendid new single Violet. The flowers are rich dark purple color and are carried erect on long and strong stems. For freedom of bloom this new variety outclasses all others. Very fragrant. Price, 10 cents each; three for 25 cents; \$1.00 per dozen.

Princess of Wales (New Single Violet.) This variety is far ahead of any other single Violet known. The grand single flowers of a true violet-blue color that does not fade, and of the richest, most delicious fragrance. Price, 10 cents each; three for 25 cents; \$1.00 per dozen, postpaid.

Lady Hume Campbell.

OUR CHOICE COLLECTION OF DAHLIAS

Decorative.

Cactus.

Show.

ONE of the most important points in the cultivation of the Dahlia is to select a well drained position where they will receive the full benefit of the sun during the greater part of the day. As to soil, they are not at all particular, excepting that in the case of a stiff clay some loose material should be added, such as coarse sand, old mortar, or anything which will make the soil loose and friable. The soil must be deeply dug, if possible to a depth of two spades, and a liberal amount of suitable plant food incorporated. For this nothing is more satisfactory than well-decayed stable manure; but where this cannot be conveniently procured pure bone meal, sheep manure, or any chemical fertilizer rich in ammonia and phosphoric acid will answer as a substitute. The planting of dormant roots in the latitude of Springfield may be done at any time between April 25th and June 15th, the earlier planting being preferable. Green or growing plants must not be set out until all danger of frost is over, say May 10th or 15th. Do not crowd your plants, but plant at a distance of not less than two and one-half or three feet, and, as soon as the shoots appear, remove all but two or three of the strongest, and these, when about a foot high, should be secured to stout stakes. As a rule we supply nearly all Dahlias in dormant roots, but as the season advances and our supply of certain varieties becomes exhausted in this shape, green, growing plants are supplied instead. These will give equally as good results as dormant roots (many experienced planters will only plant green plants, and by the time they are cut by frost they will have produced strong roots, which can be carried over winter in the ordinary way. We spare neither time nor expense in testing the new varieties of both home and foreign production, and the lists of the various types given in this catalogue are very carefully selected with a view to giving our customers the very best Dahlias there are grown for the money. They have been given much observation and ample time to establish their superior quality.

SELECT STANDARD DECORATIVE AND SHOW DAHLIAS

Price, 15 cents each; any two for 25 cents; \$1.35 per dozen.

A. D. LIVONI—Perfect pink with quilled petals.

ARABELLA—Primrose, tipped and shaded old-rose and lavender.

BLACK BEAUTY—A beautiful dark, velvety-maroon.

CATHERINE DUER—Iridescent Geranium-red.

CLIFFORD W. BURTON—Largest; canary-yellow.

ECLIPSE—Very fine bright scarlet.

ELDRADO—Ball-shaped; copper color; very fancy.

EMILY—Rosy-lavender, changing to white.

GRAND DUKE ALEXIS—Giant white lavender tinged, quilled petals.

HENRY PATRICK—Large pure white.

NYMPHAE—Shrimp-pink with white center; most beautiful of all.

ORANGE KING—Very rich glowing orange-scarlet.

MRS. WELLSLEY—Very showy; white, edged and tipped crimson.

QUEEN VICTORIA—A very fine pure golden-yellow.

QUEEN OF YELLOWS—Perfect form, solid yellow.

RED HUSSAR—Tall, bushy, upright with wrinkled highly ornamental foliage. Flowers full, recurved to ball shape—fiery cardinal with bronze edge at bottom.

WILLIAM AGNEW—Large ball-shaped; brilliant crimson-scarlet.

SYLVIA (Superb Decorative Dahlia.)

A very valuable decorative Dahlia. Flowers from four to six inches in diameter, of fine form, white shading to soft pink on the outer petals. Splendid substance, giving it an unsurpassed keeping quality. An early and profuse bloomer.

FOUR OF OUR CHOICE POMPONS

Price, 15 cents each, any two for 25 cents; \$1.35 per dozen.

Catherine—Purest yellow, large for its class.

Little Beatrice—Pale pink, with fine purple veins on underside of semi-quilled petals.

Sunshine—Brilliant scarlet; fine form, full flower.

Makes a gorgeous show when planted in masses.

White Aster—Fine fringed white.

Pompon.

Our Five Best Single Flowering Dahlias

John Cowan.

Earl of Pembroke.

Price, 15 cents each; any two for 25 cents; \$1.35 per dozen.

A very profitable class; always a mass of bloom early and late. Stem invariably long.

JOHN COWAN—Very fine rich scarlet-maroon.

MARS—Deep purple.

TWENTIETH CENTURY—Early in the season an intense rosy-crimson, shading gradually to almost white on the edges and a light halo around the disc. As the season advances the flowers become lighter, changing to almost pure white, suffused with soft pink.

YELLOW WILDFIRE—Flaming scarlet, with yellow center.

JACK—A handsome and entirely distinct variety and one of the gayest in color ever sent out; it is of a brilliant fiery-scarlet with the base of the petals distinctly overlaid with golden-yellow, particularly pleasing under artificial light. The flowers are large, with broad, overlapping, recurved petals. The freest-flowering Dahlia in cultivation.

OUR THREE GIANTS

Price, 20 cents each; three for 50 cents

CUBAN GIANT—New decorative. An immense ball of bright maroon, free and lovely.

JACK ROSE—New decorative Dahlia, but there are so many high qualities united in this fine variety that little is left to be desired. The leading quality is the color, a brilliant crimson-red with fiery tones in the center of the flower, the whole overlaid with a soft violet-maroon. The form of the flower is the pure "Decorative" type, double to the center, never showing the yellow stamens or immature green. The flowers are from five to six inches across under normal conditions. The habit is compact, medium height and freely branching, producing twenty to thirty well budded, long stems to a plant. By disbudding, flowers six inches across on thirty-inch stems may be had. They keep remarkably on the plant, one of its most valuable points and unsurpassed in that respect. The demand for Dahlias as cut flowers is constantly increasing, and this fine variety is unsurpassed for that purpose because of its splendid color, size, stem and keeping qualities.

SOUVENIR DE GUSTAVE DOAZON—A most sensational Dahlia; a decorative variety of mammoth proportions, which under ordinary cultivation will produce flowers six inches across, and can be grown to measure full nine inches. Center rounded up and much darker than balance. Brilliant orange-red; a free bloomer and very showy.

CACTUS DAHLIAS OF SPECIAL MERIT

A selection of ten varieties made with a view of supplying the amateur with an assortment of Cactus sorts, which in our own experience we have found to be the freest-flowering under the most varied conditions of soil and climate, and which can be depended upon to make an early and continuous display in the garden, and at the same time furnish an abundance of choice flowers for cutting.

APPLE BLOSSOM—A new and charming variety of medium to large size, full and regular. Ground color bluish-pink, shading to white, while each petal is margined with deep glowing pink. One of the pleasing features of this variety is that the color varies from nearly white to soft pink, while the shadings of the margins vary from bright to deep glowing pink. Extremely early and profuse bloomer. Price, 20 cents each.

COUNTESS OF LONSDALE—Deep salmon-red, one of the best.

EARL OF PEMBROKE—Long, broad petals of ruddy plum.

FLAMINGO—Long, sharp pointed quills; orange-red with slight bluish tinge at tips.

FLORADORA—A remarkably free-flowering, bright blood-red.

KRIEMHILDE—A magnificent new variety, bearing perfect flowers of fresh delicate pink, shading to deep rose-pink. The center petals, ultimately changing to creamy-white, give the mature flowers a captivating pink and white effect.

LUCY FAWCETT—Sulphur-yellow, striped and spotted carmine-rose.

STANDARD BEARER—Bright, pure scarlet. Flowers large, thick and full to center, of symmetrical and perfectly round form, petals semi-quilled.

STRATHLEIN KRONE—Rich, dazzling cardinal. A very showy Dahlia.

WINSOME—Blooms early and late, with abundant masses of large creamy-white flowers.

CALLA LILIES

White, Black, Yellow
and Spotted

Callas delight in a light, rich soil, and require plenty of water after growth has commenced. Give them plenty of light and air.

The Great Dragon Arum

(The Mammoth Black Calla.) Flower of gigantic size and curious color. On the outside it is a light green color, while the inside is of a deep red-purple, glistening beautifully in the sun with a satin sheen. The spadix in the center of the flower is a glossy, purple-black color. Price, good bulbs, 25 cents each.

Calla Hastata

This is the yellow Calla. It is just like the others only the flower is a lemon-yellow. It is very distinct and will enrich anyone's collection. Price, 25 cents each.

Lily of the Valley

Too well known to need any special description. Every one knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter as easily. We offer strong, imported pips that have been grown especially for winter blooming. If you wish them for Easter, start them in February. We can supply the bulbs all winter. Price, 5 cents each, 35 cents per dozen.

Summer Blooming Oxalis

The bulbs, which are the size of peas, or larger, planted the first of May, or earlier, will flower by the first of June, and will furnish a neat and attractive border the whole season. They are also very beautiful grown in hanging baskets.

DIEPPIE — Pure white.	ROSEA — Old rose or salmon.
PURPUREA — Fine purple.	LASANDRIA — Rosy-pink.

Price, 2 cents each or 15 cents per dozen.

Lily of the Valley.

Dwarf Calla, "Gem"

The "Gem" is of strong and dwarf habit. The foliage is of a lustrous dark green, is produced in great abundance. Its flowers are produced in the greatest profusion, being literally an ever-bloomer. Price, 10 cents each; three for 25 cents.

Calla Lily.

Calla Richardia

(Spotted Calla.) The Richardia Alba, or Spotted Calla is a plant of magnificent appearance. The leaves are of the richest green, spotted with pure white. The flowers are white, with a rich chocolate throat. It can either be grown in a pot, planted in a border, or in a vase or rustic stand, the latter being a very effective way of showing its beauty. Price, 10 cents each, three for 25 cents; very large bulbs, 25 cents each.

Calla Ethiopica

(Egyptian Lily.) This is the well-known Egyptian Lily, or Lily of the Nile, with large white flowers, broad foliage, and it will prosper under very adverse circumstances. If you want large Callas, send to us, as we are headquarters for them. We have three sizes: Small plants, to bloom next winter, 10 cents each; strong, blooming bulbs, 25 cents; extra strong bulbs that will produce a half dozen of blooms, 35 cents each.

Amaryllis Treatii

(The Beautiful Fairy Lily.) Stems about a foot high, flowers very large, pure white, scented. Perfectly hardy south of Baltimore; can be left in open ground over winter. In Northern States bulbs should be lifted in October and stored in a cellar over winter, like Gladioli, or can be planted in pots. Price, 5 cents each; six for 25 cents.

Milk and Wine Lily

(Or Crinum Fimbriatum.) A grand sort, the most beautiful of the Crinums. Its bulbs grow large, and its strong-growing foliage is erect and sword-shaped. Flowers in umbels very large and showy, three to four inches in diameter, striped with white, carmine and very fragrant. Hardy in the South. Extra fine blooming bulbs, 35 cents each.

Spotted Calla Lily.

If we were late in sending your order last year, give us another chance. Will see that it does not happen again. Do not include our fruit and ornamental stock on pages 88 to 95 in your premium list, as these prices are net, and not subject to discount.

Caladium Esculentum

(Commonly known as "Elephant's Ear.") Very effective, and suitable for either a single plant on the lawn, masses in beds or margins of water; its very distinct leaves often attain a length of three feet by twenty inches wide, and have a rich, tropical effect. Price, for nice bulbs of Caladiums, 10 cents each, three for 25 cents, \$1.00 per dozen; large bulbs, 25 cents each, \$2.50 per dozen.

Amaryllis Johnsonii

These are bulbs that flower during the winter and spring months. Keep dry during summer, and start them into growth in the fall by watering. The flowers are produced four to ten on long stalks, two feet high, and resemble a Lily in shape. The color is bright red. They are very showy. Strong bulbs, to bloom at once, 35 cents each, two for 60 cents.

Amaryllis Belladonna

(Belladonna Lily.) Beautiful silvery-white, turning to soft rose as the flower ages. A lovely Lily. Extra large bulbs, to bloom at once, 35 and 50 cents.

Amaryllis Formosissima

Flowers are of the darkest scarlet, very rich and pure, and produced freely. Strong, blooming bulbs, 15 cents each, two for 25 cents.

Agapanthus Umbellatus

(Blue Lily of the Nile.)

UMBELLATUS — A splendid plant, bearing clusters of bright blue flowers on long flower stalks and lasting a long time in bloom. Price, 20 cents each.

UMBELLATUS ALBUS — A beautiful white-flowering variety of the above. Price, 20 cents each.

**Plant a Few of These
Gorgeous Lilies; They
Are Surpassingly Beau-
tiful.**

The New Hardy**White Spider Lily**

The flowers are borne in large clusters, are of waxy whiteness and unsurpassed fragrance. More beautiful than most of the high-priced Lilies. An extra choice garden flower which we cannot too strongly recommend. Also a fine pot plant. Fine flowering bulbs, 20 cents each; three for 50 cents.

Lilium Speciosum**Monstrosum Album**

A variety of the above, with broad, flat stems and immense heads of flowers. Pure white and very fragrant; petals gracefully recurved; a very fine sort. Price, 30 cents each; two for 50 cents.

Lilium Candidum

(The Madonna or Annunciation Lily.) This Lily is the emblem of purity. The deep lemon anthers contrast beautifully with the wax-like petals. The fragrance is delicious and never oppressive. It is one of the best Lilies to grow in the house or outside. Perfectly hardy. Price, 20 cents each; three for 50 cents.

**Caladium Esculentum.****Lilium Longiflorum.****Gloxinia**

The coloring is exquisite; the ground color of many is pure white, with throats of blue, scarlet, rose, crimson, or velvety-purple; or the tubes are of bright color with white throat. The bulbs should be started in a warm place and kept growing in a partially shaded place, protected from hard rains. They will bloom until late in summer, when they should be dried off, letting the leaves die, and can be kept over winter in the cellar free from frosts. Dry bulbs. Price, 15 cents each; two for 25 cents.

Everybody admires the charming Lilies. They have a striking beauty that all flower lovers appreciate. We have taken great care to prepare a collection of the best and most popular sorts, and are sure that you will find in the list below just what you desire in this class of plants. Make out your order and send it to us with the assurance that you will receive full value for money expended besides having plants that will give the utmost satisfaction.

Hemerocallis

(Lemon Lily.) The clear, yellow Lily-like flowers are borne on long, stiff stalks, making them superior flowers for large vases or for pulpit bouquets. Price, 10 cents each; three for 25 cents.

Lilium Auratum

(Golden-Rayed Queen of Lilies.) The greatest Lily grown. The perfume is exquisite, light yet penetrating, magnificent by daylight, but by moonlight a well-grown plant, carrying five or more blooms, is simply indescribably beautiful. Also known as "Gold Banded Lily from Japan." Price, 25 cents each; three for 60 cents.

Lilium Longiflorum

A beautiful large flowering, pure white Lily, very fragrant. Price, for large flowering bulbs, 20 cents each; three for 50 cents.

Lilium Rubrum

White ground, with bands and spots of rose or crimson on each petal. One of the best Lilies; flowers are very large. Price, 25 cents each; three for 60 cents.

Double Tiger Lily

(Tigrinum Fl. Pl.) This magnificent Lily is borne in immense clusters on tall stems; the flowers are very large, frequently six inches across and very double; color deep fiery-red, spotted with black. Price, 10 cents each; three for 25 cents.

Summer Flowering Bulbs

GLADIOLUS The most attractive of all summer-flowering bulbs are the Gladioli. Wonderful improvements are being made each year in the size, color and beauty of these flowers, and our list comprises only the best both in mixtures and in named sorts.

For best results they should have a sunny position. A good sandy loam suits them best, but they do equally as well in heavy soil provided there is perfect drainage. Well-rotted stable manure is the very best fertilizer, and where convenient it should be spread over the land in the fall, and dug in the following spring. Sheep manure is an excellent substitute, and can be applied in the spring. The best time to plant is about the first of May, putting in the smallest bulbs first, and reserving the larger bulbs for later planting. A succession of bloom may be had from July to October by making plantings two weeks apart up to the end of June. To make a good show they should be planted from three to four inches apart each way. The depth to plant is regulated by the size of the bulb, large bulbs being covered about six inches deep, smaller ones from three to four inches.

After they have flowered and the foliage begins to turn yellow, which is usually along about the beginning of October, lift the bulbs, cutting off the stems, placing them in trays or shelves in an airy cellar or some such place, where the temperature will not fall below 45 degrees or over 60 degrees. In such a position they will keep perfectly until time for resetting the following season.

They are very effective in lines or beds or when planted among Roses, Peonies, Shrubbery, etc.

In cutting Gladioli for the house, it is best to cut the spikes as soon as the first one or two lower flowers are open. The remainder will open in the house. Remove the faded flowers, cut a little off the stem, and change the water every day; treated in this way, a spike will last a week or ten days.

If Gladiolus are wanted by mail, add 10 cents per dozen for postage. Single bulbs mailed without additional charge.

Groff's Newest Hybrid Gladiolus IN GRAND MIXTURE

This strain of great merit has been evolved by Mr. Groff, a Canadian banker with scientific tendencies, who is widely known as an enthusiastic and successful hybridizer and grower of Gladiolus. His means enabled him to collect from various parts of the world perhaps the finest collection of Gladiolus ever gotten together. He flowered and retained the cream of these, then cross-bred and selected annually for over fifteen years, until the present Groff Strain of Hybrid Gladiolus is absolutely unsurpassable. The flowers are extra large, of perfect form, splendid substance, and of the greatest beauty, embracing a range of diversified coloring with combinations of markings almost endless and undreamed of, insuring to purchasers of these bulbs many delightful surprises.

HARDY CLIMBING PLANTS FOR HOUSE, PORCH, TRELLIS OR SCREEN CLIMBING

RED, WHITE AND BLUE CLEMATIS THE GRANDEST VINES THAT GROW

Clematis.

CLEMATIS JACKMANI—Its rapidity of growth, matchless freedom in blooming, and the superb velvety-purple of its large flowers have always been held in that relation to other Clematis which Jacqueminot holds to other hardy Roses. The blooms are royal, coming in great numbers continuously from July until winter. Perhaps three times as many Jackmani are grown as all the other varieties combined. Price, 50 cents each.

HENRYI—Large, pure white, the best of all white Clematis. Price, 50 cents each.

MME. ED. ANDRE—This is the nearest approach to a bright red Clematis and has been called the Crimson Jackmani. The plant is a strong, vigorous grower, and very free in bloom. Color a distinct crimson-red; a very pleasing shade and entirely distinct from all other varieties. Price, 50 cents each.

Apios Tuberosa

A hardy tuberous-rooted climber, closely resembling the common Wistaria in vine and foliage. Has clusters of deep purple flowers, which have a strong violet fragrance. Price, 7 cents each; four for 25 cents.

"The Queen's Wreath"

(Antigonon leptopus.) (A Magnificent Hardy Vine.) Is absolutely hardy. The flowers are borne in prodigious profusion, and a well established plant, loaded with its gorgeous carmine flowers, is one of the grandest sights. Price, 10 cents each; three for 25 cents.

Clematis Paniculata

(The Cluster-Flowered Clematis.) One of the most beautiful of our hardy flowering vines. The flowers are pure white, and are borne in great clusters or panicles of blooms. The individual flowers are small, but so numerous that they cover the green foliage with immense sheets of white. Price, 10 cents each; three for 25 cents. Extra strong two-year-old field plants, 25 cents each; three for 60 cents.

Akebia Quinata

A fast grower, perfectly hardy, and one of the most gracefully hardy climbers, with deep green foliage, producing flowers in large clusters, bunches of violet-brown flowers, which have a pleasant cinnamon odor. Fine for covering trellises and verandas. Price, 10 cents each; three for 25 cents.

Chinese Cinnamon Vines

Pride of the Flower Kingdom. Beautiful Leaves. Dainty Flowers. Exquisite Perfume. Most Desirable, Easily Grown, Rapid Climber in the World.

This Oriental Gem of the far East comes to us a marvel of beauty and fragrance. Its rapid growth, abundant foliage and modest, sweet-scented flowers, give it supremacy over all foreign and domestic climbers. The handsome, glossy, heart-shaped leaves and clusters of fragrant white flowers make a window, arbor or veranda a perfect bower of beauty. They stand the severest winter, and burst forth in all their beauty and splendor very early in the spring. No one should miss planting this charming vine. Once planted, will grow a lifetime. Price of Cinnamon Vine Tubers, or Roots, extra quality, sure to grow, 5 cents each; six for 25 cents. Large sizes, 8 cents each; three for 20 cents.

Clematis Paniculata.

HARDY CLIMBING PLANTS

Chinese Hardy Matrimony Vine

A strong and vigorous hardy climbing plant, and in a short time after planting is covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being covered with them. The berries ripen in autumn and remain on the vine late into the winter. Price, 10 cents. Extra large field-grown plants, 40 cents, by express only.

Ivy—Hardy English

The hardy evergreen vine that remains so all the year, making it one of the most valuable of all hardy vines. It is used in covering walls, and has become popular for covering graves, especially if in the shade where the grass will not grow. Price, 10c each; three for 25c.

Hardy Climbing Chinese Kudzu Vine

If you wish a vine that will grow everywhere, plant the Chinese Kudzu. It will flourish where nothing else will grow, and will last for many years. The large, bright green leaves afford a dense shade. It makes a wonderfully strong growth in summer, freezing down to the ground in winter and coming up in the spring again, from large tubers.

Flowers rich purple, formed in handsome clusters. Price, 15c. two for 25c. Larger size, 25c each.

Honeysuckle

CHINESE TWINING—Blossoms at intervals through the summer and retains its foliage late in winter, flowers nearly white; quite distinct. Price, 10c each; three for 25c. Field-grown plants, 25c each.

FUCHSIA-FLOWERED HONEYSUCKLE—A new perpetual-flowering, weeping Honeysuckle. Its flowers are long and trumpet-shaped, beautiful coral-red, borne in large clusters and drooping like a Fuchsia. Price, 15c each. Field-grown plants, 25c.

AUREA RETICULATA—A variety with beautiful variegated foliage; the leaves are netted and veined with clear yellow; flowers yellow and fragrant. Price, 10c each.

HALLEANA—Color white, changing to yellow; very fragrant; blooms from June to November. Price, 10c each; three for 25c. Field-grown plants, 25c.

Chinese Wisteria White and blue. See page 2 of cover.

HEDGES AND SCREENS

We receive so many inquiries concerning suitable shrubs for planting as permanent hedges or screens, that we are induced to make special mention of a few of the most useful and ornamental sorts, in sizes practicable for such purposes.

By using medium sized plants, a hedge can be made as cheaply as a good board fence, and then, with a little care, it becomes every year more and more a thing of beauty. Such hedges continue as a principal attraction in our best kept places.

Price for Plants on this page to be sent by express or freight at purchaser's expense. Purchaser may select twenty-five plants at price given at one hundred rates.

California Privet

We call special attention to our two and three-year-old plants. They are exceptionally bushy this season and suitable to give immediate results.

Of all ornamental hedge plants this is the most popular, and more of it is planted than all others combined. Its foliage is a rich dark green, and is nearly evergreen, remaining on the plant until midwinter. It is of free growth and succeeds under the most adverse conditions, such as under dense shade of trees, where other plants would not exist. To form a dense hedge from the base up the plants should be severely pruned the first two seasons. Plant the one-year-old size eight inches apart in the row, the larger sizes ten to twelve inches apart.

Catalpa Bungei and California Privet Hedge.

Cydonia Japonica

(Japan Quince)

Hardy anywhere. These rank among our choicest shrubs, growing to a height of five or six feet, but they stand the knife well, and with proper pruning may be grown in any form. As a single shrub on the lawn they are very attractive, and for the edges of borders or groups of trees they are specially adapted. Their large, brilliant scarlet flowers are among the first to bloom in the spring, and they appear in great profusion before the leaves are fully developed. Price, 15 cents each for plants fifteen to eighteen inches, \$1.00 per dozen, \$7.00 per hundred. Plants eighteen to twenty-four inches, 20 cents each, \$1.50 per dozen, \$10.00 per hundred.

Berberis Purpurea

(The Purple-Leaved Barberry.)

The Barberry is a very pretty shrub for lawn planted singly, or for hedge, growing to a height of five to six feet. This variety has dark purple foliage, making a pretty effect planted with green foliaged shrubs. Growth compact, with long slender and drooping branches, from which is at the axil of each leaf a drooping cluster of golden-yellow flowers which are followed during the summer and fall by bright crimson berries. One of the most beautiful of our hardy shrubs. Price, 15 cents each. Fifteen to eighteen-inch plants, \$1.00 per dozen, \$7.00 per hundred. Eighteen to twenty-four-inch plants, \$1.75 per dozen, \$12.00 per hundred.

BERBERIS THUNBERGIANA—Should be planted twelve to fifteen inches apart. Twelve to fifteen-inch plants, \$1.00 per dozen, \$6.00 per hundred. Fifteen to eighteen-inch plants, \$1.25 per dozen, \$8.00 per hundred. Eighteen to twenty-four-inch plants, \$2.50 per dozen, \$15.00 per hundred.

BERBERIS VULGARIS—(Common Barberry.) Fifteen to eighteen-inch plants, 10 cents each, \$1.00 per dozen, \$7.00 per hundred. Eighteen to twenty-four-inch plants, \$1.75 per dozen, \$12.00 per hundred.

HONEY LOCUST—Makes a very strong and long-lived hedge and one of the best for turning stock. Plant eight to ten inches apart. One-year-old plants, \$1.00 per hundred, \$7.00 per thousand.

CHOICE HARDY SHRUBS

The Planting and Care of Shrubs

SHRUBS, deciduous and evergreen, are as much a part of the well-balanced garden as the lawn or flower borders. Many of them are as decorative as any ornamental foliage plant, while others are highly useful as cut flowers, and a well-arranged planting presents an attractive appearance throughout the entire year.

Shrubs have many uses; such as a dividing line between the flower and vegetable garden, or between the lawn and uncultivated land beyond; as a background to a flower border; for hiding an unsightly building, fence or foundation; or they may be planted in a mixed shrubby border, in which case those of short, dense growth should be planted along the front of the border, graduating to the tall-growing kinds at the back. Thorough preparation of the soil by spading, and the addition of a liberal quantity of sheep or stable manure or bone meal will be well repaid by strong, vigorous, healthy growth. All the attention necessary to such a border would be occasional cultivation to keep down weeds, and a little top dressing of manure or bone meal in the late fall to keep up the fertility of the border. In planting, care should be taken not to overcrowd, allowing sufficient room for future development, and unless an immediate effect is wanted—in which case they may be planted closer and some of them moved when necessary—the majority of the dwarf-growing kinds may be set about three feet apart, the tall, strong growers about five feet apart.

Deciduous Shrubs should be planted in spring as soon as frost is out and the ground in workable condition. This gives them a chance to make some root growth before hot weather comes; and, while it is quite possible to plant up until the beginning of May, they will not do as well as if planted earlier.

Deciduous Shrubs of all kinds may be planted directly after the first frost in the fall, usually about October 15th in the latitude of Springfield, and as there are six weeks of good weather after that date, and less to do at that time than in the spring, it is well to take advantage of the conditions in the autumn.

The question of when and how to prune shrubs is one that is frequently asked, and as no hard and fast rule can be given, we can but indicate in a general way what should be done. All shrubs that blossom before midsummer, such as Deutzias, Forsythias, Lilacs, Philadelphus, Weigelas, etc., produce their flowers on the growth of wood made the previous year. To prune these in spring would be to destroy most of the flowers for that season. These, therefore, should have any necessary pruning done immediately after flowering. Varieties which blossom after midsummer produce their blooms on wood made the same season. This class includes such kinds as Altheas, Hydrangeas, etc., and these should be pruned in early spring. In our judgment, shrubs are, as a rule, pruned too much, all the pruning, or rather trimming, that is necessary being just enough to keep the plant in nice symmetrical shape, care, of course, being taken to cut out all dead wood, and removing sufficient surplus growth, if any, to admit a free circulation of air and sunshine to all parts of the plant.

NOTE Shrubs will be shipped on receipt of orders, or as soon as they can be dug, unless instructed to the contrary, and can only be sent by Freight or Express, at purchaser's expense. They are too heavy and large to be sent by mail. No charge for boxes, packing or delivery to express companies or freight lines in Springfield.

Althea (Rose of Sharon)

A strong, erect-growing shrub of the easiest culture and unsurpassed by anything in the hardy shrub line for freedom of bloom or range of color. From midsummer until frost, when few other shrubs are in bloom, the Althea is the most handsome with its large Camellia-like flowers of the most varied and beautiful shades. We have the following choice varieties in strong two-year-old plants. Price, 20 cents each; two for 35 cents. Extra large field-grown stock, 40 cents; three for \$1.00. Must be sent by express, too large to be sent by mail.

ALBA PLENA—Double white, crimson center.

BOULE DE FEU—The prettiest of all double red.

BICOLOR—Double white, splashed carmine.

PULCHERIMA—Double white, overcast with rose.

RUBIS—Splendid single red.

TOTUS ALBUS—Fine single pure white; very large.

DOUBLE ROSE.

DOUBLE WHITE.

Caryopteris Mastacanthus.

Althea.

Caryopteris Mastacanthus (Blue Spirea)

A handsome hardy perennial plant. It is of a vigorous growth, producing flowers in great profusion: the whole length of its branches, even young plants flowering freely. The color is a rich lavender or sky-blue. A valuable plant either for bedding or pot culture, blooming continuously from midsummer until cut by frosts in the fall. Price, 15 cents each; large size, by express only, 35 cents each.

New Hydrangea Arborescens Grandiflora Alba

THIS NEW AMERICAN HYDRANGEA was found growing wild in the cliffs at Yellow Springs, Ohio. The photograph is from a plant four years old. It commences to bloom in June and continues through August. The photograph was taken in June. The plant attains a height of five to six feet and grows into a symmetrical bush without pruning. When it is through blooming the bloom heads turn green, thus the bush always has a fine appearance. This is the most handsome of shrubs either in or out of bloom. Grows best in full sunlight, although will thrive in partial shade. It is by far the best of all shrubs. Nothing to compare with it; perfectly hardy everywhere. Price, strong one-year-old field-grown plants, 20 cents each; two-year-old field-grown plants, 35 cents. Extra large field-grown, 50 cents each.

Hydrangea Arborescens Grandiflora Alba.

Hardy Hydrangea

Paniculata Grandiflora

Suitable for lawns. The flowers are pure white, afterwards changing to pink, and are borne in immense pyramidal trusses nearly a foot long and nearly a foot in diameter. It blooms in midsummer, and remains in bloom two or three months. Attains a height of three to four feet, and is perfectly hardy. Strong one-year-old plants, 20 cents each, three for 50 cents; two-year-old plants, 35 cents each, three for \$1.00. Extra large size, 50 cents each, three for \$1.25.

Dielytra Spectabilis

BLEEDING HEART—These pretty spring bloomers, with their graceful, drooping sprays of heart-shaped pink and white flowers are very ornamental, and bloom freely early in the season. The plants being hardy, increase in size and bloom from year to year, and should have a place in every garden. Price, 20 cents each; three for 60 cents.

The Magnificent Hardy Azalea Mollis

The most brilliant and showy of all hardy shrubs, exceeding even the Rhododendron—and entirely hardy without protection in all situations. The bloom, which varies in color from the most rosy-crimson to lemon-yellow, literally covers the compact, spreading plant, forming a huge bouquet, and which remains in perfection for a long time in May and June; massed they produce an effect that is actually dazzling. Price, 50 cents each.

Japanese Maples

During the last few years the demand for Japanese Maples has increased rapidly. For Easter and Decoration days this plant is of great merit. They are exceedingly beautiful, especially in spring, when they burst into leaf, and the colors of the foliage are deep and decided. We have them in five different varieties, eighteen to twenty-four inches high. Price, 50 cents each; any three distinct varieties for \$1.25, by express, purchaser's expense.

Hydrangea Paniculata Grandiflora.

Lilacs

WHITE LILAC—As a decorative plant on the lawn or in the border it is without a peer, and its pure white, graceful plumes of sweetly fragrant flowers add grace and beauty to bouquets, vases, etc. As a cemetery plant it is without a rival. Price, 20 cents each.

PURPLE LILAC—Price, 20 cents each.

Philadelphus, or

Mock Orange

CORONARIUS—A medium-sized shrub bearing an abundance of white sweet-scented flowers last of May. Price, 20 cents each. Large field-grown stock, 35 cents, three for \$1.00. Must be sent by express.

Viburnum

LANTANA (Wayfaring Tree)—White flowers in large dense cymes; fruits bright red, changing to a much darker shade with age. Price, 20 cents. Strong two-year-old, 30 cents.

OPULUS (High Bush Cranberry)—Handsome and dense foliage; flowers white in drooping flat cymes followed by brilliant scarlet fruit in showy pendulous bunches that remain on the plant all winter. Price, 15 cents each.

PLICATUM (Japan Snowball)—An erect, compact shrub, growing six to eight feet. Blooms in June, and is a solid mass of white. Price, 20 cents each. Two to three feet high, by express, 40 cents each; \$3.00 per ten.

STERILIS (Common Snowball)—Used extensively for decorating. Flowers pure white, large balls frequently borne in clusters of five or six. Ten to twelve feet; May. Price, 15 cents each. Strong two-year-old, 25 cents.

BERBERIS THUNBERGII (Japanese Barberry)—A beautiful variety with small foliage, assuming the most varied and beautiful tints of coloring in the autumn, and attractive scarlet berries, which remain on the plant the greater part of the winter; very desirable for grouping and a grand hedge plant. Price, 25 cents each; \$2.50 per dozen. Plants for hedges offered on page 58.

VULGARIS PURPUREA (Purple Barberry)—Of erect, tall growth, with fine purple foliage; the young shoots are red, and in May it bears small yellow flowers, followed in fall by bright red fruit. Price, 25 cents each; \$2.50 per dozen.

Rhododendrons

One of the most valuable of our hardy flowering decorative shrubs, and is universally acknowledged to be the most showy, magnificent hardy evergreen shrub that grows. A protection of leaves and brush during the first winter will be beneficial. It will thrive in any good soil without any special preparation, and in the full blaze of the sun, but it is more luxuriant in well-prepared soil of leaf-mold and muck and peat mixed, and in partial shade. We have them in pink, bluish, white, red. Price, \$1.00 each; three for \$2.50 by express only at purchaser's expense.

Snowball.

Rhododendron.

Aucuba Japonica or Gold Dust Tree.

Aucuba Japonica or

Gold Dust Tree

The Handsome Evergreen Foliage Plant.

Hardy in the South.

Beautifully variegated large, laurel-like foliage, mottled and splashed with bright golden-yellow. It is a superb house plant, retaining its handsome, variegated foliage the year round. For the center vases for summer or winter decoration it has few equals and as a specimen plant for the lawn or veranda is without a peer. It is also nearly hardy and thrives in sunshine or shade. As an all around decorative plant it is unexcelled. Price for fine plants out of 6 in. pots, 50 cents each. Very large specimens, splendid plants, out of eight-inch pots, \$1.00 each. Must be sent by express, as they are too large to be sent by mail.

HARDY ORNAMENTAL FLOWERING SHRUBS—Continued

Deutzia Gracilis.

Weigelas

Beautiful shrubs that bloom in May, June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage. They are very desirable for the border or for grouping, and as specimen plants for the lawn.

CANDIDA—This is the very best of all the white-flowered Weigelas; a strong, upright, erect grower; flowers are pure white, and produced in great profusion. Price, 20 cents each.

ROSEA, NANA VARIEGATA—Leaves are beautifully margined creamy-white; flowers pink. It is a dwarf grower, and admirably adapted to small lawns or gardens. Price, 20 cents each.

ROSEA, NANA—One of the most conspicuous shrubs that we cultivate; flowers pink. It is a dwarf grower and admirably adapted to small lawns or gardens. Price, 20 cents each.

VAN HOUTTE—Flowers broad and flat, deep rosy-red with orange markings in throat. Price, 15 cents each.

DESBOIS—One of the largest. Flowers bell-shaped, pink, with orange markings in throat. Price, 15 cents each.

EVA RATHKE—Flowers of dark carmine-red. Price, 25 cents each.

Calycanthus

The well-known "Sweet-scented Shrub." It bears in May a profusion of double purple blossoms, which have a strong, delicious pineapple fragrance; very popular. Price, 20 cents each.

Buddleia Veitchiana

A great improvement over the old type, being more vigorous, and producing flower spikes over twenty inches long by three across; in color it is a pleasing shade of violet-mauve with orange-yellow center. Price, 35 cents each.

Clethra Alnifolia

(White Alder or Sweet Pepper Bush.) One of the best of our native dwarf Shrubs, bearing spikes of pure white, deliciously fragrant flowers during July and August. Price, 25 cents each.

Calycanthus.

Deutzia Lemoinei

(New Early-Flowering.) (The Most Beautiful of all New Hardy Plants.) This is the greatest recent novelty in flowering shrubs. It makes a low, compact bush, which in May and June is loaded down with large, round, Snowball-like clusters of pure white flowers. We know of nothing more beautiful for the garden, yet it has the added merit of being a grand pot plant for winter blooming. It is not too large for a pot, and blossoms very finely at any time during winter. It is becoming very popular for Easter, and is a splendid addition to our Decoration Day flowering plants, being one of the finest cemetery plants we know of. Price, for strong blooming plants, 20 cents each, two for 30 cents. Very large two-year-old plants, 40 cents each.

GRACILIS—A charming shrub. Flowers pure white, bell-shaped, delicately fringed and borne in such profusion as to cover the branches. Price, 20 cents each.

CRENATA—Four feet in height. Flowers double, of a pure white, tinged with rose. Price, 20 cents each.

CANDIDISSIMA—This elegant variety resembles Deutzia Crenata, except that the flowers are pure white in color. It excels all others in size of flower and bloom. Price, 20 cents each.

DISCOLOR GRANDIFLORA—A large flowering double white, slightly tinted pink on reverse side. Price, 20 cents each. Strong two and three-year-old plants, 30 cents.

CRENATA (Fl. Pl.)—Double white tinged pink. Price, 15 cents each. Larger plants, 30 cents.

Tamarix

This is a tall growing shrub with fine feathery foliage like that of the Juniper; small pink flower in April or May. Price, 15 cents each; two for 25 cents.

Weigela.

The Beautiful Hardy Hibiscus Crimson Eye

Spirea, Anthony Waterer.

Spirea

All the Spireas bloom with a riotous extravagance which makes them quite striking. Their individual style, color and habits of growth differ so markedly, that a collection of varieties will ensure bloom the entire season and still evade the monotony of repetition.

ARGUTA MULTIFLORA—(Snow Garland.) A slender dwarf, three to five feet high, with branches a snowy mass of clear white flowers in early May. Price, 15 cents each. Strong three-year-old, 30 cents.

ANTHONY WATERER—A fine dwarf Spirea with dark crimson flowers, one of the finest shrubs. Price, 15 cents each.

BILLARDII—Strong growing, pink flowered, late blooming. Price, 15 cents each.

VAN HOUTTE—Strong grower; flowers pure white, in clusters. Price, 15 cents each.

Thunbergi

Forms a dense feathery bush, three to five feet high, the foliage in autumn changing to bright red and orange. Flowers pure white, borne in feathery masses in early spring. Price, 15 cents each. Strong two-year-old, 25 cents.

Hardy Plumbago.

Hibiscus Moscheutos

(Swamp Rose Mal-low.) Flowers six inches in diameter; of a light rosy-red color with darker eye. Price, 15 cents each; four for 50 cents.

Chionanthus

Virginica

(White Fringe.) A very showy shrub, growing to large size, with large, leathery, shiny leaves and lace-like white flowers borne in gracefully drooping panicles. Price, 25 cents each.

Purple Fringe

(Smoke Bush.) A beautiful, distinct, large shrub, much admired for its long, leathery flower stalks which give the tree the appearance of being covered with a cloud of smoke. A fine shrub, either planted singly or among other shrubs, growing to a height of eight or ten feet. Price, 20 cents each.

Hibiscus Crimson Eye.

Hypericum

(St. John's Wort.) (Mos-erianum.) One of the very best herbaceous plants in our collection. The habit of the plant is free and graceful; it produces long, slender, much-branched stems, leafy to the base and all drooping toward the ends, apparently from the weight of the flowers and buds, although the flowers face so that none of their beauty is lost. Strong plants, 15 cents each.

Hardy Plumbago

(Lady Larpent.) Grows in compact clumps, and from the middle of July until severe frost are covered with lovely, rich violet-blue colored flowers, borne in close terminal heads. Price, 10 cents each; three for 25 cents. Field-grown clumps, 20 cents each; three for 50 cents.

A SELECT LIST OF HARDY CLIMBING VINES

Aristolochia Sipho

(Dutchman's Pipe.) Very hardy, strong growing vine, with large peculiar heart-shaped leaves. Curious pipe-shaped flowers of yellowish-brown. Price, two-year-old, 35 cents each; three-year-old, 50 cents each, by express.

Boston Ivy

(Ampelopsis Veitchii.) This vine also goes under the name of "Japanese Ivy," and "Boston Ivy." It clings readily to any surface, not even excepting glass, where it will spread its fairy-like tracery of infinite small leaflets and the accompanying circular suckers by which it is attached. The older leaves attain a moderate size. They are graduated down to very small ones. The texture is leathery and smooth. The foliage is closely over-

lapping, not a stem visible. Its color, very bright in autumn, is a delicate green in summer. Price, strong plants, 15c each. Extra large plants, very fine, 30c each.

Apios Tuberosa

A hardy tuberous-rooted climber, resembling in miniature the common Wistaria in vine and foliage, and having clusters of rich, deep purple flowers, which have a strong, delicious violet fragrance. Price, 5 cents each; 50 cents per dozen, postpaid.

Madeira Vine

A rapid-growing vine, covering a large space in a short time. Fleshy, heart-shaped leaves of a light green and numerous racemes of feathery flowers of delicious fragrance. A beautiful vine. Price, 10c each; three for 25c.

Aquilegia (Columbine.)

Aquilegia (Columbine)

They are hardy perennials luxuriating in the moister situations in the garden where they form permanent clumps, growing from one to two feet high. The Columbines are old favorite late spring and early summer blooming plants, and exceptionally fine for rockeries. Price, 15 cents each; two for 25 cents.

AQUILEGIA (CHRYSANTHA) DOUBLE GOLDEN SPUR — Long spurred, massive golden flowers.

NIVEA GRANDIFLORA — Two feet. Pure white.

SKINNERI HYBRIDA — (Fl. Pl.) Three feet. Double crimson.

ERSKINE PARK HYBRIDS — (Selected.) Three feet. Mixed.

Baptisia Australis

(False Indigo)

Strong growing plant suitable for specimen in border or forming a hedge; dark green foliage, deeply cut. Price, 15 cents each; two for 25 cents.

Double Rudbeckia

(Golden Glow.) A hardy perennial growing six to seven feet high and producing hundreds of bright golden flowers, two or three inches in diameter, on long, graceful stems, forming immense heads of bloom. Fine for cut flowers and will furnish an endless amount of flowers. Price, 10 cents each; three for 25 cents; 75 cents per dozen.

Rudbeckia Newmani

Grows one and one-half to two feet; plentifully supplied with broad single flowers of orange-yellow, with a prominent brown cone. Price, 10 cents each; three for 25 cents.

Rudbeckia Purpurea

(The New Purple Rudbeckia.) Blooms in fall at a season when there are but few flowers. Plant is pyramidal in growth, densely branched and completely enveloped in its purple-colored, lemon-yellow flowers. Price, 15 cents each; two for 25 cents.

Sweet William

WHITE, CRIMSON AND VIOLET

The varieties offered are an improvement on the old-fashioned kinds, inasmuch as the colors and size of flower are far superior, being grown from select seed. Sweet William looks fine in solid beds or masses and requires a good, rich, well manured soil to grow them to perfection. Price, 10 cents each, three for 25 cents; 90 cents per dozen; \$7.00 per hundred.

Sweet William.

Anchusa (Sea Bugloss)

ITALICA (Dropmore Variety.) A grand improvement on the old Italian Alkanet; grows five to six feet high and produces its pretty gentian-blue flowers throughout the entire summer; one of the best blue perennials. Price, 20 cents each; \$2.00 per dozen.

Rudbeckia Speciosa

(Cone Flower)

Bright, orange-colored flowers, very handsome. Height two feet. Price, 10 cents; three for 25 cents.

Oenothera—Evening Primrose

The Evening Primroses are elegant subjects for growing in an exposed, sunny position either in the border or on the rockery, blooming the entire summer.

LAMARCKIANA—Two feet; golden-yellow.

TARAXACIFOLIA ALBA—One and one-half feet; white. Price, 15 cents each; two for 25 cents.

Sedum (Stone Crop)

DWARF VARIETIES

Suitable for the rockery, carpet bedding, covering of graves, etc.

SIEBOLDI—Round, succulent, glaucous foliage, bright pink flowers in August and September. Price, 20 cents each.

HARDY PERENNIAL PLANTS

Suitable for Cemetery,
Lawn and Garden

HARDY PERENNIALS are those plants which die down in winter, but start again in the spring from the root, lasting many years and flowering every year. Never before have they been so popular, and from present indications of a desire for hardy plants, the demand for them will continue to increase, which will make them as popular in the United States as they have been in the horticultural centers of Europe for many years. Some are very useful for screens, some for hedges, rockeries, steep banks and terraces, others for bedding, edging and bordering and cemetery planting; then again others are fine for cutting to be used for table decorations.

Cultivation is of the simplest, beginning with any good garden soil for a foundation, which may be enriched with any good fertilizer, such as well decomposed manure or bone meal, deeply dug, well pulverized, in which the plants should be set as early in the season as possible, so as to enable them to become well rooted and established before hot, dry weather sets in, keeping the ground well stirred, and where it is not convenient to water the beds during hot, dry weather, a mulch of any loose material which will keep the soil from baking will be found beneficial.

HARDY GRASSES

In the laying out of lawns and artistic gardens, a few of the many beautiful hardy grasses should not be overlooked. Their stateliness, tropic luxuriance, and soft colors harmoniously punctuate the prevailing green, while their graceful, sinuous yielding to every wind gives animation to garden landscapes too apt to look "fixed."

Eulalias or Pampas Grass

These beautiful hardy grasses are deserving of the highest commendation. For the lawn they are invaluable, being very showy and ornamental and of easy cultivation. They form large clumps five to seven feet high and are perfectly hardy in all parts of the country. Price, 15 cents each; two for 25 cents.

PHALARIS ARUNDINACEA VARIEGATA—(Ribbon Grass.) Green leaves, striped lengthwise with creamy-white. Price, 10 cents each; \$1.00 per dozen.

GRACILIS UNIVITTATA—An extremely graceful and beautiful hardy plant, with narrow green leaves and silvery-white midrib. Nothing is more beautiful than a well-developed clump of this variety; can be grown in any soil. Price, 15 cents each; two for 25 cents.

JAPONICA ZEBRINA—The most distinct and showy of all the Eulalias; the variegation of the foliage is entirely different from that of any other plant, being evenly striped crosswise with broad bands of golden-yellow. Perfectly hardy, a sturdy grower, increasing in size and beauty from year to year; a plant that has been established two or three years often produces fifty to one hundred of its beautiful large plumes. Price, 15 cents each; two for 25 cents.

JAPONICA VARIEGATA—A favorite ornamental plant, having long, narrow leaves, striped with white and green. Price, 15 cents each; two for 25 cents.

SPECIAL OFFER—One each of the above four, 40 cents.

Gaillardia Grandiflora

(Blanket Flower.) Of all hardy perennials, perhaps the Gaillardia is the most satisfactory. Begins to bloom early in summer, and continues until after first frosts. Plant is perfectly hardy, requiring no protection whatever. Flowers are two to three inches in diameter, with center of brownish-red, while petals are shaded into rings of orange-crimson and red. Stems are long, making it grand for cutting. Does well in any soil. Price, 10 cents each; three for 25 cents; 75 cents per dozen.

Coreopsis Lanceolata

A beautiful hardy border plant, growing fifteen to eighteen inches high and producing bright golden-yellow flowers in great profusion the entire season. Flowers fine for table decoration. Price, 10 cents each; \$1.00 per dozen.

Gracilis Univittata.

Gaillardia Grandiflora.

HARDY PERENNIAL PLANTS—Continued

Hardy Aster (Michaelmas Daisy or Star Wort)

TARTARIOUS—Blooms in the fall with the Golden Rod, and makes a beautiful sight. The Tartarica is a very distinct species from Asia, has large leaves and sends up a stem six to seven feet high and covered with huge panicles of light purple flowers. A most desirable late season variety. Price, 15 cents each; two for 25 cents.

Hardy Poppies

(Papaver—Perennial Poppy)

NUDICAULE—(Iceland Poppy.) A beautiful class of hardy Poppies. Flower stem about a foot in height bearing elegant cup-shaped flowers, lasting well when cut, and having a pleasant Lilac perfume. We offer in separate colors, white and yellow. Price, 15 cents each; two for 25 cents.

ORIENTALE—Very bright and attractive deep red flowers, produced on stout leafy stems, two to three feet high. One of the very best and largest-flowered perennial Poppies. Price, 15 cents each; two for 25 cents.

Anthemis

(Hardy Golden Marguerite.) These hardy Marguerites are among the most satisfactory summer flowering hardy plants, succeeding in the poorest soil, growing about fifteen inches high and blooming continuously during the entire summer. Large single golden-yellow flowers. Price, 15 cents each; two for 25 cents.

ANTHEMIS KELWAVII—Similar to the type, deeper yellow flowers. Price, 15 cents each; two for 25 cents.

Campanula

(Bell Flower)

A well-known hardy perennial, particularly adapted for rock work or growing in the pot or open ground. They succeed well in any good soil and are very desirable.

CAMPANULA CELTIDIFOLIA—A tall-growing variety three to four feet. Broad bell-shaped flowers, slightly tinted with blue from July to September. Price, 15 cents each; two for 25 cents.

Ragged Robin

VISCARA—(Fl. Pl.) Almost evergreen foliage; in June and July fairly ablaze with close spikes of crimson flowers. The most vivid colored of any hardy perennial. Price, 15 cents each; two for 25 cents.

Heliopsis Pitcheriana

A desirable variety growing from two to three feet high, and a perpetual bloomer, beginning to flower early in the season and continuing in bloom the entire summer. The flowers are of a beautiful deep golden-yellow color, about two inches in diameter, of very thick texture, and are very graceful for cutting. Price, 10 cents each; three for 25 cents.

Anemone (Wind Flower)

(Japanese Varieties.)

One of the most desirable of our hardy perennial plants, growing about twenty-four inches high, with dark green foliage and very pretty flowers two and one-half feet to three inches across, borne well above the foliage. Commencing to bloom in August they continue until frost cuts them down. They require a rich soil and should be liberally supplied with water.

RUBRA—Showy rose-colored flowers, with distinct yellow center. Price, 10 cents each; three for 25 cents.

DOUBLE WHITE WHIRLWIND—

Excellent double white flowers, two and one-half to three inches across, held up on stems ten to twelve inches long. Very desirable for cut flowers. Price, 10 cents each; three for 25 cents.

QUEEN CHARLOTTE—Flowers semi-double, broad and perfectly formed of that pleasing shade of pink found in La France Rose. Price, 10 cents each; three for 25 cents.

Achillea (The Pearl)

Achillea (The Pearl)

(The Great Cemetery Plant.) Flowers pure white, perfectly double, and produced in large sprays. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its great profusion of snow-white flowers nearly the whole summer. Price, 10c each; three for 25c; 75c per doz.

Hyacinthus Candicans

An excellent bulbous plant for summer and autumn flowers. Its white, pendent, bell-shaped flowers are produced on flower stalks three to four feet high, each stalk having from twenty to thirty flowers. Price, 10 cents each; three for 25 cents.

Lychnis (Champion)

CHALCEDONIA—(Fl. Pl.) A fine perennial, producing immense heads of vermilion-scarlet flowers, far exceeding in brilliancy many of the brightest Geraniums, two to three feet high, flowering from July to September. Price, 15c.

Boltonia (False Chamomile)

Among the showiest of our native hardy perennial plants; attaining a height of four to five feet, with large single, Aster-like flowers. The plant is in bloom during the summer and autumn months, and with its hundreds of daisy-shaped flowers open at one time, produces a very showy effect. Very effective for edging clumps of tall hardy shrubs or for line fences.

BOLTONIA ASTEROIDES—Pure white. Price, 10 cents each; three for 25 cents.

BOLTONIA LATISQUAMA—The long, slender stems and lavender-tinted pink flowers of this variety make it an admirable vase flower for summer decorating. Price, 10 cents each; three for 25 cents.

Shasta Daisy.

Shasta Daisy

In growth the plants are as strong as a common field daisy, very tall, well branched with fine cut foliage and huge white flowers borne in profusion on long stiff stems. The flowers are pure white with gold center, petals very long and center soft and velvety. It is a very pretty hardy plant and one of the novelties that has come to stay. Price, 10 cents each, three for 25 cents.

HARDY PERENNIAL PLANTS—Continued

Funkia.

Stokesia (Stoke's Aster)

CYANEA—One of the prettiest and most distinct hardy plants we have listed and one that will be a delight to anyone to have. It produces showy, Aster-like deep lavender-blue flowers frequently five inches across, in clustered heads, from early in June until cut down by severe frost in late fall. Grows to a height of about eighteen inches. Price, 10 cents each; three for 25 cents.

Pyrethrum

HYBRIDUM FL. PL.—Too much cannot be said in favor of this grand hardy perennial. Their main season of blooming is in June, but if the old flower stems are removed they will give a fair sprinkling of flowers in the autumn. The bloom is similar to that of an Aster, and ranges in color from pure white and the various shades of pink and red to deep purple; mixed. Price, 10 cents each, three for 25 cents.

ULIGINOSUM (Giant Daisy)—Grows three to four feet high, and is covered with large white Daisy-like flowers three inches in diameter from July to September. Price, 10c each; three for 25c.

Veronica (Speedwell)

An admirable species of border plants with various forms of growth, but alike in gorgeous showiness of bloom. Flowers are borne in long compact spikes of some shade of blue or white. Abundant during July and August.

LONGIFOLIA SUBSESSILIS—Deep blue. Three feet. Price, 20 cents each; \$2.00 per dozen.

Double White Daisy Snow Crest

A most distinct and an improvement on all existing sorts. Its habit of growth and size of flowers, in comparison with older varieties, is gigantic. The flowers, which are borne on stout, stiff stems and full to the center. When fully developed they rise to a conical, or sugar-loaf form, and well-grown specimens will cover a silver dollar. It makes an admirable hardy garden plant or may be forced for cut flowers under the same treatment as violets. Price, 10 cents; three for 25 cents; 75 cents per dozen; \$5.00 per hundred.

DOUBLE PINK DAISY—Same as above except in color. Price, 10 cents each; three for 25 cents; 75 cents per dozen; \$5.00 per hundred.

Double White Daisy Snow Crest.

Platycodon

(Balloon Flower, or Japanese Bellflower.) The Platycodons are closely allied to the Campanulas, and form neat, branched bushes of upright habit, which bear a continual succession of flowers from June until October. **MARIESI**—Deep blue bell-shaped flowers, nearly three inches across on one-foot high plants. Price, 15 cents; two for 25 cents.

ALBUM—A white-flowered form of the above. Price, 15 cents each; two for 25 cents.

Funkia (Plantain Lily)

UNDULATA VARIEGATA—Leaves eight to ten inches long, two to three inches wide, beautifully variegated yellow and green. Flowers deep blue. Price, 15 cents each, two for 25 cents.

CORDATA (White Plantain Lily)—A handsome, showy plant with beautiful, broad, yellowish-green leaves. Flowers waxy-white, very fragrant. Price, 15 cents each; two for 25 cents.

Yucca—Adam's Needle

FILAMENTOSA—Among hardy ornamental foliage and flowering plants this can be classed at the head of the list. Its broad, sword-like foliage and tall-branched spikes of large, fragrant, drooping creamy-white flowers during June and July make it an effective plant for all positions; easy to grow and with little care. Strong plants, price, 15 cents each; two for 25 cents. Extra strong plants, 25 cents each; three for 50 cents; \$1.00 per dozen—must be sent by express.

Delphinium

Delphinium

(Hardy Larkspur.) The hardy Larkspur is one of the most important and most satisfactory plants in the herbaceous garden and should be planted extensively even in the smallest garden. Their long spikes of dark blue flowers are produced continually from June until late fall. Strong plants, 15 cents each; two for 25 cents; \$1.25 per dozen.

ALBA—Pure white flowers. Price, 10c each; \$1.00 per doz.

Pentstemon Barbatus Torreyi

(Scarlet Beard Tongue.) Close-set spikes of small, brilliant scarlet flowers. Three to four feet July and August, 15 cents each; \$1.00 per dozen.

Digitalis

(White and Pink—Foxglove.) Very satisfactory early flowering hardy perennial plants, succeeding under almost all conditions and with but trifling attention will give a wealth of flowers during July and August. They embrace a wide gauge of color from pure white to deep pink, three feet high. Price, strong plants, 15 cents each; two for 25 cents; \$1.25 per dozen.

Price, 25 cents each; five for \$1.00.

Hardy Scotch or Sweet May Pinks

These are dwarfier than the Carnation, growing about one foot in height, the colors being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground; flowers perfectly double, clove-scented, and the plants will stand out of doors year after year, being entirely hardy. Price, 10 cents each; three for 25 cents.

ABBOTTSFORD—Deep carmine, marbled with white; rich clove fragrance.

HER MAJESTY — The new double White Pink. We have much pleasure in drawing attention to this charming novelty, which is one that will hold its own as long as Pinks are cultivated. It has become one of the most "popular of the day," being grown by acres to supply the demand for cut flowers.

ESSEX WITCH—Deep cherry-red; variegated; fine.

German Iris

Helianthus

MULTIFLORUS PLENUS—A plant that should be in every garden, and one that will give entire satisfaction. The flowers are from three to four inches in diameter, as double as any double Dahlia, and cover the plant from the ground to the top. Color a bright golden-yellow. Hardy Phlox

(Early Flowering)

PRICE
12 cents
each; three
for 30 cents.

THIS IS A SPECIAL OFFER

(New Phlox Leading Lady not to be included in this price.)

THESE we consider the most desirable of all hardy perennials, flowering abundantly from July until late in the autumn. These new French varieties are of a dwarf growth, seldom attaining a height of over twelve to eighteen inches. The immense flower heads often measure from seven to nine inches across with flowers as large as a silver dollar, and comprise all shades of colors, vermilion to white. They delight in sunny location and rich soil, but are by no means particular. **ATHIS**—Salmon-pink; tall. **AMORITE**—White and lilac; medium. **BAYARD**—Bright rosy-lilac; dwarf.

Phlox.

BRIDESMAID—Pure white, clear carmine eye; blooms in large round heads; attractive.

COQUILECOT—(Dwarf.)—A fine pure scarlet; mid-season.

ECLAIREUR—Reddish-carmine, dark eye; very striking and handsome.

FLOCONDE NEIGE—Large pyramidal heads of immaculate white. We consider this variety one of the very best white.

JEANNE D'ARC—White; very fine.

PANTHEON—Deep salmon-rose; very fine.

PROF. SCHIELMAN—Salmon-rose, with carmine eye.

VIRGO MARIE—Unblemished white, rooty and vigorous. Price, 10 cents each.

WM. ROBINSON—Three feet. It is showy in the extreme, crimson shading to salmon-scarlet, produces a mass of color; a very hardy, healthy variety; the finest color mass that can be produced in shrubbery or hardy garden.

WHITE LADY—Pure white.

Our New Phlox, Leading Lady

One of our own introduction, is a strong, vigorous grower, producing immense panicles of the purest white; is conceded by prominent Phlox specialists to be the best and largest flowering white Phlox yet introduced. Price, 25 cents each; three for 60 cents.

Hardy Hollyhocks

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as the Hollyhock. For planting in rows or groups on the lawn or interspersed among shrubbery they are invaluable. The flowers, which are as elegant in shape as a Camellia, form perfect rosettes of the most lovely shades of yellow, pink and white. They require a deep, rich soil, and will repay in quantity and beauty of bloom any extra care. We offer a fine assortment in separate colors. Price, strong plants to bloom this summer, 10 cents each; four different kinds for 30 cents. Extra large plants, two years old, 20 cents.

Tritoma (Red Hot Poker)

A very attractive summer and autumn flowering plant, producing statelily flower scapes and magnificent, dense terminal spikes of high-colored flowers, familiarly known on account of their shape and glowing colors as "Red-hot Poker" plant. A very satisfactory hardy plant, which should be in every order.

PFITZERII (Ever-Blooming Tritoma)

—The best variety. The flower spikes, which are produced with considerably more freedom than in the old variety, are of gigantic size, frequently four and one-half feet high, with heads of bloom over twelve inches long, of a rich orange-scarlet, shading to salmon-rose on the edge. Price, 20 cents each; three for 50 cents.

UVARIA GRANDIFLORA—A very pretty variety with fine spikes of orange-red. The flowers are not quite as large as in the new variety above. Price, 15 cents each; two for 25 cents.

Hardy Hollyhock, Red, White, Pink, Yellow and Maroon.

Meehan's Mallow Marvels

A magnificent new strain of hardy Mallows, which for size and profusion of bloom and richness of coloring are among the most striking and beautiful perennials that grow. Flowers are from eight to ten inches in diameter and range in colors from fiery-crimson, through various reds and pinks, to purest white. Price, 25 cents each.

Ilex, Holly

Ilex Aquifolium (English, or European Holly.) Leaves of intense deep shiny green, with undulating spine-tipped margins. Berries bright scarlet, which, combined with the glossy green leaves, makes this a conspicuous plant for winter effect. Plants, six to ten inches, 25 cents each.

Camellia Japonica

General favorites with most people and the fashionable cut-flower half a century ago, and which, to some extent, has been revived during the past few years. Anyone having a cool greenhouse or conservatory will find them among the most desirable plants to grow. We offer twelve distinct varieties in the various shades of pink, rose, white and variegated in the following sizes:

	Height.	Each.	Doz.
Bushy plants, 12 to 15 in.		\$0.75	\$7.50
Bushy plants, 15 to 18 in.		1.00	10.00
Bushy plants, 18 to 24 in.		1.50	15.00

Include in your next order some of the Hardy Phlox listed at the top of this page. You will find them the best of this variety of plants, and sure to give good results.

Our Flower Seed Department

WE HAVE used the greatest care in obtaining our flower seed, and those we offer you are absolutely fresh, being grown under our personal supervision or imported from the best foreign seed growers. Failure in getting satisfactory results from seed planting may be attributed to the manner in which the seed is sown, rather than the lack of germinating power in seed, and seedsmen are unjustly censured when the fault lies in the cultivator and not in the seed. Most flower seeds germinate well in a fine, sandy loam, partly protected from the sun. Heat and moisture are the two essential points to start life in seeds. A general and fatal error is to start the seed too deep; small seeds should be barely covered with fine earth; large seeds by about half an inch. After sowing, the ground should be watered with a very fine sprinkler, regularly. Many seeds are killed by drought.

SOWING OF SEEDS—Spade the soil in the seed bed to a good depth, work it over and over with the spade in order to mash the small clods. Sow the seed in drills or broadcast, according to the kinds, covering carefully and lightly, there being more danger in covering too much than not enough. Never allow the seed to remain in dry soil. For seeds that require an early start, to secure blooms before frost, sow in shallow wooden boxes—in good garden soil. Cover the seed very lightly, keeping the box in a sunny window, covering the box with a pane of glass until the seeds begin to sprout, but never allow the soil to become too dry.

TRANSPLANTING OF SEEDLINGS—Do not allow the little plants started in the boxes to grow too tall before transplanting. Care should be used in watering the seedlings well after planting and to protect from the sun a few days with light paper.

ASTERS

The Aster is one of the most popular and satisfactory garden flowers now grown. The profusion of bloom makes it one of the best for bedding, and the lasting quality when cut makes it fine for house decoration. The newer varieties rival Chrysanthemums in color and form. The seed may be sown when trees are starting out in leaf out of doors or sown earlier in the house and transplanted.

The Unique Crown Aster

"GLORIA"

One of the most striking Asters ever introduced. The flowers are of good size and very double; color purest white in center, with a distinct margin of bright scarlet, forming a brilliant contrast; very fine; plants semi-dwarf and branching; flowers produced in greatest abundance. Price, 15 cents per packet.

Lovely New Aster

MISS ROOSEVELT

Flowers measure four to five inches across, outer petals being curled and twisted and of a pure white color, center a deep yellow. Especially fine for cutting. Price, 10 cents per packet.

Crown Aster, "Gloria."

NEW LARGE SINGLE ASTERS

Elegance—The plants are strong and vigorous, are of handsome pyramidal habit, very free blooming and produce their beautiful flowers on long, slender stems. The flowers are from two to three inches in diameter, with small yellow centers, and last for a week when cut. The petals are broad and twisted. In these we find all the shades of lavender, rose, light pink, dark blue and white. They are very popular for cutting, as they look like big colored single daisies. Fine mixed, price, 10 cents per packet.

SEMPLER'S or AMERICAN BRANCHING ASTERS

This type of Aster is most excellent for cut flowers, as the plants are of strong growth and branch freely, bearing the flowers on stiff, erect stems. Flowers measuring from three to four inches in diameter, with large, broad petals. Bloom in September, and are especially adapted to our climate.

HARDY SWEET CLOVE PINKS

These hardy pinks should be in every garden on account of their delightfully sweet-scented carnation-shaped flowers.

PHEASANT EYE FRINGED—Finely fringed, silvery-white flowers with heavily marked crimson center encircling a white eye. Strong clove-like fragrance. Price, 5 cents per packet.

DOUBLE HARDY MIXED—Double and semi-double varieties, bearing fringed carnation-shaped flowers in many shades, from white to deepest crimson. The flowers sometimes come striped or heavily blotched. Price, 10 cents per packet.

SINGLE HARDY MIXED—Flowers are single, beautiful in color, having strikingly marked eyes in the center; beautifully fringed petals. Price, 5c per pkt.

SPECIAL OFFER—Any five packets of Sweet Clove Pinks described for 25 cents.

SINGLE ANNUAL SWEET CLOVE PINKS

Dianthus Nobilis, Royal Pinks—Selected and improved varieties of the popular single-flowering Japan Pink, producing flowers nearly four inches across, the petals being undulated and twisted, each petal covering half of the other, and beautifully fringed; the colors vary from white to dark red. Very desirable. Price, 10 cents per packet.

DOUBLE ANNUAL SWEET CLOVE PINKS

DOUBLE SNOWBALL—A beautiful variety with large, pure white double flowers, very full and deeply fringed, like fine Carnations. Price, 5c per packet.

DOUBLE IMPERIAL PINK—Very double flowers, full and finely formed, a good range of colors, very bright and showy. Price, 5 cents per packet.

DOUBLE FIRE BALL—A beautiful double sort, with fine, full flowers in rich shades of scarlet, running to crimson, striking in color. Price, 5c per pkt.

OUR STRIPED MIXTURE—This mixture is made from the varieties that are very double, fringed on the edges and striped in brightly contrasting colors. Price, 5 cents per packet.

BELLIS—DOUBLE DAISY

Double Daisy.

A hardy perennial free-flowering plant, easily raised from seed. The flowers are very double and full centered on stems about six inches long, ranging in color from pure white to pink and deep rose. The Daisy succeeds best in a cool, shaded spot and requires the same treatment as a Pansy or Violet. Sow seed early in the spring in shallow drills and thin out.

Fine Mixed—In this mixture are all the shades of pink, rose, deep red and white, fine flowering strain—very double and prolific in bloom. Price, 5c per packet.

EUPHORBIA

SNOW ON THE MOUNTAIN—Two feet in height. The large, dark green leaves are widely bordered or margined with pure snow-white. Price, 5 cents per packet.

MEXICAN FIRE PLANT—At the top of each stem a cluster of the leaves will be brilliant scarlet, late in the summer, and will remain so all winter if kept in the house. Price, 10 cents per packet.

EVERLASTING FLOWERS

These odd flowers never fade, but if cut in bud and blossom and dried they will last and retain their rich and brilliant color for many years. They should be cut when in full bloom and dried slowly in the shade, with their heads hanging downward to keep the stem straight.

Mixed, per packet, 5 cents.

FERNS

We offer a good mixture of Ferns, including some of the choicest varieties, as well as the good standard sorts. We gather and test in our greenhouse a number of the best kinds and import others, so that we know the seed is of the best.

Mixed Varieties — Price, 15 cents per packet.

Japanese Morning Glories.

GIANT IMPERIAL JAPANESE MORNING GLORIES

These grand new Morning Glories from Japan are remarkable for the large size and exquisite new colors of the flower, with magnificent foliage, often beautifully blotched. Of strong, robust growth, the vines grow quickly to a height of twelve to twenty feet. They are of all shades of red, from the most delicate pink to the most brilliant crimson and maroon, and innumerable shades of blue, from pale lavender to richest indigo and royal purple; also white, yellow, gray, slate, copper color, brown, bronze, almost black, and many other odd shades not found in any other flower. Many varieties have a distinct marginal band of a different color from the rest of the flower, and some are as elegantly spotted with pink, crimson, blue, brown, etc., as the finest Gloxinias. Packet, 5 cents; ounce, 15 cents.

TALL MORNING GLORIES

Seed of the well-known Morning Glory is so cheap, the flowers so bright, and the vines of such rapid growth, that it should be planted largely to cover trellises and unsightly outhouses.

STRIPED—Flowers variously striped and blotched with red, blue and rose. Packet, 5 cents; ounce, 10 cents.

FINE MIXED—A great variety of colors of the popular old-fashioned Morning Glory. Packet, 5 cents; ounce, 10 cents.

MARIGOLD

A swift-growing annual that will make a great show of flowers of all shades of yellow, orange, red and copper, for little care and small expense.

New African Marigold Orange Prince.

THE CHINESE KUDZU VINE

"Jack-and-the-Beanstalk"

If you wish a vine that will grow everywhere, plant the Chinese Kudzu. It will flourish where nothing else grows, and last for many years. The large, bold leaves of the brightest green afford a dense shade. It is of wonderfully strong growth, which makes it invaluable for rapidly covering arbors, fences, porches, dead or old trees, rockeries, etc. The Kudzu Vine is a native of China, where it is grown not only for the beauty of the plant, but also for the edible value of its roots. The vine is hardy, and is well filled with dense foliage to the ground; grows fifty feet if permitted, but may be kept down by cutting back. Price, 15 cents per packet.

KOCHIA SCOPARIA

This highly ornamental annual plant grows quickly from seed sown in the open ground, when trees are coming out in leaf, and the plants are always of the rounded or globe-like form shown in our illustration. The plants branch freely and the stems are clothed with slender light green leaves. Early in the fall the ends of the shoots are thickly set with small bright scarlet flowers—the bushy plants resembling balls of fire. The plants are equally showy planted singly to show the round, ball-like form on all sides, or grown in continuous rows. Packet, 5 cents.

LATHYRUS LATIFOLIA

Perennial or everlasting Peas. All colors. Price, 5 cents per packet.

LEMON VERBENA

A well-known, delightfully fragrant annual. Easily started from seed. The leaves are used for flavoring jellies. Price, 10 cents per packet.

LOVE IN MIST

(Nigella)—A compact, free-flowering plant, with finely cut foliage, curious looking flowers and seed pods; of easy culture, growing in any garden soil; hardy annuals; one foot.

Mixed Varieties—All colors. Price, 5 cents per packet.

LANTANA (Finest Mixed)

A small plant, easily grown, whose leaves are used as a perfume. Price, 5 cents per packet.

MIGNONETTE

Red Goliath Mignonette.

Quick growing plants, grown for their delicious fragrance. Sow early in the spring, in the garden where the plants are to remain; but for winter flowering sow in August and pot before frost.

MACHET—Vigorous growth, with broad, heavy spikes of delicious flowers. Price, 5 cents per packet.

RESEDA ODORATA—The old-fashioned sweet variety; small flowers. Price, 5 cents per packet.

NEW GIANT MIGNONETTE, "RED GOLIATH"—This new variety is claimed by experts to be the most beautiful Mignonette in existence; plants of compact habit; giant trusses of flowers, surpassing all others in brilliancy of color, which is decidedly red in effect; fragrance deliciously rich. Price, 15 cents per packet.

Moon Flowers.

NEW GIANT WHITE MIGNONETTE, "WHITE PEARL"—This variety is of strong, robust growth, producing in great abundance large conical heads of pure white flowers of exquisite fragrance. Price, 10 cents per packet.

GRAND NEW MIGNONETTE, "DEFIANCE"—When grown under favorable conditions, spikes will not only be of remarkable size—from twelve to fifteen inches long—but deliciously fragrant. The individual florets are of immense size, forming a graceful as well as compact spike. Of extraordinary keeping qualities, retaining their grace and fragrance until every bud opens. Price, 10 cents per packet.

BEAUTIFUL CLIMBING NASTURTIUMS

NEW CLIMBING NASTURTIUMS MME. GUNTHER'S HYBRIDS

For richness and variety of colors these new hybrids have no equal among Nasturtiums. It would be impossible to describe all the different colors. The foliage is mostly dark, and contrasts very effectively with the rich colors. They are climbers and free and continuous bloomers. Large packet, 10 cents; two packets for 15 cents; ounce, 20 cents; one-fourth pound, 60 cents; pound, \$2.00 postpaid.

Nasturtiums.

CHAMELEON NASTURTIUMS

When a plant of this novel sort is in full bloom, one can find upon it flowers of almost every shade of color and form of marking known to Nasturtiums. No matter what color a flower may be when it opens, it is continually changing until it fades. Unlike many flowers which are notable because curious, those of the Chameleon Nasturtium are always beautiful and attractive.

DWARF CHAMELEON—Packet, 5 cents; ounce, 15c.

TALL CHAMELEON—Packet, 5 cents; ounce, 15 cents.

TRAILING NASTURTIUM "TOM POUCE"

This is a very distinct type. The foliage, flowers and habit of the plants differ from all other Nasturtiums. The vines grow only two feet long, with no tendency to climb. The leaves are leathery and dark green. The flowers are smaller than those of ordinary Nasturtiums, but are borne in greatest profusion. The colors are yellow with citron blotches, scarlet, and orange blotched red. They are peculiarly adapted as trailers for vases, window boxes, hanging baskets, rock work, embankments, etc. Packet, 5 cents.

"SPECIAL" MIXTURE OF DWARF NASTURTIUMS

This mixture contains eighteen different varieties of Dwarf or "Tom Thumb" Nasturtiums, and no better annual exists; for filling beds or borders with a continuous supply of flowers they are unexcelled. Their handsome foliage shows a variety of green shades, including both light and very dark blue-green leaves with distinct veins, as well as the old well-known tints; and the flowers are also greatly improved in coloring and in marking. Both this mixture and the "special" mixture of Tall Nasturtiums include varieties having blooms of a velvety texture new to the species, and some showing odd colors heretofore unknown among flowers. Price, large packet, 10 cents; two packets for 15 cents; ounce, 20 cents; two ounces, 35 cents; one-fourth pound, 60 cents; pound, \$2.00, postpaid.

TALL or CLIMBING NASTURTIUMS

Beautiful and luxuriant climbers for trellises and arbors; of easiest culture, bearing gorgeous flowers in profusion until killed by frost.

ORANGE—A deep shade. Packet, 5 cents; ounce, 10c.

SCARLET—Very bright. Packet, 5 cents; ounce, 10c.

PEARL—Cream white. Packet, 5 cents; ounce, 10c.

ROSE—A lovely deep shade. Packet, 5 cents; ounce, 10 cents.

SUNLIGHT—Bright yellow. Packet, 5 cents; ounce, 10 cents.

TALL NASTURTIUMS, MIXED—Many colors. Pound, 80 cents; one-fourth pound, 25 cents; ounce, 10 cents; packet, 5 cents, postpaid.

OUR SUPERFINE MIXTURE OF TALL NASTURTIUMS

This mixture is composed of seeds from flowers of distinct colors in proportions that will produce the best results. The mixture cannot be surpassed. A most beautiful strain, flowering profusely, and having a wide range of bright and distinct colorings, embracing rose, pink, salmon, purple, velvety dark maroon, light yellow, and deep orange in self-colors, as well as most showy striped and blotched varieties. These are all of strong, vigorous growth, throwing out running shoots that can be trained upon strings or wires, or can be readily made to climb the ordinary paling fences or wire netting. They are also very showy planted at the top of a steep slope and allowed to run down the bank. They are equally beautiful, simply trailing on level ground. Price, for large packet, 10 cents; ounce, 20 cents; one-fourth pound, 60 cents.

Dwarf Nasturtiums.

TOM THUMB NASTURTIUMS

Dwarf or Bedding Varieties

The improved varieties of the Dwarf Nasturtium are among the most popular and beautiful of our garden plants. Their neat, compact growth, rich colored flowers and free-blooming and long-lasting qualities, together with their adaptability to almost any soil or situation, make them unsurpassed for garden decoration.

One packet each of the above five named kinds of Nasturtiums for 25 cents.

BEAUTIFUL PANSIES

The most gorgeous Pansies can be very easily raised from seed, and nothing can be finer for early bedding or cost less. Sow the seed in late winter, while the weather is still cold, in boxes in the house, in good garden soil, covering very lightly with fine powdered soil. Keep in a cool spot and do not force them on too fast, as they make stronger plants if they grow slowly. Transplant when an inch high in other boxes or pots and set in the garden in a cool shaded spot early in the spring, shading the young plants from the hot sun when first planted.

For description, see next page.

CHOICEST PANSY SEED

The Beautiful Rainbow Mixture—Largest, most handsome and most varied of all Pansy mixtures. All the leading kinds of commerce, seeds of the Giant, Bugnot, Cassier and Trimardeu, with flowers measuring, when well grown, three inches in diameter, and such beautiful colors as gold-bronze, silver-edged, marbled, mahogany spotted, claret-red, finest mottled, striped and blotched sorts, rich in color and of the giant-flowered type. Price, 10 cents per packet.

Fire-Brand Mixture—There seems to be quite a desire for the red shaded Pansies, so to satisfy this demand we offer the "Fire-Brand Mixture," composed of the choicest, most brilliant red-flowered Pansies. Price, 10 cents per packet.

BEDDING PANSIES IN SEPARATE COLORS

This new type of Sweet Pea is quite distinct from the old standard sorts. The flowers are enormous in size, usually over two inches across, with elaborately fluted wings and standard, and very delicately tinted. Bearing four of these immense blooms to a stem which is long and strong, they are truly all that could be desired in Sweet Peas.

True "Spencer" Sweet Peas

Price, 10 cents per packet; 25 cents per ounce for any named SPENCER SWEET PEA.

COUNTESS SPENCER—Soft rose-pink; outer edges deeper pink. (See page 4 of cover.)

PRIMROSE SPENCER—Delicate soft yellow or primrose color.

OTHELLO SPENCER—The popular shade of deep maroon, very rich and unusual, immense flowers much crinkled.

WHITE SPENCER—Purest white. (See page 4 of cover, colored illustration.)

HELEN LEWIS—Rich orange with shadings of crimson.

BEATRICE SPENCER—Pink. (See page 4 of cover, colored illustration.)

KING EDWARD SPENCER—Scarlet. (See page 4 of cover, colored illustration.)

ASTA OHN—Lavender. (See page 4 of cover, colored illustration.)

ORCHID-FLOWERED MIXED—This is a mixture of all new varieties of this type of gigantic Orchid-Flowering Sweet Peas; exquisite tints which blend harmoniously. Price, 10c per packet; 20c per ounce.

HOW TO GROW SWEET PEAS

THE soil for Sweet Peas should be rich and deep. A good rich loam, with plenty of well-rotted manure in it, is the ideal soil for raising good plants that will produce plenty of blooms of good substance. Soils that are at all heavy are best dug in the autumn, and during the winter months a good dressing of hardwood ashes or air-slaked lime should be given it. They should be in a position fully exposed to the sunlight and air on both sides of the row. Much depends on the state of the weather as to when the seed may be sown out-of-doors; but they should be sown as early in the season as the ground can be worked, which is usually between the middle of March and the middle of April in the latitude of Springfield. It is best to make a trench or furrow about six inches deep, in the bottom of which sow the seed thickly. Cover the seed with about an inch of soil, pressing it down firmly. As soon as they are above ground, thin out to two to four inches apart; when planted too close they do not attain their full development. As soon as the plants are above the trench the balance of the soil may be filled in. They should be staked up either with branches of brush or stout stakes on which wire netting has been fastened. These should be at least four feet high, and five feet would be better. It is just as well to do the staking at the time of sowing, or it may be done before filling in the trench. During dry weather they should be watered thoroughly and frequently and given an application of liquid manure once a week. A mulch of hay or rakings from the lawn will be found beneficial during hot weather. The flowers should be cut as often as possible, and all withered blooms should be removed, to prevent the plants from running to seed, which would stop them from continuing in bloom. White-seeded varieties should not be sown until the ground is comparatively dry and warm. If sown under cold, wet conditions, the seed will rot in the ground. With few exceptions, Sweet Peas are black-seeded, and these do not appear to be affected like the white-seeded sorts.

Verbenas.

SWEET WILLIAM (Dianthus Barbatus)

Sweet William.

A very beautiful class of plants of extreme richness and diversity of color. They have been greatly improved of late years; 1½ feet. Hardy perennial.

Fine Mixed Single—Price, all colors, 5c per packet.

Double—Flowering, Finest Mixed—From a splendid col-

lection. Price, 10 cents per packet.

GOURDS

DIPPER—For straight handles grow on a trellis. Price, per packet, 5 cents; ounce, 20 cents.

DISH RAG OR SPONGE GOURD—(Chinese Luffa.) Yellow flowers, followed by long green fruits, which form inside a tough, fibrous, sponge-like mass, which when seeds and shell are removed is popular for bathing. Price, 5 cents per packet.

WALL FLOWER

Exquisitely fragrant, long spikes of single or double flowers. Single, large-flowering, mixed, packet, 5 cents; double large-flowering, mixed, packet, 5 cents.

UMBRELLA PLANT

An excellent plant for growing in water or damp places; makes a very ornamental house plant. Price, 10 cents per packet.

SCHIZANTHUS (Butterfly, or Fringe Flower)

The Schizanthus has been called the "poor man's orchid" on account of their easy culture and resemblance in form and variety of coloring to some of the floral aristocrats. May be sown out of doors in spring where they are to remain, or started inside and transplanted when the weather is suitable. A sowing made in autumn will give an abundance of bloom through the winter. We offer a splendid mixture of this interesting flower at 5 cents per packet.

SUNFLOWERS—(Helianthus)

These plants grow in clumps or borders, are extremely showy on lawns, and form a decorative background for other flowers, as well as serving excellently to hide fences or other unsightly objects.

Mixed Varieties—Single, double, pompon and chrysanthemum. Price, 5 cents per packet.

SENSITIVE PLANT (Mimosa Pudica)

Curious and interesting annuals, with pinkish-white flowers; the leaves close and droop when touched or shaken. Price, 5 cents per packet.

SCARLET RUNNER

One of the best climbers known. As easy to grow as a garden bean. Vines will run from fifteen to twenty feet in a season with good dark green foliage and long branches of brilliant scarlet flowers shaped like pea blossoms. A most showy bloomer, as the scarlet flowers are succeeded by dark purple seed pods. Price, 5 cents per packet.

RED HOT POKER (Tritoma)

Splendid hardy perennial plants for clumps on the lawn or among shrubbery, where the tall spikes of orange-red flowers make an effective display from August until December. Price, 10 cents per packet.

TEN-WEEKS STOCKS

One of the most popular plants, either for bedding, massing or pot culture; for brilliancy and diversity of color or profusion and duration of bloom is unsurpassed. The Ten Weeks Stocks are generally cultivated, and bloom from ten to twelve weeks after being sown; they grow from six to eighteen inches high, and when grown in light, rich soil, they bear an immense quantity of bloom, each plant forming a perfect bouquet of delightful fragrance. Half-hardy annual.

Lawn Grass and Clover Seed

SPECIAL MIXTURE FOR THE LAWN

This mixture will produce a thick, good sod in a very short time. Price, 45 cents per pound, three pounds for \$1.20, postpaid; 35 cents per pound, three pounds for \$1.00, by express, purchaser's expense.

OUR OWN LAWN GRASS MIXTURE

As this mixture is composed entirely of choice, clean seed of the finest and most costly grasses, it cannot be sold at so moderate a price as our regular lawn mixture. The best mixture obtainable for shady places. Price, 45 cents per pound, by mail, postpaid; 35 cents per pound, by express, purchaser's expense.

WHITE CLOVER

White Clover is an excellent addition to lawn grass seed, and should be sown with it wherever a quick, short growth is needed; holds green and does not burn out so readily as grass. Price, 35 cents per pound, postpaid; 30 cents per pound by express, purchaser's expense; five pounds and over, 25 cents per pound.

No premiums are allowed on grass seed, nor should they be included in premium list.

Sweet, Medicinal and Pot Herbs

THYME—Leaves used in seasoning meats and soups. Price, 5 cents per packet.

Brugmansia, or Angel's Trumpet

Brugmansia, or Angel's Trumpet.

Here is a plant for the masses. It grows easily, blooms freely and the flower is something to be proud of. The Brugmansia blooms indoors in winter and in the garden in summer. The plant has large, tropical leaves, with blooms eight inches long by six inches wide, at the mouth, resembling a trumpet, hence the name, "Angel's Trumpet." Pure white in color and as fragrant as a Jasmine. Blooming plants, 20 cents each.

New Curled Swiss Chard or "Spinach Beet"

NEW CURLED SWISS CHARD OR "SPINACH BEET"

LUCULLUS—The plants grow to a height of two to two and one-half feet. The stalks are thick and broad, heavily ribbed, and from ten to twelve inches long below the leaf. These stalks are delicious when cooked, and served in the same manner as Asparagus. The leaves are large and sharply pointed at the top, while the texture is heavily crumpled or "savoyed," crisply tender and of fine flavor. Price, 5 cents per packet; 15 cents per ounce.

FRUIT TREES, GRAPE VINES, SMALL FRUITS, Etc.

Terms Net Cash. No Premium or Discount Allowed.

PLEASE NOTE THAT ALL STOCK OFFERED IN THIS DEPARTMENT IS SMALL ONE YEAR MAIL SIZE. FOR LARGER SIZES SEE PRICE LIST BY EXPRESS OR FREIGHT ON PAGE 95.

All one year trees and vines, finely rooted, cut back suitable for mailing, guaranteed to reach you in good condition, with proper treatment are almost certain to live and do well. Those wishing to plant small lots, to make small investments, to save freight or express charges on long distance shipments, to plant young thrifty stock and train according to their own requirements, will find this size admirably suited to their needs.

If ordered sent by mail, postage paid by us; if by express or freight, charges paid by purchaser, but larger one year stock will be supplied. If out of varieties ordered, others of equal merit will be sent when it can be done, unless "No Substitution" is written on order.

We have combined our nursery and greenhouses, and by building our large cold storage plant and buying an additional large farm, we are able to ship all stock from our storage plant, thereby oftentimes saving our customers double express charges. We have increased our varieties and are in position to serve you promptly and carefully. Please give us a try-out on your fruit orders, and we believe you will be pleased.

OUR GUARANTEE: All goods are guaranteed to reach you in good condition; mistakes, if made, will be promptly rectified; examine and count on receipt and notify us at once should there be any errors or damaged stock. This guarantee will not hold good unless above requirements are complied with.

STRAWBERRIES

Strawberries will succeed in any soil that is adapted to ordinary farm or garden crops. Soil should be thoroughly prepared to a good depth, well drained and enriched. Vegetable manure (muck, rotten turf, wood soil, ashes, etc.) is the best. For field culture set in rows three to three and one-half feet apart, fifteen to eighteen inches in rows; for garden fifteen inches apart each way, leaving pathway every third row. To produce fine large fruit, keep in hills, pinching runners off as soon as they appear. Ground should always be kept clean and well cultivated. In winter a covering of leaves, straw or some kind of litter will protect the plants. Do not cover them until ground is frozen or so deep as to smother the plants, and remove covering before growth starts in spring. Mulching will keep the fruit clean and the soil in good condition through the fruiting season. The blossoms of those varieties marked with (P) are destitute of stamens and are termed pistillate, and unless a row of perfect flowering variety is planted at intervals not exceeding about a rod, they will produce imperfect fruit and but little of it, but when properly fertilized, as a rule they are more prolific than those with perfect flowers.

DIP THE PLANTS IN WATER AS SOON AS RECEIVED, and bury the roots in moist, shady ground until you are ready to set them out; neglect for an hour or so is often fatal.

Price, except where noted, ten for 20 cents; \$5 cents per hundred; not less than twenty-five of a sort at hundred rates.

BUBACK (P.)—By far more plants of this variety are used than any other sort. Is large and of uniform size.

GLEN MARY (P.)—Berries large to very large, often flattened; bright deep red on surface, light red to center; sweet, rich, good flavor. Season medium to late.

Wm. Belt.

GANDY (P.)—A reliable, late variety; berries bright crimson; plants vigorous and healthy.

NICK OHMER (P.)—Very large and stocky, sending out plenty of strong runners. Somewhat triangular. It is dark glossy red, firm and of excellent flavor.

HAVERLAND (P.)—A fine grower, very productive. Berries uniform, long, medium size and quality.

KING EDWARD (P.)—One of the few varieties that were well tested before offered, plants having been sent to leading growers from Massachusetts to California with uniformly favorable reports. Fruit large, conical, slightly necked, uniform; color bright crimson, glossy and attractive; flesh firm, sweet, good flavor. It is a strong, vigorous grower, making large plants and plenty of them, a prolific yielder of large handsome berries. Price, ten for 50 cents; one hundred for \$2.50.

NORWOOD (P.)—Medium early, strong grower. The quality is unsurpassed, and the size unequaled and of enormous size. The berry is conic and regular in shape. Color, bright red. Price, ten for 40 cents, one hundred for \$2.50.

"GIBSON"—Color, beautiful dark glossy red; immense producer. Fruit is extra large and of very fine flavor. Price, 25 cents per dozen, \$1.00 per hundred.

SENATOR DUNLOP (P.)—A well tested wonderfully productive sort; will do well anywhere. Fruit good size, regular form, beautiful bright red. Ripens early and continues a long time.

WM. BELT—A large handsome, productive berry for market or home use. Vigorous, thrifty, heavy plant, producing large crops under good common matted row culture. Berries extra large, conical, quite uniform in shape, brilliant glossy red, ripens all over without green tips, good quality, carries well to market and brings highest price. One of the best varieties.

Blackberries

Unless noted, 10 cents each; ten for 50 cents; thirty for \$1.00; one hundred for \$2.50.

BLOWER—One of the best in the market. Has produced 2,694 berries on one bush, 2,720 quarts on one-third of an acre. Large size, jet black. An excellent producer, and of fine quality. Price, 15 cents each; fifteen for \$1.00; one hundred for \$3.50.

ELDORADO—One of the hardiest and the yield enormous. Berries large and jet black, borne in large clusters and ripen well together; very sweet, melting and pleasing to the taste. Have no hard core and keep eight to ten days after picking. Price, 10 cents each; ten for 60 cents; one hundred for \$3.00.

EARLY HARVEST—One of the most valuable where it succeeds, is not entirely hardy in the North and needs winter protection. Its earliness being one of the first to ripen, combined with good shipping qualities, make it very profitable. Compact dwarf grower, enormous bearer. Fruit medium size, black, of excellent quality.

OHMER—Five points which recommend this berry: Hardy, late, large, productive and of the finest flavor.

SNYDER—Extremely hardy, enormously productive, medium size; no hard, sour core; sweet and juicy. Ripens early.

WARD—Fine large fruit, black throughout, without core, and of excellent quality; an exceedingly prolific sort, bushes being covered with fine fruit, producing many bushels to the acre. Price 10 cents each; ten for 60 cents; one hundred for \$3.00.

Raspberries

Will do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows five feet apart, three feet apart in rows. Price, except where noted, 10 cents; ten for 40 cents; one hundred for \$2.00.

RUBY—One of the earliest Bright red, very large, exceedingly firm, of excellent quality. Worthy of a trial everywhere. Price, 15 cents each; ten for 75 cents; one hundred for \$4.00.

HERBERT—In hardiness it easily takes first place, standing a lower temperature than any other kind. The cane is very strong and vigorous, slightly prickly, leaves large and healthy, and has never been affected by Anthracnose, or disease of any kind. Fruit bright red, somewhat oblong, larger than Cuthbert or Loudon. Flavor very sweet and juicy, the very best for table use. Enormously productive. Season five to six days before Cuthbert. Holds its size well to end of season. Price, 15 cents; ten for 60 cents; one hundred for \$4.00.

KANSAS (Black)—Strong, vigorous grower, standing extremes of drought and cold and bearing immense crops. Very early. Berries size of Gregg, of better color, jet black and almost free from bloom, always brings highest price in market.

CUMBERLAND (Black)—The largest of all black caps. A healthy, vigorous grower. Produces immense crops of magnificent berries. Fruit very large and of good quality.

GREGG (Black)—For many years the leading standard sort. Best known market variety. Very productive, large size and meaty berries; covered with heavy bloom.

HAYMAKER—An Ohio seedling; excellent producer, and ripens rather late, and in all respects we think it the best Raspberry on earth. Price, 10 cents each; ten for 50 cents; \$2.50 per one hundred.

CUTHBERT, or QUEEN OF THE MARKET—A remarkably strong, hardy variety; stands the Northern winter and Southern summers equal to any. Berries very large, measuring three inches around, conical, rich crimson, very handsome, and so firm they can be shipped hundreds of miles by rail in good condition; flavor is sweet, rich and luscious. The leading market variety for main crop.

"HAYMAKER" THE NEW RASPBERRY

HOUGHTON'S—Small to medium, roundish oval, pale red, sweet and tender; very good. Price, 10 cents each; ten for \$1.00.

KEEPSAKE—Fruit very large, straw-colored, of excellent flavor; carries well to market. Bloom is well protected by early foliage, making it one of the surest croppers. On our grounds this season, three-year bushes of Keepsake were loaded with extra large, fine specimens of good quality. Believe it one of the best English sorts for our climate. Price, 25 cents each; five for \$1.00.

**Dewberry**

LUCRETIA—One of the low-growing, trailing blackberries. In size and quality it equals any of the tall growing varieties. Perfectly hardy. Fruit ripens early, and is often one and one-half inches long by one inch in diameter; soft, sweet and luscious throughout with no hard core. Ripe before late raspberries are gone. Price, 10 cents each; twenty-five for \$1.00; one hundred for \$2.00.

Lucretia.

FRUIT TREES, GRAPE VINES, SMALL FRUITS, ETC.—Continued

Grapes

These is scarcely a yard so small, either in country or city, that room for one to a dozen or more grape vines cannot be found. They do admirably trained up to the side of any building or along the garden fences, occupying but little room and furnishing an abundance of the healthiest of fruit. Make the soil mellow, and plant the vines somewhat deeper than they stood in the nursery. Plant about 8 feet apart by the fence or building. For vineyards, make rows eight feet apart, six to ten feet in rows. See page 95 for larger varieties by freight or express. A heavy stock of splendidly rooted, first-class vines on hand. Write for special prices on larger lots.

Black or Purple

SPRUCE, NORWAY—A lofty, elegant tree of perfect pyramidal habit, remarkably elegant and rich; as it gets age has fine, graceful, pendulous branches; it is exceedingly picturesque and beautiful. Very popular, and deservedly so, and should be largely planted. One of the best evergreens for hedges. Price, by mail, 15 cents; ten for \$1.00; one hundred for \$5.00. By express, twelve to fifteen inches, 25 cents; ten for \$2.00. Fifteen to eighteen inches, 30 cents; \$2.50 for ten.

MAPLE, TARTARIAN—A choice variety; medium size, rounded form, thriving in damp soils if desired. Moderate grower but makes a handsome specimen. Foliage turns yellow in the fall. Price, 30 cents each; four to six feet, 60 cents each.

MOUNTAIN ASH (European)—A fine hardy tree; head dense and regular, covered from July till winter with great clusters of bright red berries. Price, 25 cents each; five for \$1.00. Six to eight feet, 50 cents; ten for \$4.00. Eight to ten feet, 60 cents; \$5.00 for ten.

PRICE LIST OF

FRUIT and ORNAMENTAL TREES

GRAPE VINES, SMALL FRUITS, ETC., FOR SPRING OF 1913

By Express or Freight, Purchaser Paying Charges

THIRTY-FIVE ACRES DEVOTED TO THE NURSERY BUSINESS.

In filling orders from this list we reserve the right, in case we are out of a variety, to substitute another of equal merit, when it can be done (always labeling with correct name), unless the party ordering says, "no substituting," in which case we will fill the order so far as we can, and return the balance. All goods ordered from this list must be sent by express or freight, customers paying charges on receipt of goods. All heavy trees in large amounts should be sent by freight, as charges are so much less, and our perfect packing admits a long journey without injury to the trees. Always give full and explicit shipping directions, as our responsibility ends on delivery of trees in good condition to the freight or express office. We will be pleased to quote prices to anyone desiring different sizes or stock in larger quantities than offered herein. In sending list state definitely the number of each variety and size wanted. For varieties and descriptions, or for more extended descriptions, see pages 88 to 95. We guarantee all stock to be up to size and grade specified in list, to be in good condition and carefully packed; this guarantee holds good only when prompt notification on arrival of stock is sent us, stating plainly any errors or cause for complaint. Our Nurseries have been thoroughly inspected and found free of San Jose scale, or other injurious insects and diseases. A certificate of inspection will be attached to all shipments.

TERMS Net cash with order. No discounts allowed. 5 at 10 prices, 50 at 100 rates; but if remittance amounts to \$25 and up, everything at lowest rate quoted in this Price List, both fruit and ornamental. Remember that we employ no agents are responsible only for orders sent to us through the mail or delivered in person. No charge for packing or delivery at express office or railway station here.

SOME VERY CHOICE BEGONIAS

Pink Rubra.

PINK RUBRA

If you have only one Begonia, let it be a pink Rubra, for it will prove a constant delight. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy stiff canes an inch in diameter, and rising beside them will grow strong, slender branches, gracefully drooping under heavy waxen silver spotted leaves and pendent panicles of pink-colored flowers as large as a hand. Price, 10 cents each; three for 25 cents; strong plants from three-inch pots, 20 cents each; three for 50 cents.

RICINIFOLIA (Star Begonia)

Blossoms clear, rich pink. Bloom is lifted high and spray-like, quite clear of the foliage. Leaf very large, averaging a foot or more in diameter, separated into seven or nine large points and carried on thick, heavy stems eighteen inches or more in height. Foliage rich green, with red markings; surface velvety. A fine decorative plant. Strong three-inch pot. Price, 25 cents; three for 60 cents.

BEGONIA GRACILIS ALBA (White)

This charming new Begonia resembles Luminosa in every particular except in color, which is pure white, sometimes tinted delicate pink. It is an exceptionally strong, robust grower and a true ever-bloomer. A splendid bedder and a grand pot plant. Price, 10 cents each; three for 25 cents.

Our Great 60-cent Mail Trial Collection FOR OUR NEW CUSTOMERS

This collection is, as you will readily see, composed of strictly meritorious and up-to-date varieties of plants. They are a fair criterion of the plant material put out from our establishment, and we guarantee them to be just as we represent them. This nice collection consists of the following choice plants:

- | | |
|---|--|
| 1 Nice plant of the Boston Sword Fern. | 1 Violet Princess of Wales, fine single blue. |
| 1 Asparagus Sprengeri "Emerald Feather." | 1 Violet, Gov. Herrick, single, rich, dark purple. |
| 1 Geranium, Beaute Poitevine, best pink. | 1 Chrysanthemum, Col. D. Appleton, best yellow. |
| 1 Geranium, S. A. Nutt, red. | 1 Oleander, pink, very fine pot plant. |
| 1 Hardy Climbing Rose, Violet Blue, a very fine good bloomer. | 1 Fuchsia, White Phenomenal largest, double white. |

This Trial Collection is a splendid bargain, costing only 6 cents per plant. If selected from any other catalogue they would cost at least \$1.00. When ordering this collection please say "60-Cent Trial Collection."
